00:00:01 Thomas

There we go.

00:00:02 Harrison

That's solid.

00:00:13 Jamie

All rise, Brandi Burns.

00:00:18 Thomas

This is like the dance they do.

00:00:19 Thomas

What's the dance they do?

00:00:20 Thomas

They do different...

00:00:21 Thomas

I was just thinking what the dance, they always do these kind of dances, 'cause they're old.

00:00:29 Harrison

Well, they have to like--.

00:00:30 Thomas

Well, they can't do actual dance, they.

00:00:31 Katie

Just do like these-- They are limited by arthritis.

00:00:34 Harrison

Why is it like the man's signal boxes?

00:00:38 Harrison

That way! Singapore.

00:00:42 Jamie

Coupon! Oh, your bloody links on your footer don't work.

00:00:54 Thomas

In which one?

00:00:55 Thomas

Which link?

00:00:57 Jamie

Both of the links on the footer, one and about don't work.

00:01:01 Thomas

Which links?

00:01:04 Thomas

I showed me the...

00:01:04 Jamie

Is that not what I meant?

00:01:06 Jamie

No, that's not a link.

00:01:10 Thomas

That's a leftover from the AI vibe coding session.

00:01:16 Jamie

I'm so shocked.

00:01:18 Thomas

You mean it looks like a handmade?

00:01:20 Thomas

I wrote every line of that CSS.

00:01:23 Jamie

It looks like it.

00:01:24 Thomas

It's about 1000 lines for that site.

00:01:28 Thomas

About half of it isn't used anymore.

00:01:30 Thomas

But I don't know which ones because it's all written by AI.

00:01:34 Thomas

There's a glossary in the about section to do with terms to explain things if anyone needs them.

00:01:42 Thomas

They're written by AI, but I did go through all of them and edit them.

00:01:49 Jamie

Liquidity, the ease with which an asset can be used or converted into currency for spending.

00:01:55 Jamie

Currency is highly liquid.

00:01:58 Jamie

Why it's not completely liquid?

00:02:03 Thomas

Well, you can't use it immediately.

00:02:04 Thomas

You have to exchange it.

00:02:06 Thomas

Oh.

00:02:11 Jamie

Purchasing power.

00:02:12 Jamie

Bloody hell.

00:02:13 Jamie

What's Genie's coefficient?

00:02:16 Jamie

Measure of inequality ranging from 0 to 1 to 0.

00:02:18 Jamie

I still don't really know.

00:02:21 Jamie

When's it used?

00:02:23 Thomas

Well, as a measure of the inequality.

00:02:27 Thomas

As in you can compare two countries by.

00:02:29 Jamie

Oh, okay.

00:02:30 Thomas

It's a measure of how like top heavy.

00:02:32 Jamie

We measure our economy versus like Argentina's.

00:02:35 Thomas

Oh, we could do.

00:02:36 Thomas

I did have.

00:02:37 Thomas

I do have the figures now and I'll bring them up during the good.

00:02:41 Thomas

Kate's already going to sleep.

00:02:42 Thomas

Shock.

00:02:43 Thomas

No.

00:02:43 Jamie

I was awake before you and had less sleep.

00:02:49 Thomas

Mmm.

00:02:53 Jamie

You stopped me instead of bait.

00:02:56 Thomas

Well, we'll wait Harrison's return.

00:02:57 Jamie

Paul's prepared hard.

00:02:59 Thomas

I have thought for several hours about this.

00:03:02 Jamie

Oh God.

00:03:03 Jamie

This is why we never get anything ******* done in this country.

00:03:06 Jamie

No bloody physics.

00:03:08 Thomas

I've also done a lot of that.

00:03:10 Thomas

Not much AI.

00:03:11 Thomas

That's the thing I've been neglecting because the modules, some of them are ******* boring.

00:03:16 Thomas

It's all on.

00:03:16 Jamie

Those ones are dropped.

00:03:18 Thomas

One of the ones we dropped.

00:03:20 Thomas

Two hour lecture on statistical inference today.

00:03:24 Jamie

He's skiing away.

00:03:29 Harrison

I don't think we should all do that for like four of the meeting.

00:03:32 Harrison

We should all jump to establish our sort of functions.

00:03:36 Thomas

There we go.

00:03:37 Harrison

It's not the job of the cabinet, but.

00:03:38 Jamie

I'm not sure I have functions.

00:03:40 Thomas

Well, we never...

00:03:41 Thomas

minus one vote.

00:03:42 Thomas

Minus one vote.

00:03:43 Thomas

Yeah.

00:03:45 Thomas

You have to vote.

00:03:46 Thomas

There you go.

00:03:46 Thomas

I have to jump.

00:03:47 Thomas

There you go.

00:03:47 Thomas

You don't get a half a vote, maybe.

00:03:51 Harrison

I remember you did.

00:03:52 Harrison

I can have a distance.

00:03:53 Harrison

I can have a ground.

00:03:53 Jamie

I did zero this.

00:03:56 Harrison

You rose like 5 centimetres.

00:03:59 Jamie

I do the minimum and I get that much.

00:04:01 Harrison

Which isn't what you want in a politician.

00:04:03 Thomas

Exactly.

00:04:03 Jamie

I'm not a politician.

00:04:04 Thomas

Bloody Burnham's supporter here.

00:04:06 Jamie

I'm Cumstock.

00:04:08 Thomas

Exactly.

00:04:08 Katie

The business man.

00:04:10 Jamie

I'm a business man.

00:04:10 Thomas

Well, that will come up at some point.

00:04:12 Jamie

Business.

00:04:12 Jamie

I'm a business plan.

00:04:13 Thomas

Right.

00:04:13 Thomas

Depends how fast we get through.

00:04:14 Thomas

This could take an hour.

00:04:16 Thomas

I'll be recording.

00:04:17 Thomas

I'm recording.

00:04:18 Thomas

We'll see if it actually works.

00:04:21 Jamie

Is this a summary?

00:04:21 Thomas

No, it's a voice memo on an apple.

00:04:24 Thomas

I'll see if I can use it at all.

00:04:25 Jamie

Are you going to try and use the transcript and then use it?

00:04:30 Thomas

Possibly.

00:04:32 Jamie

There's no way you should sit for an apple.

00:04:33 Thomas

I'm not going to transcribe it by hand.

00:04:35 Thomas

That's why I've got to use Microsoft Teams because I've got access because of the union.

00:04:38 Harrison

Are you suggesting you have better things to do and sit for an app?

00:04:42 Jamie

Hi Tom.

00:04:45 Jamie

If there's any future summary of it, please can you include this?

00:04:48 Thomas

Well, the Bank of Mint's website will include summaries and documents.

00:04:51 Thomas

That's one of the reasons I made it.

00:04:52 Thomas

It'll have indicators and announcements when I change interest rates.

00:04:56 Thomas

That'll be the main port of call.

00:04:58 Thomas

Checking the website.

00:04:58 Katie

You can put this on your TV.

00:05:01 Thomas

I could do as like a activities, hobbies.

00:05:05 Thomas

I mean, not all that comes off at any point.

00:05:06 Harrison

Activities, Bank of Mint, so financial really.

00:05:08 Thomas

Yeah, yeah, central bank.

00:05:11 Thomas

Yeah.

00:05:12 Jamie

This is my voice.

00:05:13 Jamie

I'm Jamie.

00:05:14 Harrison

This is my voice.

00:05:15 Harrison

I am Harrison.

00:05:17 Thomas

Maybe the AI will figure it out and leave it out.

00:05:21 Katie

This is my voice.

00:05:22 Katie

I'm Katie.

00:05:23 Thomas

This is my voice.

00:05:27 Jamie

Oh **** ****.

00:05:28 Thomas

Yeah, Katie is the leader of the cum stock.

00:05:31 Thomas

Transcribe that in the AI.

00:05:33 Thomas

Call me Big Cheese, my voice is Big Cheese, Big Cheese the governor.

00:05:36 Harrison

Is that your title?

00:05:37 Harrison

Bank of Mince.

00:05:38 Harrison

Bank of Mince, Big Cheese.

00:05:39 Thomas

Governor Big Cheese, Bank of Mince.

00:05:42 Thomas

Minister of Cheese.

00:05:45 Jamie

Cheese of Mince.

00:05:46 Thomas

Right, I'm gonna go through quite a bit.

00:05:49 Thomas

There's sort of two stages.

00:05:51 Jamie

It's a two step plan.

00:05:52 Thomas

The first is the main thing.

00:05:54 Thomas

I'm gonna just dump what I've been thinking and then we can discuss at the end.

00:05:58 Thomas

There's kind of several points we can hit up on.

00:05:59 Katie

Where's your talking stick?

00:06:01 Thomas

That's a good point.

00:06:04 Katie

You've got to stop the...

00:06:06 Harrison

Everything you said before this.

00:06:09 Harrison

Tom wasn't speaking.

00:06:10 Katie

It's weird that we just sat it inside.

00:06:13 Harrison

That was just the winds.

00:06:14 Harrison

Very drafty.

00:06:15 Thomas

Right, there we are.

00:06:20 Thomas

It's the Ruler of Ruler one with all the kings on it.

00:06:24 Jamie

And if you are the queen?

00:06:25 Thomas

Yes.

00:06:28 Jamie

Henry.

00:06:30 Thomas

And then there's a second part, which is miscellaneous, but might be mentioned in the first by anyway.

00:06:36 Thomas

This is intended as a summit and discussion, not an announcement, so you can talk.

00:06:43 Thomas

I see my position.

00:06:47 Thomas

he's already speaking without a stick.

00:06:51 Thomas

I see my position as governor as somewhat for life or until retirement or until I mess up.

00:06:57 Thomas

The reason is, the reason I call myself governor, not minister, is because it's more civil service and not politician.

00:07:05 Thomas

The actual plans and ideology is what this is for, and then I go away and implement it.

00:07:11 Thomas

So I'm not telling you what's going to happen.

00:07:13 Thomas

I'm not telling you what's going to happen.

00:07:16 Thomas

I'm telling you what I think about the economy, and then you can talk.

00:07:22 Thomas

There you go.

00:07:22 Harrison

Can I just, so I can advise them?

00:07:24 Harrison

Excuse me?

00:07:26 Thomas

Yes, well I can.

00:07:26 Harrison

I think, I think the punishment for, I'm.

00:07:29 Jamie

Hardly, I think the.

00:07:31 Harrison

Punishment for speaking about talking sticks should be being whacked and talking slick.

00:07:35 Jamie

That would be fun.

00:07:36 Thomas

And enough, it's on the ***.

00:07:40 Harrison

No, I'd like the rate of appreciation the way Tom says governor.

00:07:44 Harrison

Governor.

00:07:45 Harrison

Governor, as if they're like from the East End.

00:07:48 Harrison

Governor.

00:07:48 Thomas

Governor.

00:07:48 Harrison

There we go.

00:07:50 Thomas

I say *** like I'm from the South and I say governor like I'm from the East.

00:07:54 Jamie

Governor.

00:07:56 Thomas

Right.

00:07:58 Thomas

We may at least begin.

00:08:05 Thomas

Well, I'll put it at the top just because I'm very proud of it and it took me many hours.

00:08:10 Thomas

the bankofmints.com.

00:08:14 Jamie

Is it indexed?

00:08:14 Thomas

You can also, I don't know yet.

00:08:19 Thomas

You could also join the server with this now as well.

00:08:22 Thomas

That's really cool.

00:08:23 Thomas

So you don't need to remember the IP.

00:08:28 Thomas

If you join from a new laptop, you can use that.

00:08:32 Harrison

Oh, that is sick.

00:08:33 Harrison

There.

00:08:35 Thomas

You go.

00:08:39 Thomas

All the things that test at the minute are the actual figures, but as we play on, if we do, we can see.

00:08:44 Katie

I can't believe this URL wasn't taken already.

00:08:48 Harrison

We did look into an actual bank.

00:08:51 Harrison

That's quite expensive.

00:08:52 Thomas

Apparently you need 5 million euros or 500 pounds for the UK.

00:08:55 Harrison

Because of woke.

00:08:56 Thomas

Because of woke.

00:08:57 Jamie

But can we not apply to some nonsense in Asia?

00:09:01 Harrison

We went over this as well.

00:09:03 Thomas

We tried other places.

00:09:05 Thomas

I say I ask AI.

00:09:08 Jamie

There's like, there is nonsense nations out there.

00:09:10 Jamie

Probably.

00:09:11 Jamie

Sealand.

00:09:13 Jamie

Sealand.

00:09:14 Harrison

Sealand.

00:09:14 Thomas

I don't know if they'll allow us to set the bank.

00:09:19 Jamie

I paid them a couple quid.

00:09:20 Harrison

They're going to make your money.

00:09:25 Jamie

Guernsey is not real.

00:09:26 Jamie

We can try Guernsey.

00:09:27 Thomas

Right.

00:09:27 Thomas

I think there's two main issues with our current economy.

00:09:32 Thomas

Yeah, one is K2, that's #0.

00:09:36 Harrison

That's a given.

00:09:37 Thomas

That's a given, I'm not going to even discuss that.

00:09:39 Jamie

So given that Katie's an issue.

00:09:42 Thomas

So at the minute we've been generating wealth by killing the cows and we've been taxing that to get money to the government and everyone gets wealth from production of the cows.

00:09:53 Thomas

The problem with that is that's effectively printing money.

00:09:56 Thomas

That was good at the start because we had no money and we wanted to generate it equally and evenly while giving some to the government.

00:10:01 Thomas

But now we have quite a bit of money.

00:10:04 Thomas

I did a round look and we have about 4,000 raw beef.

00:10:08 Jamie

How do you know that?

00:10:10 Thomas

Because I went round and checked everything, including your data file if you're under chest.

00:10:16 Harrison

Are you trying to hide funds?

00:10:17 Harrison

Are you tax dodging?

00:10:19 Jamie

No, I just like to keep them under the table deals.

00:10:22 Jamie

I was just checking that was an accurate figure.

00:10:24 Thomas

It's very rough.

00:10:29 Thomas

So that's about a double chest of raw beef.

00:10:31 Jamie

Did you check my bag of mince?

00:10:33 Thomas

Your bag of mints.

00:10:35 Jamie

Yeah, I also keep a sack of in a bag.

00:10:38 Thomas

Maybe, I don't know.

00:10:39 Thomas

I went through most of the things.

00:10:41 Harrison

Can we start calling counterfeit mints, mints?

00:10:46 Thomas

What an amazing...

00:10:48 Harrison

I ran into this thing before.

00:10:49 Harrison

Counterfeit mints, but we can call counterfeit mints, mints, as in the sweet that makes your breath nice.

00:10:55 Harrison

Mints.

00:10:56 Harrison

Yeah, mints.

00:10:57 Katie

Mints.

00:10:59 Katie

What do you call mints a sweet.

00:11:01 Harrison

It's not savory.

00:11:03 Harrison

This is off topic.

00:11:03 Thomas

So you're not buying a talking stick.

00:11:07 Thomas

It's almost like it's completely pointless.

00:11:09 Thomas

Anyway, so there's 4000 in Croatia, about 1000 is owned by the bank.

00:11:13 Jamie

Bloody hell, how did you work that one up?

00:11:15 Thomas

I know.

00:11:17 Thomas

This is why I'm there.

00:11:22 Thomas

So in circulation, in circulation is about 3000.

00:11:26 Thomas

Given that we're not trading much in a minute, I think that's more than enough, which is why I've set the tax rates to 100% for production, and I'm going to leave them like that.

00:11:33 Jamie

He has seized the means of production.

00:11:35 Thomas

If production of the currency, which is different to production of the value, which is what Marks was talking about.

00:11:40 Harrison

Wait, hold on.

00:11:41 Harrison

So 100% as in like...

00:11:43 Thomas

Because no one's allowed to make it anymore.

00:11:44 Harrison

Oh, not as much as you say you can...

00:11:46 Harrison

Oh, because that would be a net loss.

00:11:47 Harrison

Yeah, never mind.

00:11:48 Thomas

Yes.

00:11:48 Thomas

So no one creates it more.

00:11:49 Thomas

The bank can still create it occasionally, as the bank normally does.

00:11:53 Thomas

The bank at the minute, the Bank of England creates about 6 billion annuals we found earlier on one of the Fridays.

00:12:00 Thomas

6 billion sounds like a lot, but the government spends about 2 trillion total.

00:12:03 Thomas

So it's a fraction of a percent they actually create, not much.

00:12:06 Thomas

The problem, if we keep producing it like we currently are, we're going to have more and more money and it's just going to become useless.

00:12:12 Thomas

It's essentially going to be hyperinflation.

00:12:14 Thomas

Technically not hyperinflation because we're not producing exponentially more, but we have a worthless currency if we keep going.

00:12:21 Thomas

Yes.

00:12:22 Thomas

So it was very good at the start because we allowed us to create money.

00:12:25 Thomas

I'm going to put, yeah.

00:12:28 Jamie

A little pen of cows.

00:12:30 Jamie

Oh, wait, no, actually, they're going to live happily.

00:12:33 Harrison

I was going to say, I was going to suggest cook them.

00:12:35 Thomas

Yeah, that's what I probably will do.

00:12:37 Jamie

I mean, I could just let them out into the ocean.

00:12:39 Harrison

Sea cows.

00:12:41 Thomas

Reliance on production, which is unsustainable long term.

00:12:44 Thomas

And secondly, there's not much to spend the money on at the minute.

00:12:48 Thomas

I think Jamie's figured this out.

00:12:51 Thomas

He has a ton of raw beans.

00:12:52 Thomas

He has about 2,000 raw beans.

00:12:54 Jamie

I've actively bought.

00:12:54 Jamie

Whoa.

00:12:55 Thomas

He has about two thirds.

00:12:56 Jamie

I've actively bought from all of your shops for stuff I don't need.

00:12:59 Thomas

Yep, he's discovered a problem.

00:13:00 Thomas

We have very low, it's called the velocity of money.

00:13:03 Katie

So we need to build more farms and more shops.

00:13:06 Jamie

Someone really needs to build a gold farm so we can improve the rail.

00:13:10 Jamie

I really want rail to sword is my main thing.

00:13:12 Thomas

These are the two problems.

00:13:16 Thomas

OK, number one, if we set tax rates to 100%, as it currently is, that's good.

00:13:19 Thomas

We're not printing any more.

00:13:21 Thomas

The problem is the government doesn't get any money.

00:13:23 Thomas

So we can either set tax rates back to what they were and allow people to keep produce and go into essentially hyperinflation.

00:13:31 Thomas

We could set tax rates to 100 and fund the government purely from printing money, which again leads to hyperinflation.

00:13:36 Thomas

It's slightly slower.

00:13:37 Jamie

This hyperinflation thing seems to happen quite often.

00:13:41 Thomas

Very long term.

00:13:42 Thomas

Well, typically there's people in charge like me and go to the government and be like, the government and be like, you're ******* you're ******* up, mate.

00:13:48 Jamie

Yeah, come on, Rachel.

00:13:50 Thomas

Okay.

00:13:51 Thomas

Or, okay, well...

00:13:52 Harrison

That's okay with that.

00:13:53 Thomas

So the minute we have zero...

00:13:56 Thomas

One of the problems is that we seem to be fairly undecided on where on the communism...

00:14:06 Katie

Where on the communism.

00:14:08 Thomas

Versus the capitalism we're going to do.

00:14:10 Thomas

How much we're going to have done by the government and how much we've done by the private corporations.

00:14:14 Katie

Do you have to practice how to draw the hammer and sickle?

00:14:19 Jamie

Can we use Swasticker as well for fairness?

00:14:22 Thomas

Fairness.

00:14:23 Harrison

In what way is this fair?

00:14:25 Harrison

You never want to start a second question, to be fair to the Nazi.

00:14:29 Harrison

I'm okay with not being fair to the Nazi.

00:14:32 Thomas

Yeah, I think they discredit it.

00:14:34 Harrison

I can live with that.

00:14:35 Thomas

I can live with not having a swastika on my head.

00:14:39 Thomas

So I don't know how much we're doing, because this also impacts, because we could just say we're going private companies, everything, cut government funding, all government funding shuts down, the VCC shuts down, the VCA shuts down.

00:14:50 Thomas

I don't know.

00:14:51 Thomas

That's the one with the money.

00:14:53 Thomas

I don't know.

00:14:54 Thomas

But your money's worthless because you have nothing to spend it on.

00:14:56 Thomas

So you're rich.

00:14:58 Thomas

But I could create a trillion mumbo jumbo dollars and hold them in my hand and be like, Aha, I'm a trillionaire, but you can't use it for anything.

00:15:04 Jamie

Yeah, but I do.

00:15:05 Jamie

I do.

00:15:05 Jamie

This is getting increasingly more contorted than.

00:15:10 Katie

What it means, Connor.

00:15:11 Katie

Okay.

00:15:11 Harrison

It's gonna be over there by then.

00:15:13 Harrison

Is it like stress?

00:15:14 Harrison

Is it happiness?

00:15:15 Harrison

I think it is more happiness, though.

00:15:17 Harrison

That's way more.

00:15:19 Harrison

Look at you smiling, you're having a great time.

00:15:21 Harrison

I'm a happy boy.

00:15:22 Harrison

It's gonna be the happiest day.

00:15:26 Katie

I was about to see something that he liked.

00:15:28 Katie

He's like, Whee?

00:15:31 Harrison

Hey! Just trying to be fair, when I see something that I like, I do put my legs up.

00:15:37 Harrison

Bloody hell.

00:15:40 Thomas

What I'm leading to is that if we want government funded things, we're going to have to introduce a new tax system.

00:15:46 Thomas

There's a variety of options available.

00:15:48 Thomas

There's many taxes people have come up with over the years.

00:15:50 Jamie

I am prepared to store my money on the mushroom island.

00:15:53 Thomas

That's still in the

00:15:55 Thomas

No.

00:15:56 Harrison

No, no.

00:15:58 Harrison

It's a definition of an offshore.

00:16:01 Thomas

There's a variety of what we could do.

00:16:02 Thomas

There's, for example, sales tax.

00:16:07 Thomas

Oh, dude.

00:16:08 Thomas

So every time you make a purchase, you have to spend as a profits, you pay 20% VAT, essentially fuel duty, whatever.

00:16:14 Thomas

We could do that.

00:16:15 Thomas

We could do corporation tax, where the profit of your business, you have to pay a percentage of the profit.

00:16:24 Thomas

Both of these I don't like because it slows down the amount of people to change money.

00:16:27 Thomas

When I campaigned to become in this position, I said we're not going to do this and I kind of don't want to do this as well.

00:16:33 Thomas

It's nice to have options.

00:16:34 Thomas

Nice to have options.

00:16:35 Thomas

Well, I'm not, this is not an exhaustive list.

00:16:37 Thomas

We could do property taxes.

00:16:39 Thomas

Everyone who owns something has to pay, like council tax.

00:16:43 Thomas

Yeah.

00:16:44 Harrison

Like a bigger ship tax.

00:16:45 Katie

Be like, so I've got my house.

00:16:48 Thomas

This could be more businesses property tax, like licenses.

00:16:50 Katie

Is the VCC a business?

00:16:54 Thomas

I don't know where it's the penalty side.

00:16:56 Thomas

I'm not proposing exact taxation structures we could do.

00:17:02 Thomas

I'm just saying vaguely these are the things that have been taxed before.

00:17:05 Thomas

And I'm assuming that people at some point have found out what are good to tax and what's not.

00:17:10 Katie

Did I do the WhatsApp tagline right?

00:17:12 Katie

Does it come up with that?

00:17:13 Thomas

Yeah, I see it.

00:17:14 Jamie

I didn't see yours coming.

00:17:15 Thomas

I don't think I did.

00:17:17 Thomas

I don't have yours.

00:17:18 Thomas

Right.

00:17:19 Thomas

I mean, probably taxed.

00:17:21 Katie

I'm not comparison.

00:17:22 Jamie

Have you built that post office yet?

00:17:24 Jamie

Oh yeah, I've got that post office.

00:17:25 Harrison

Oh yeah, because I'm head postman.

00:17:29 Harrison

I'm like a co-postmaster general.

00:17:31 Thomas

This will come up in the second part.

00:17:32 Thomas

Uh-oh.

00:17:32 Jamie

That's about half an hour.

00:17:34 Harrison

I think I'll be officially rebuked.

00:17:39 Thomas

There'll be a stern, anyway.

00:17:42 Thomas

Stern review kit.

00:17:43 Thomas

So we could do this, there's a variety of other taxes you can impose.

00:17:46 Thomas

I'm sure everyone's loving the tax debate we're gonna have.

00:17:49 Jamie

I am.

00:17:50 Thomas

Yeah, income.

00:17:51 Thomas

Let me just demonstrate.

00:17:52 Thomas

Income tax is one option that I think is more plausible.

00:17:57 Thomas

Where you have, every time you get money, you pay it.

00:18:01 Thomas

That's not the same as sales tax.

00:18:03 Jamie

Again, I'm not gonna-- I put a note to taxation based on wealth.

00:18:08 Katie

Yeah, I'm sure you ******* do, Mr.

00:18:10 Katie

Moneybags.

00:18:11 Thomas

The problem is...

00:18:12 Jamie

What's up with your wealth tax, isn't it?

00:18:14 Thomas

Hold on your heart in a second.

00:18:16 Thomas

I've got quite the proposal for you.

00:18:20 Jamie

KTRP three stacks of it.

00:18:24 Thomas

I think you'll find out stacks in a minute are worthless because of the second issue, of which I will also have a solution for.

00:18:30 Katie

KTRI.

00:18:31 Thomas

Infantino over it.

00:18:32 Thomas

There's a reason that we're discussing last and I'm getting everything out.

00:18:36 Thomas

We could do income, so you get money,

00:18:38 Thomas

And then at the end of the week, depending on how much you get, you pay to the bank.

00:18:43 Thomas

You could do that if you want.

00:18:44 Thomas

It will require you to keep logs of everything you get, which could be annoying.

00:18:51 Thomas

Especially once we start having different brackets in, you have to know how much you have each week, you have to keep track of everything.

00:18:57 Thomas

It is an option, but because we're not exchanging much, you don't have much income, so we're not going to get much tax from it anyway.

00:19:03 Thomas

I have another proposal to do that one separately, but that is an option.

00:19:08 Thomas

I'm not really, we could discuss later how if we're doing tax free thresholds and different bands or we're just gonna have a flat rate or whatever.

00:19:14 Thomas

My proposal though, as Jane has discovered, is the wealth tax.

00:19:20 Thomas

Woo! This is not an attack on you.

00:19:24 Thomas

Feels like.

00:19:26 Thomas

Well, because at the minute you have the most money, but it's not a person.

00:19:28 Jamie

It feels like you're punishing me for playing the game the most.

00:19:32 Thomas

In a way.

00:19:34 Harrison

Yeah, how ridiculous.

00:19:35 Harrison

Be more busy, have more things to do.

00:19:38 Katie

I logged on.

00:19:41 Jamie

Get another hobby.

00:19:42 Thomas

I feel like this is the easiest to implement because every Monday we can just say how much have you got and you have to pay, even if there's tons of brackets or whatever, you can just put a calculator in and pay it.

00:19:50 Thomas

You don't have to keep track of everything you've got during the day, during the week.

00:19:54 Jamie

Could you hold onto a few stacks for me?

00:19:59 Jamie

What if I've got investments?

00:20:00 Jamie

If I've got investments, you can't tax that, surely.

00:20:02 Jamie

I have to sell my investment.

00:20:04 Thomas

We can go on to implementation later.

00:20:05 Thomas

I'm giving my reasons to why I think a general wealth tax is a good idea.

00:20:08 Katie

He's always got his hackles raised so much already.

00:20:11 Thomas

He's got, I expected this as opposition.

00:20:14 Harrison

We have recreated the optimic system in the world.

00:20:16 Thomas

Now there's many problems with the wealth tax in real life, which is why I'm opposed to implementing it like Burnham implementing it.

00:20:23 Thomas

I think in the server though, because we're all agreeing to play fair, if we do all vote.

00:20:29 Jamie

Why do I take out like bonds for all of my money?

00:20:31 Jamie

You can't tax that.

00:20:32 Thomas

Well, you can just tax the face value.

00:20:33 Harrison

You know, we have a James tax.

00:20:36 Harrison

A James.

00:20:36 Thomas

Well, you can have a bond tax.

00:20:37 Thomas

Jamie.

00:20:37 Jamie

No, put the James Bond tax.

00:20:39 Thomas

Why are we coming on to it later?

00:20:41 Thomas

Let me explain.

00:20:42 Thomas

I've forgotten, I've lost my point now.

00:20:45 Harrison

So I think you need your talking stick and enforce.

00:20:47 Jamie

It's bloody ridiculous.

00:20:48 Thomas

Right.

00:20:48 Thomas

Oh yeah.

00:20:48 Jamie

I'm going to tax you and I won't even let you debate the debate about it.

00:20:52 Thomas

We can debate in a minute.

00:20:53 Harrison

It's talking stick hit.

00:20:55 Thomas

No, I'll anger him more.

00:20:57 Thomas

Appeasing him like Chamberlain.

00:20:59 Jamie

That worked well, didn't it?

00:21:01 Thomas

When it prepared the UK government, we couldn't have defeated Hitler in 1936.

00:21:04 Thomas

He brought us valuable time and cost him the reputation.

00:21:06 Jamie

You called me Hitler.

00:21:07 Harrison

In a way.

00:21:08 Thomas

No, I'm saying Chamberlain was actually quite good.

00:21:09 Jamie

Yeah, I was supposed to corrupt that.

00:21:12 Jamie

It's totally fair.

00:21:16 Thomas

It's easy to do based on every month.

00:21:19 Thomas

So there's less paperwork every week.

00:21:21 Thomas

I keep messing with times up.

00:21:23 Thomas

There's less paperwork.

00:21:24 Thomas

It's stimulate.

00:21:25 Thomas

The reason I like this is because these

00:21:28 Thomas

A flat property tax punishes people who are poorer more because everyone's going to pay about the same.

00:21:34 Thomas

So it's actually a regressive tax system.

00:21:36 Thomas

Yeah.

00:21:38 Jamie

Can you re-explain what you actually want to do for the wealth tax?

00:21:41 Thomas

I was going to, but then you started screaming.

00:21:43 Jamie

Oh yes.

00:21:45 Thomas

Wealth tax.

00:21:45 Thomas

How much you owe, you pay a percentage of it.

00:21:47 Thomas

There could be different bands or whatever.

00:21:50 Thomas

The reason I like this is because it solves this issue because it's a new tax.

00:21:54 Thomas

The government gets money, it can spend it on things.

00:21:57 Thomas

It also solves the second issue at the same time.

00:21:59 Thomas

The problem is none of these don't, these are bad because there's no velocity at the minute, yeah.

00:22:06 Katie

Oh, so are we not allowed to slaughter cows anymore?

00:22:09 Thomas

Not for raw beef.

00:22:11 Katie

Okay.

00:22:11 Thomas

No.

00:22:11 Katie

Cool.

00:22:12 Katie

I was just a bit confused.

00:22:14 Jamie

I can't.

00:22:14 Katie

So do you still sort them for food?

00:22:17 Jamie

When you...

00:22:18 Katie

We can still sort them for food.

00:22:19 Thomas

Yes.

00:22:20 Katie

Do we still have to sort them with a fire aspect sword?

00:22:23 Thomas

Because that was, I mean, that would make it easier.

00:22:26 Katie

That was the law.

00:22:27 Katie

I don't have a problem.

00:22:28 Thomas

Well, we'll care for you and take your stuff.

00:22:31 Harrison

If it needs someone built an enderman farm.

00:22:35 Thomas

It solves the second as well, because there's nothing to spend money on.

00:22:40 Thomas

And so the wealth tax will sort of move the money around naturally, because you're taking it from rich people would spend more, poor people would spend less, because you spend about as much as you have.

00:22:48 Jamie

It would incentivize me to spend more.

00:22:49 Thomas

It would incentivize you to spend more.

00:22:51 Thomas

It also forces you because we're taking it.

00:22:53 Thomas

So it would get the money moving around a bit quicker.

00:22:55 Jamie

It'd be like a surplus.

00:22:59 Thomas

And again, at the minute you have a lot of money, but there's nothing to do.

00:23:02 Thomas

Yes, I do.

00:23:02 Thomas

There's nothing to use it for.

00:23:06 Katie

No, there's not.

00:23:07 Jamie

I mean, I offered to, I am going to take away my offer.

00:23:10 Jamie

I did offer to pay you to build an animal hospital.

00:23:13 Jamie

But what are you going to spend it on?

00:23:14 Jamie

I just thought, I thought it'd be good.

00:23:15 Jamie

That was me.

00:23:16 Thomas

She doesn't log it in.

00:23:20 Thomas

You've got an offer for the VCC.

00:23:21 Jamie

Yeah, I'm taking that away.

00:23:23 Jamie

No, wait, wait, wait.

00:23:24 Jamie

That was before this.

00:23:25 Harrison

But you are the VCC.

00:23:27 Thomas

Yeah, she's got an offer for the VCC.

00:23:29 Thomas

But she's Katie.

00:23:30 Thomas

She's the head of the VCC, which is a separate organisation.

00:23:33 Thomas

I'm not the Bank of Mints.

00:23:34 Thomas

I'm the head of the Bank of Mints.

00:23:35 Harrison

Are you saying to me Andy Burns in Britain?

00:23:38 Thomas

Yeah.

00:23:40 Harrison

Andy Britain.

00:23:42 Thomas

I think a wealth tax is a good temporary measure.

00:23:44 Thomas

I don't think this is a good long term solution.

00:23:48 Thomas

Once we get the velocity of money up, then we can switch to something like an income tax or a sales tax.

00:23:52 Thomas

If everyone's buying things constantly, we can have a low sales tax, and that would probably supplant what we get from the wealth tax.

00:23:58 Thomas

The problem is we don't have enough velocity at the minute.

00:24:01 Thomas

So I see us progressing in a three-stage approach.

00:24:04 Thomas

The first stage, which is what we've done, which is your tax production, everyone produces.

00:24:09 Thomas

Second stage is you have a bunch of money, there's something to use it for.

00:24:12 Thomas

That's when you put the wealth tax in.

00:24:15 Thomas

we have enough velocity and we have enough sales, you can then switch to alternative measures.

00:24:20 Thomas

That's my general proposal.

00:24:21 Thomas

But that's what that's I get 1/4 of the vote.

00:24:24 Thomas

This is a democratic discussion.

00:24:26 Thomas

You can oppose that if you want, because I'm sure Jamie will.

00:24:30 Thomas

But yeah, I think that's a good option.

00:24:33 Jamie

Are you taking questions on this or at the end?

00:24:38 Thomas

I was going to discuss.

00:24:39 Thomas

Yeah, I'll discuss the next point as well.

00:24:41 Jamie

To be fair, I feel like my question you will probably discuss.

00:24:45 Thomas

No, it's the...

00:24:45 Thomas

I mean, there's many different...

00:24:48 Thomas

We could debate all day about these taxes.

00:24:49 Jamie

No, my question was, what are you going to do with the money?

00:24:52 Jamie

What's the general point of being...

00:24:55 Thomas

It depends how much we're doing.

00:24:56 Thomas

That's one of the...

00:24:57 Thomas

This is the second question.

00:24:58 Thomas

The first question we're going to discuss is how much we want the government to do.

00:25:01 Thomas

That will impact the amount of tax we do.

00:25:03 Thomas

And will also impact the third.

00:25:04 Jamie

As a wealthy guy, if my taxes are going to good things, then I'm willing to pay them.

00:25:09 Thomas

Well, we'll see.

00:25:10 Thomas

We'll discuss later.

00:25:11 Jamie

But if not, there will be heavy lobbying.

00:25:13 Thomas

The third.

00:25:15 Thomas

But the other option to this is sort of a reframing of how people think about the economy.

00:25:19 Harrison

As the lecturer models about the classroom.

00:25:22 Thomas

On his knees.

00:25:30 Thomas

I imagine everyone gets their idea of a Minecraft economy through Hermitcraft.

00:25:33 Thomas

People build farms, they get items, they sell the items.

00:25:37 Thomas

That works because they're 20 full-time people and they know how to build giant big farms.

00:25:42 Thomas

We unfortunately have jobs and so we don't have enough time.

00:25:44 Jamie

Why would you remind me?

00:25:47 Jamie

She said I need to be wealthy in this game and it's just not.

00:25:50 Jamie

At least it's in the game.

00:25:51 Thomas

Well you have a full time thing.

00:25:55 Thomas

It's difficult to build farms and also shops aren't a good use of time.

00:26:01 Thomas

If you take Katie's dye shop for example, she spent ages building all these farms, she doesn't know if she's going to get any sales from it, she doesn't know which dyes are going to sell,

00:26:12 Thomas

So she spends all the time building the farms, has to get up a big stock, and might not get really much anything from it.

00:26:17 Thomas

She probably enjoyed it, which is why she did it.

00:26:21 Jamie

Does she enjoy the growing farm?

00:26:23 Thomas

Okay, well she doesn't enjoy it, and she didn't even get a profit.

00:26:26 Thomas

This is, even if she enjoyed it, economically it's a bad use of time, it's not going to stimulate the economy.

00:26:33 Thomas

There's an alternative measure, because the economy is not just goods, the economy is also.

00:26:38 Thomas

Services.

00:26:43 Thomas

Services.

00:26:44 Thomas

What do we do?

00:26:45 Thomas

Harrison doesn't make anything for the government.

00:26:47 Thomas

He provides teaching services.

00:26:49 Thomas

I don't make anything.

00:26:50 Thomas

I provide my brain services.

00:26:52 Thomas

This is how the modern economy structure.

00:26:54 Jamie

Couldn't give an example.

00:26:57 Thomas

When you worked at Tesco, it was customer service.

00:27:00 Thomas

This is also an important part of the economy.

00:27:03 Thomas

I would say we should probably do services and contracting things.

00:27:07 Thomas

This also solves this issue, the velocity of money.

00:27:11 Thomas

If the government wants to build something and it needs to spend its money, there's nothing to buy at the minute and unless people are going to buy, build massive like block shops and then I can go and build it and then buy the stuff and build it, I mean that's going to take a while.

00:27:27 Thomas

But with services, someone could advertise their services, the government could pay them and the government and they can go off and build it.

00:27:34 Jamie

Can I have an example of a service please?

00:27:38 Thomas

For example, at the minute I'm digging out a small perimeter, 5 by 5 chunk, for a general mob farm.

00:27:44 Thomas

At the minute I'm handing in it because I want the blocks, but eventually once Harrison finishes a slime farm, I'll get the TNT troopers in and clear it.

00:27:51 Thomas

Afterwards, I might provide mix.

00:27:53 Katie

I think it might be quicker to dig the hole.

00:27:54 Jamie

I've got a lot of gunpowder by the way.

00:27:58 Thomas

This is a general mob farm.

00:28:00 Thomas

You didn't seem to be using them for rockets, you seem to put the price up with the artificial scarcity then.

00:28:05 Jamie

No one's buying anything.

00:28:07 Thomas

No, well.

00:28:07 Harrison

It's making it more expensive.

00:28:09 Jamie

Well, yeah.

00:28:10 Jamie

If I don't...

00:28:12 Thomas

Well, there's a limited amount of rockets people are gonna buy.

00:28:14 Thomas

It's sort of a, you can't have exponential growth.

00:28:17 Harrison

What's like nerves to play for the past two months?

00:28:19 Thomas

Yeah, I mean that as well, but even blue.

00:28:21 Jamie

I played once.

00:28:22 Jamie

Oh, did you see that I logged in the night before you sent the message?

00:28:28 Thomas

As in, possibly, yeah.

00:28:29 Thomas

I don't know if it was before or after the message.

00:28:32 Jamie

I logged in and did a harvest like probably 6 hours before your message.

00:28:37 Thomas

I remember.

00:28:39 Thomas

I remember a couple of days you logged off at 7:30 a few days ago.

00:28:42 Thomas

Yeah, and I logged on like 740.

00:28:46 Thomas

That was quite funny.

00:28:47 Thomas

But yeah, so I'm going to clear out the build a general mob farm.

00:28:50 Thomas

But I could then start up an excavation service because I've got a beacon.

00:28:54 Thomas

So if you want a small hole being dug, I can go with the beacon, mine it out, won't cost much.

00:28:58 Thomas

Or if you want a big perimeter, 21 by 21 chunks,

00:29:01 Thomas

I'm going to have to get the big machines out.

00:29:02 Thomas

It's going to take 20 hours.

00:29:03 Thomas

It's going to be a high charge.

00:29:06 Thomas

But it depends.

00:29:06 Thomas

You can come and request what you want doing, and I can fulfill it.

00:29:10 Thomas

I don't have to make a big farm and then sell it and maybe get some profit.

00:29:14 Thomas

I can just do the work as I know someone who's going to give me the money for.

00:29:23 Thomas

This is also good because as we get on and we start building bigger and bigger things, there's many stages to building big farms or big buildings or whatever or mega projects.

00:29:31 Thomas

You have to get a lot of tools first to mine things.

00:29:33 Thomas

Then you have to mine all the blocks.

00:29:34 Thomas

You have to clear the area.

00:29:35 Thomas

You have to design the whole thing, which you have to know about the redstone or the game things or do the architecture or whatever.

00:29:41 Thomas

Then you have to build it.

00:29:43 Thomas

There's lots of stages.

00:29:44 Thomas

I imagine we all enjoy somewhat different aspects of the game and are good at somewhat different aspects of the game.

00:29:50 Thomas

So if people think about what they like doing in the game, then they can set up a service business.

00:29:56 Thomas

And then if Katie gets a bunch of money from Jamie to build a hospital thing, she actually has someone to hire and use the money for.

00:30:03 Thomas

Whether or not that's going to happen, we'll see.

00:30:05 Jamie

We'll see all the taxes.

00:30:08 Jamie

You might want to vote.

00:30:09 Thomas

Because you could start this off with just a double chest and saying put orders for something in here.

00:30:14 Thomas

Well, I mean, we could do this organically.

00:30:16 Jamie

Sorry, was this government contracts or was this contracts between one another?

00:30:19 Jamie

I mean, I guess it could be both.

00:30:21 Thomas

I mean, the bank may employ someone at some point as a part time to go out and audit.

00:30:26 Thomas

and do whatever.

00:30:27 Thomas

So we're parked some contracts.

00:30:30 Harrison

As the postman.

00:30:32 Thomas

There is a second part of it.

00:30:35 Harrison

The postie knows everyone.

00:30:41 Thomas

But yeah, so I think back.

00:30:42 Thomas

So I mean, continue building farms, of course, because we need items.

00:30:46 Thomas

If you can't just do what modern Britain does and don't produce anything and provide pointless services, you know, we used to make steel.

00:30:52 Harrison

We used to make steel.

00:30:53 Harrison

Okay, David Mitchell.

00:30:56 Thomas

But I think if we do this as well, because we could just hire people organically.

00:31:01 Thomas

We could, but I mean, Jamie's not going to message me to buy a bond for some reason.

00:31:05 Thomas

He's going to tell me a month after he's put the money in her chest and the five guys.

00:31:08 Thomas

He's like, oh yeah, I was going to buy a bond.

00:31:09 Thomas

Just ******* message.

00:31:10 Thomas

If we're not going to message each other, then we're going to have to advertise to each other by saying.

00:31:14 Katie

I just did it in.

00:31:15 Jamie

I put it where you would be when you'd log on.

00:31:17 Thomas

Well, it wasn't logged on for ages.

00:31:20 Thomas

I assume everyone was just gone dead.

00:31:23 Thomas

I was just like, OK, I'll go and do something else.

00:31:26 Jamie

I love Minecraft.

00:31:28 Thomas

Yeah.

00:31:28 Thomas

Well, we don't have to play it constantly.

00:31:30 Thomas

I'll also come onto that in the second miscellaneous part.

00:31:36 Thomas

But I think that will solve it.

00:31:37 Thomas

But I don't think this is going to come.

00:31:39 Thomas

So once this kicks in as well as we build new farms, then we can move to the income.

00:31:43 Thomas

But I doubt this will happen fast enough.

00:31:44 Thomas

So I think we do this first.

00:31:50 Thomas

Yes.

00:31:56 Thomas

Yeah.

00:31:56 Katie

With the wealth tax, is there going to be like a hard limit on anything above this is 100%?

00:32:02 Jamie

That sounds ridiculous.

00:32:03 Thomas

I mean, we can discuss that.

00:32:04 Thomas

I am not proposing any specific measure.

00:32:06 Thomas

This is just the assets that are taxable, not necessarily the amounts.

00:32:09 Jamie

Well, there'd be no incentive to collect from your business, is it?

00:32:14 Thomas

Well, you still own it.

00:32:15 Jamie

There'd be no, I would shut down my businesses.

00:32:20 Thomas

Rather than just take it and pay a 10% tax on the property.

00:32:23 Jamie

No, she'd said it was.

00:32:25 Jamie

It'd be 100%.

00:32:26 Thomas

Oh, OK.

00:32:27 Jamie

That'd be insane.

00:32:28 Katie

Yeah, I don't think so.

00:32:32 Thomas

But anyway, I think that's all.

00:32:33 Thomas

So first of all, how much do we want the government to do?

00:32:36 Thomas

Second of all, how should we implement a tax thing?

00:32:38 Thomas

And third of all, what are the people's thoughts on this and what kind of things are they going to think about?

00:32:44 Thomas

That was the first part, but we can discuss that.

00:32:47 Thomas

How much do people want

00:32:48 Thomas

the government to do it.

00:32:49 Thomas

Because in this game I'm fairly pro-government, as you probably have found out.

00:32:53 Thomas

I like the idea of a heavy taxes, well not heavy, medium maybe tax.

00:32:58 Jamie

Medium low.

00:33:00 Thomas

I think, you know, a third to 1/2 of things I would like the government and then we can have other private businesses as well.

00:33:08 Harrison

Because different people run the government.

00:33:10 Thomas

Yes, because we're having this democratic process where we elect the visa city.

00:33:13 Katie

How are you a government entity as the commsark?

00:33:16 Thomas

Well, he was democratically elected.

00:33:19 Katie

I would say, well you have government power.

00:33:21 Harrison

I don't, I think I'm employed by the government, you can't.

00:33:24 Harrison

But you're not.

00:33:27 Harrison

Postmaster General I guess, you would elect.

00:33:30 Thomas

Well this is part of the second point I was gonna, part in the miscellaneous section.

00:33:37 Harrison

Do I go like General Postmaster or Postmaster General?

00:33:40 Harrison

Because I think General Postmaster.

00:33:42 Harrison

General Postmaster.

00:33:46 Katie

If communism is 1 and then capitalism is 10, I feel like we should be two or three for the government involvement.

00:33:54 Thomas

What does that mean?

00:33:55 Katie

What does that mean?

00:33:57 Thomas

I was just thinking a percentage of how much is owned by the government.

00:34:03 Jamie

Yeah, you've confused me with saying communism versus communism.

00:34:07 Thomas

I was going to say something like I think.

00:34:08 Katie

On the hammer and sickle to dollar signs.

00:34:11 Jamie

Highly capitalist for

00:34:13 Jamie

for buying and selling is very fun for me.

00:34:18 Thomas

We can, we have a lovely, of course, 100%.

00:34:22 Katie

It's.

00:34:23 Thomas

Very funny that me and Jamie have swapped political positions.

00:34:26 Thomas

Minecraft.

00:34:35 Harrison

I think Minecraft is more fun than a big state, so like 80, 75% or whatnot.

00:34:42 Harrison

Yeah, we'll have around like 5 businesses, like just like

00:34:46 Harrison

It's nice to have government institutions, I think, from us on the server.

00:34:50 Katie

With like subsidies and government projects as well.

00:34:55 Harrison

Because that also sort of incentivizes us to like come together and like be on the server all at once, rather than just private entities where you're all just doing a separate thing.

00:35:10 Thomas

Right.

00:35:11 Thomas

So we're going to be here.

00:35:12 Thomas

What was that?

00:35:15 Jamie

Unsure.

00:35:16 Thomas

Unsure what was discussed.

00:35:18 Jamie

I really want to move.

00:35:20 Jamie

Actually, that could be a service I could pay for.

00:35:22 Thomas

The what?

00:35:22 Jamie

I really want to move my casino thing outside of the centre because I think it's I don't I think it's an okay build.

00:35:30 Jamie

It's ******* ugly for the middle.

00:35:33 Jamie

It's the first time I've ever built like that.

00:35:36 Jamie

So it's.

00:35:38 Thomas

You did get the bold at the beginning in the centre.

00:35:43 Thomas

Although I will say.

00:35:45 Jamie

It was just meant to be a building.

00:35:48 Thomas

You are the cumstock.

00:35:50 Jamie

I am.

00:35:51 Thomas

So you are in some ways in charge of the private, public, private sector.

00:35:55 Thomas

Yes.

00:35:55 Thomas

I'm in charge of the public sector.

00:35:57 Thomas

So in some ways, this is your issue.

00:35:59 Katie

What am I in charge of?

00:36:02 Thomas

Environment at the minute.

00:36:03 Katie

That's all I wanted.

00:36:08 Harrison

**** I've got to manage communications.

00:36:09 Katie

You've got to manage communications, yeah.

00:36:11 Harrison

Oh **** I've got to deal with the ******* age restrictions on the chats.

00:36:15 Thomas

There's a mod, you can do something.

00:36:16 Katie

Does that mean you and Harrison work together for like advertisers and stuff?

00:36:23 Katie

Oh yeah.

00:36:23 Jamie

I've got a big advertising board outside.

00:36:26 Katie

They may be delivering leaflets and communications.

00:36:29 Harrison

In which case, if I'm delivering leaflets, I need to regulate the advertising as well.

00:36:33 Jamie

Wouldn't I be regulating the advertising?

00:36:37 Thomas

That's not a business.

00:36:38 Jamie

I'm serviced.

00:36:39 Harrison

I think it's a collaborative thing.

00:36:41 Katie

What's the come socks stand for?

00:36:45 Jamie

I don't know.

00:36:45 Jamie

And if you guys...

00:36:47 Katie

It had a decent action.

00:36:48 Harrison

Did you not write it down?

00:36:49 Thomas

A series of poor choices in the evening.

00:36:51 Thomas

That's what it means, that's what it symbolises.

00:36:54 Harrison

That's what it indicates.

00:36:55 Thomas

That's what...

00:37:00 Thomas

Yeah, Commerce Union Management Society.

00:37:03 Jamie

Something like that.

00:37:04 Thomas

Probably, yeah.

00:37:05 Thomas

Right, so what was the, we're doing...

00:37:09 Jamie

Not this Google.

00:37:12 Thomas

Right, so how should we implement the tax system?

00:37:14 Thomas

How much, because I wanted to know this, because then we can know how much, because if we know how much I need to bring in per week for the government spending, then that's how we can decide what exact levels of taxation that can be.

00:37:29 Thomas

Because if we want to say at the minute 5%, that would bring in

00:37:34 Thomas

150 raw beef, 2 1/2 stacks a week.

00:37:38 Thomas

There's not much to spend on at the minute, but I imagine there might be more things popping up.

00:37:48 Thomas

I imagine no one could have an opinion on this.

00:37:56 Thomas

Right, I'll make up a number.

00:37:59 Thomas

Should we implement, back to the qualitative stuff, should we implement like a flat tax?

00:38:05 Thomas

You pay 10% or whatever per week.

00:38:07 Thomas

Or a progressive system where you have a tax free allowance than a band than another band.

00:38:12 Harrison

For the wealth tax?

00:38:13 Harrison

For the wealth tax.

00:38:13 Harrison

I think it's a progressive.

00:38:15 Thomas

Progressive system.

00:38:16 Jamie

I think it shouldn't be progressive.

00:38:18 Katie

I think it should be progressive because say like you don't make any money.

00:38:22 Jamie

Yeah, but then it's less of a number.

00:38:25 Jamie

5% of 10 is way less than 5% of 2000.

00:38:28 Harrison

Those with the broadest shoulders should bear the largest burgeon.

00:38:32 Jamie

I do bear the largest burgeon.

00:38:35 Harrison

I'm paying a hundred.

00:38:36 Katie

I feel like you should have like, okay, you've got your money, but you've got like 20 raw beef that's solid.

00:38:42 Jamie

In this game, there's not a basic rate that you need to have to survive.

00:38:47 Thomas

There's one point I was going to bring up with your opposition to the wealth tax, so you don't.

00:38:52 Jamie

Actually need the money.

00:38:52 Jamie

So I'm also saying that you don't need any money.

00:38:56 Jamie

Therefore there shouldn't be lower tax.

00:38:58 Harrison

But isn't the whole point that it's enterprise you to spend your money?

00:39:02 Jamie

Yeah, but that's definitely nothing to spend it on.

00:39:04 Harrison

What is this is what we're working on?

00:39:06 Harrison

But hopefully in conjunction.

00:39:07 Thomas

Well, this is well, there's nothing to spend it on, so we're going to effect we're going to act as if you're spending on something and the government takes it as a substitute for no businesses.

00:39:19 Jamie

Might have to they might have to pay you to do something on.

00:39:23 Harrison

Hence the system works.

00:39:24 Thomas

Hence the, yeah.

00:39:26 Jamie

The point, the point is boring for me.

00:39:29 Jamie

I'm just losing.

00:39:30 Harrison

You can't currently spend it.

00:39:31 Thomas

I mean, you're not interested, you're winning by your own words.

00:39:33 Jamie

Yeah, but I'm winning, but then I'm being I'm being nerfed.

00:39:36 Harrison

But you can't spend it on anything anyway, so this is how you take it.

00:39:40 Thomas

Yeah, that's what I'm saying.

00:39:42 Jamie

That's why I'm saying that's ridiculous.

00:39:44 Thomas

Why is that ridiculous?

00:39:45 Jamie

Because until there's something worth spending it on, just taking it, you're not incentivising me to do anything.

00:39:52 Thomas

But the government can spend things as well.

00:39:55 Thomas

We still have services to fund.

00:39:59 Thomas

We need to take some money.

00:40:01 Thomas

We've got a VCC that needs to have regular payments, a VTA.

00:40:05 Thomas

Why does that need regular payments?

00:40:06 Thomas

It's the environment.

00:40:08 Katie

That's ******* nonsense.

00:40:09 Thomas

We haven't even got the license.

00:40:11 Thomas

The other three people in this debate decided to come over here.

00:40:13 Harrison

We haven't even got a post office yet.

00:40:15 Thomas

Yeah, we need to, well, we'll come onto that later while the post office is gonna work.

00:40:20 Katie

Is that the Harrison ********** section?

00:40:23 Thomas

********** maybe not.

00:40:24 Harrison

Every meeting there's a there's a.

00:40:26 Harrison

Harrison ********** section.

00:40:28 Thomas

Yeah.

00:40:30 Thomas

My kind of meeting.

00:40:30 Katie

Services, if Jamie said to me for some reason, I don't know why you don't ask me, Katie, I'll pay you 100 raw beef to build a gold farm and then you sell the gold from the gold farm.

00:40:44 Katie

Is that allowed?

00:40:45 Jamie

Yeah.

00:40:46 Thomas

That would be allowed.

00:40:47 Thomas

You can say no.

00:40:50 Harrison

McDonald's would be hired to build their restaurants for them.

00:40:53 Thomas

The CEO doesn't build them.

00:40:56 Harrison

McDonald's is the CEO of McDonald's.

00:40:58 Katie

I think he should be.

00:41:01 Harrison

He's like the head of state, isn't it?

00:41:05 Harrison

He's not the Prime Minister, but he's like the King of McDonald's.

00:41:08 Harrison

Yeah.

00:41:10 Harrison

Sorry, French.

00:41:11 Harrison

King of McDonald's.

00:41:12 Thomas

King of McDonald's, I am, yes.

00:41:15 Harrison

Is that the official government position?

00:41:16 Harrison

King of McDonald's.

00:41:19 Thomas

Another title to my name.

00:41:20 Harrison

At the very beginning of the King of McDonald's.

00:41:22 Thomas

Right.

00:41:23 Thomas

So if we don't, I can mess around because now I know how all the wealth is distributed because I went round and audited.

00:41:29 Thomas

I can try and mess around in code to try and get a level that brings in a certain amount of money.

00:41:36 Jamie

That sounds fun.

00:41:40 Katie

You're not contorted at all, so you didn't make it sound.

00:41:45 Thomas

It's fake.

00:41:45 Thomas

I know you're lying to me.

00:41:48 Thomas

That's pretty stupid.

00:41:51 Thomas

Right.

00:41:54 Thomas

So are people going to do services?

00:41:56 Thomas

Does that sound like a good thing?

00:41:57 Thomas

Services sound great.

00:41:59 Katie

You're going to say that, aren't you?

00:42:00 Thomas

What are you saying?

00:42:01 Jamie

No, I like services.

00:42:02 Jamie

I'm going back to a wealth tax.

00:42:03 Jamie

I think it's unfair for a wealth tax before there's any services.

00:42:07 Jamie

If I can't spend my money on anything,

00:42:09 Jamie

Yeah, I'm just getting tapped into.

00:42:12 Katie

Wait, like.

00:42:12 Harrison

Yes.

00:42:13 Katie

Two, three.

00:42:14 Thomas

What?

00:42:16 Thomas

So we're all getting tapped with nothing to use it for.

00:42:19 Jamie

I've got good shops.

00:42:20 Jamie

I sell iron.

00:42:22 Jamie

I sell things that are useful.

00:42:23 Jamie

And you'll still have more money.

00:42:25 Jamie

I sell flowers.

00:42:26 Jamie

You sell ******* flowers.

00:42:27 Thomas

Look at this.

00:42:28 Thomas

Look at this.

00:42:30 Thomas

You get taxed.

00:42:31 Thomas

We give it to Harrison to build something.

00:42:33 Thomas

Where's he going to spend it?

00:42:35 Jamie

I spend so much at Harrison's shop.

00:42:37 Harrison

Yes.

00:42:38 Thomas

And why does he spend it on?

00:42:39 Thomas

It goes back to, it's supposed to circulate.

00:42:41 Thomas

It doesn't, you've got to have it moving around.

00:42:43 Thomas

I'm thinking of a rabbit juice.

00:42:45 Jamie

But it's not, it's then not circulating unless you're buying the government as part of this.

00:42:49 Thomas

Yes, if the government spends the money.

00:42:51 Jamie

So it just goes straight from me to the government.

00:42:53 Jamie

Yes.

00:42:53 Jamie

That's ridiculous.

00:42:55 Jamie

That's how tax works.

00:42:56 Jamie

This is insane.

00:42:57 Jamie

There's nothing I can spend my money on.

00:43:00 Harrison

It was that mushroom stew as well.

00:43:02 Harrison

So why do you care about anything taxed then, if there's nothing different than that?

00:43:05 Harrison

Because I am useless.

00:43:06 Harrison

But creature, you'll have to return the bowl.

00:43:08 Harrison

But you weren't useless.

00:43:09 Thomas

It was your fault for setting up a useless store, then.

00:43:10 Thomas

What?

00:43:13 Katie

He goes absolutely passionate out about tax.

00:43:19 Katie

And I was just keeping rehearsal in like a stew shop.

00:43:24 Katie

Mushroom stew.

00:43:28 Katie

No, I'm taking off my money.

00:43:29 Katie

You have to return the bowl, though.

00:43:33 Harrison

Well, you would, wouldn't you?

00:43:35 Harrison

Recycling.

00:43:35 Harrison

You guys are absolutely vicious.

00:43:37 Harrison

I just heard, She's.

00:43:40 Katie

Playing a stew shop.

00:43:43 Harrison

Yeah, I ******* love stew.

00:43:44 Harrison

Stew me.

00:43:45 Harrison

I quite like stew.

00:43:47 Harrison

Right, show of hands, who likes stew?

00:43:49 Thomas

I, yeah.

00:43:50 Katie

Do I let the soup count?

00:43:51 Katie

It's a stew, Jason.

00:43:54 Harrison

I'll think of a lump in your soup.

00:43:57 Katie

That's.

00:43:58 Harrison

Not a stew.

00:44:00 Jamie

Red mushroom, brown mushroom, dandelion, I think is the best stew.

00:44:02 Jamie

I don't think that's the saturation stew, isn't it?

00:44:05 Harrison

Isn't dandelion poisonous?

00:44:07 Harrison

No, you can get it in drinks.

00:44:07 Harrison

I'm thinking of something else.

00:44:09 Jamie

It's the stew that I would buy.

00:44:10 Harrison

I'm thinking of poison.

00:44:12 Jamie

I'm thinking of poison.

00:44:15 Harrison

I think rabbit shoes is the most hard, doesn't it?

00:44:21 Jamie

I think saturation stew.

00:44:22 Harrison

No, actually that does feel wrong.

00:44:24 Harrison

Mushroom stew only.

00:44:28 Thomas

Anyway, any more opposition?

00:44:29 Thomas

I forgot that.

00:44:30 Harrison

It's suspicious to you.

00:44:32 Harrison

Do you want to make it?

00:44:35 Harrison

I think the point of tax for this is to get stuff for everyone to have.

00:44:41 Jamie

Is to incentivise you to spend your money.

00:44:45 Thomas

No, it's to fund public services.

00:44:46 Jamie

But there are no public services.

00:44:48 Jamie

Until there are public services, I don't think there's any point in tax.

00:44:51 Thomas

But it's, well, we can still give it out.

00:44:56 Jamie

There will be a fraction of a fraction.

00:44:59 Thomas

Well, we don't have to have a high tax.

00:45:00 Thomas

It could be like 2%.

00:45:03 Thomas

We've already given up money.

00:45:05 Thomas

Do you need some money?

00:45:06 Thomas

I need some money for my railway.

00:45:08 Thomas

You voted her in.

00:45:09 Harrison

What if any of the weekend we all build a service that we got her off there, therefore you have to send it on.

00:45:15 Thomas

Well, I mean, I mean, we're still discussing this.

00:45:16 Thomas

I was going to discuss, did anyone have any initial thoughts on what they would like to do?

00:45:20 Katie

I'd be fine.

00:45:22 Thomas

That's valid.

00:45:22 Jamie

I'd be fine with a low wealth tax until those services.

00:45:26 Jamie

I feel like that's the most fun.

00:45:27 Harrison

And then higher wealth tax.

00:45:28 Jamie

And then higher wealth tax if there's something that's worth me spending my money on.

00:45:31 Harrison

But who decides that?

00:45:34 Harrison

Wherever it's worth spending your money on.

00:45:36 Harrison

You.

00:45:37 Jamie

I guess the government.

00:45:38 Thomas

The government's already decided.

00:45:39 Thomas

Well that's the thing.

00:45:40 Jamie

There's nothing, look at the services, there's no list.

00:45:44 Thomas

Well you can landscaping, digging, like I, I don't know what a code escalation is.

00:45:50 Thomas

I'm digging a big perimeter, I would not describe.

00:45:52 Katie

Materials collection could be more like a song.

00:45:55 Katie

That could be one.

00:45:55 Katie

And someone's like, well I need time.

00:45:57 Jamie

I enjoyed doing that.

00:45:58 Jamie

That's almost like what I said.

00:46:03 Jamie

this money, it's instantly going to be taxed.

00:46:06 Thomas

Yes, that's how it works.

00:46:08 Jamie

But it's a wealth tax, it's not, it's not.

00:46:10 Thomas

We give us back to you and we take eight back.

00:46:14 Thomas

You still have 56.

00:46:17 Katie

I'm leaning towards income tax if we're focusing so much.

00:46:20 Katie

I did not think she was going to say that.

00:46:22 Thomas

You want to switch to income.

00:46:24 Katie

I think we're going to be doing services.

00:46:26 Thomas

But that's not a guarantee that we're going to.

00:46:30 Thomas

We can all sit around here and say we're going to turn up at 7.30 and then turn up at 8:15 because, you had a monarch or whatever.

00:46:37 Thomas

That's not necessarily, I'm not saying you're bad for that.

00:46:40 Thomas

I'm just saying things change.

00:46:42 Thomas

It might be that we can't play for several, well, Katie doesn't play for several weeks or whatever because she has a...

00:46:48 Thomas

But I'm saying wealth tax, because if we can't do this, the income tax won't give us anything.

00:46:55 Thomas

That's one of the reasons I wanted to play.

00:46:57 Jamie

But if we're not slaying, then why should we be taxed?

00:47:00 Katie

Yeah.

00:47:00 Thomas

I'll move to a separate point.

00:47:01 Thomas

I was going to define.

00:47:02 Harrison

That's a fair point.

00:47:04 Thomas

I was going to define.

00:47:06 Thomas

I was going to define the new financial week off of a Monday.

00:47:12 Thomas

So this is a week, this is a week.

00:47:14 Thomas

Then this is a week, so that's a Sunday.

00:47:17 Thomas

That's a Sunday.

00:47:20 Thomas

You start on a Monday.

00:47:24 Thomas

And you have to, and then after say three people have been online,

00:47:28 Thomas

then it changes over the next Monday.

00:47:30 Thomas

But if only two people are online here, then it keeps going until three people have been online.

00:47:36 Thomas

So it's a Monday to Monday period until three people have been online, as in, you know what I mean?

00:47:42 Harrison

Do you feel that still punishes someone though if there's just one person who can't play for a week?

00:47:46 Thomas

Yeah, but if there's.

00:47:47 Jamie

One person who can't play for a week, it still does not.

00:47:50 Jamie

I don't get that.

00:47:53 Jamie

So the clocks, the financial week continues a week if there's three people that go on in the week.

00:47:59 Thomas

It steps over to the next week if three people have been online that week.

00:48:05 Thomas

If only two people have been online.

00:48:07 Katie

You're not taxed.

00:48:08 Thomas

You're not taxed.

00:48:08 Harrison

What do you count as being online, just having logged in or a long enough period?

00:48:13 Thomas

I'm gonna say log in because you're not gonna log in and leave in a minute.

00:48:16 Thomas

If you're logging in, you have enough time to look at your shots.

00:48:21 Jamie

I've seen that also counts for like bonds and stuff.

00:48:24 Thomas

Yes.

00:48:25 Thomas

As in I'll have the thing up in the bank of Mint saying it is weak.

00:48:29 Thomas

This.

00:48:29 Jamie

It should be different words.

00:48:31 Harrison

Well, hence the website.

00:48:34 Katie

So is that for a wealth tax or an income tax?

00:48:40 Thomas

That could be anything.

00:48:41 Thomas

I just do everything.

00:48:42 Thomas

Bonds, loans.

00:48:44 Thomas

So that way if we have long periods of being not offline, long periods of being offline, it steps over

00:48:51 Thomas

Or we're back online as if it's just one week that's passed.

00:48:55 Thomas

So someone can't come on and...

00:48:58 Jamie

Would services have a time tied to them?

00:49:01 Thomas

As in.

00:49:02 Katie

Well, you have to complete it within a week.

00:49:03 Jamie

Yeah, because I would be fine doing that, but I expect you guys would be...

00:49:07 Katie

That is up to the contract.

00:49:08 Katie

Financial week though, maybe?

00:49:09 Jamie

Yeah, but that's what that was my second point, because then you could just not log in.

00:49:13 Katie

You have to finish it within three financial weeks.

00:49:16 Jamie

It's up to you, but then you just wouldn't log in.

00:49:18 Thomas

That's what you discussed in the contract.

00:49:21 Katie

If the other three log in then, the financial week passes.

00:49:25 Jamie

I'm just trying to understand.

00:49:26 Thomas

We can set it to four, we can set the player count to four, we can set it to two, I was just giving an example.

00:49:32 Thomas

Because if somebody can't log in because they've gone away to Lisbon, I shouldn't prevent other people or someone who's gone.

00:49:38 Katie

Harrison, what's the commitment?

00:49:40 Thomas

I think people should still be able to play.

00:49:42 Katie

When's your flights?

00:49:45 Harrison

Tuesday and then Sunday.

00:49:46 Katie

Oh, they're for a while.

00:49:48 Harrison

Yeah.

00:49:50 Katie

Very long game.

00:49:51 Jamie

What are you going to do?

00:49:51 Harrison

We've got artillery.

00:49:54 Harrison

Going to a sporting Lisbon game.

00:49:56 Harrison

Don't want to do the other days.

00:49:58 Thomas

Yeah.

00:49:59 Thomas

Have you got a hotel?

00:50:00 Harrison

Yeah.

00:50:01 Katie

OK, that's all we're on.

00:50:05 Thomas

Yeah.

00:50:05 Jamie

What are you doing?

00:50:10 Jamie

I'd rather die.

00:50:11 Thomas

It was probably cheap.

00:50:13 Harrison

It was quite cheap.

00:50:14 Jamie

I'd rather die.

00:50:15 Thomas

I wonder why?

00:50:17 Jamie

It's basically quite nice though.

00:50:18 Thomas

Yeah, yeah, yeah.

00:50:21 Thomas

Years have been comfortable.

00:50:23 Thomas

Anyway.

00:50:28 Thomas

So what are we doing?

00:50:29 Thomas

Do we want to switch to income or wealth?

00:50:31 Thomas

So with income, if we do different bands, you have to keep track of every time you receive money and keep it in a logbook and then at the end, every week.

00:50:39 Katie

I'm not too opposed to that.

00:50:41 Thomas

If you want to do that.

00:50:42 Harrison

I mean, can we get an autism?

00:50:45 Harrison

Yeah, yeah.

00:50:46 Katie

Audit.

00:50:47 Katie

Not autism.

00:50:48 Harrison

Autism system.

00:50:49 Thomas

We could go for a blur.

00:50:50 Harrison

This is all the autism system.

00:50:52 Thomas

As in do both.

00:50:53 Jamie

As in a wealth tax and then a whatever percent income.

00:50:56 Katie

I think if we do blood though, you do much have a minimum on the wealth tax, if that means.

00:51:00 Katie

Like a tax rate.

00:51:02 Katie

Yeah.

00:51:10 Thomas

Are we going for both?

00:51:11 Thomas

I can get behind both.

00:51:12 Thomas

Because I was attempting to minimise paperwork, but if we don't care about that, then we can do it.

00:51:16 Jamie

OK, I'm OK with paperwork.

00:51:17 Jamie

You're OK with paperwork?

00:51:19 Thomas

OK, we're all.

00:51:21 Harrison

We can review this at the next board meeting, I guess.

00:51:25 Jamie

Board meeting.

00:51:26 Thomas

Yeah.

00:51:26 Jamie

Is that what they call the board meetings?

00:51:30 Thomas

No, it's the board or the directors.

00:51:32 Harrison

The board has met.

00:51:33 Harrison

I don't know.

00:51:35 Harrison

Because they're boring.

00:51:35 Thomas

Boarding room.

00:51:36 Thomas

Maybe it's related to that?

00:51:37 Jamie

Yeah, is that?

00:51:39 Harrison

I don't know.

00:51:43 Harrison

Well, you pay for room and board.

00:51:44 Jamie

I'd assume boardroom came before board of directors, to be honest.

00:51:49 Jamie

I imagine it was the room with the board in where the important people spoke.

00:51:53 Harrison

The lecture hall.

00:51:56 Jamie

Yeah, next time you've got to rent out lecture hall.

00:51:58 Thomas

Well, I could, but you get kicked out of like 7.

00:52:03 Harrison

That may be a barrier for me.

00:52:04 Thomas

Yes.

00:52:05 Harrison

And Casey?

00:52:06 Jamie

We'll be fine.

00:52:07 Katie

Wait, what was it?

00:52:07 Katie

What was the barrier?

00:52:08 Harrison

We could do an SE.

00:52:10 Thomas

A lecture hall.

00:52:11 Thomas

You could find.

00:52:12 Harrison

I imagine this was just proper conference thing.

00:52:15 Thomas

There's other rooms that are going to have all the people come to get in.

00:52:20 Jamie

Pesky charm.

00:52:20 Harrison

What are these ******* fails worth?

00:52:22 Jamie

Can you get temporary passes to IU?

00:52:24 Thomas

I wonder if they'll accept Minecraft server central bank economic summit for spanning reasons.

00:52:31 Harrison

No, it's just say economic summit.

00:52:32 Harrison

It's an economic summit.

00:52:34 Thomas

Really?

00:52:34 Thomas

NATO's here.

00:52:36 Jamie

G7 in Manchester.

00:52:38 Jamie

That is going to be in Manchester, isn't it?

00:52:41 Thomas

Yeah.

00:52:42 Thomas

This is our G7.

00:52:42 Thomas

Yeah.

00:52:43 Thomas

I mean, we're not written up really, but.

00:52:45 Jamie

Our G7.

00:52:45 Harrison

Apparently it causes hell though, because it just shuts off on a pill.

00:52:48 Jamie

Yeah, it will do.

00:52:48 Jamie

Yeah.

00:52:49 Thomas

I don't drive, it's great.

00:52:51 Jamie

Can I get the bus?

00:52:54 Thomas

That might be awful.

00:52:55 Thomas

I love Chris Vargo.

00:52:56 Thomas

Is that, did he go to G7?

00:52:59 Harrison

Did he?

00:52:59 Thomas

Yeah.

00:53:00 Katie

I think it comes down.

00:53:00 Katie

He did Keir Starmer's last interview.

00:53:02 Katie

He did, yeah.

00:53:03 Katie

Important business discussion around the table.

00:53:06 Jamie

I didn't know it was his last interview.

00:53:09 Thomas

That was the last thing.

00:53:12 Katie

That's why it's called above board and under the table.

00:53:17 Katie

For the honest and dishonest presence.

00:53:21 Thomas

Right, are we doing both?

00:53:22 Thomas

So how much are we focusing?

00:53:25 Katie

I feel like we need to, do we not need to play a bit to see how much we should establish.

00:53:30 Katie

Well, the treasury does have a thousand.

00:53:32 Katie

Establish a number and then adjust it if necessary.

00:53:37 Harrison

Are you doing your simulations, Tom?

00:53:39 Thomas

If necessary, but if not only necessary, only necessary.

00:53:42 Thomas

Well, I don't want to just run simulations and then have all the assumptions invalidated.

00:53:47 Thomas

That's fine.

00:53:50 Thomas

But we have 1000, about 1000.

00:53:52 Thomas

I mean, I want to keep quite a bit just because of general treasury reserves, like the Bank of England has massive amounts of gold because it needs it at some point.

00:53:59 Thomas

Agreed it.

00:54:00 Harrison

In case they have to pay.

00:54:02 Thomas

I mean, they're making sure the country's solvent gold.

00:54:04 Harrison

I don't want the country to be able to resolve.

00:54:07 Katie

Solvent.

00:54:10 Harrison

I don't want my country being soluble to payments.

00:54:13 Thomas

But I mean, we can fund things for a bit if you want to wait.

00:54:17 Katie

What's the minus 1000?

00:54:19 Harrison

Soluble.

00:54:19 Thomas

That's how much is in the treasury.

00:54:21 Katie

It's soluble.

00:54:22 Thomas

4,000 is existence.

00:54:23 Thomas

A thousand's in the Bank of Mint.

00:54:24 Thomas

The 3,000's we own.

00:54:27 Jamie

Genuine.

00:54:28 Jamie

What did I have?

00:54:29 Thomas

2,000.

00:54:30 Jamie

2,000.

00:54:30 Harrison

You have 2 thirds of the economy.

00:54:32 Thomas

About...

00:54:33 Katie

This is me and star do that.

00:54:36 Harrison

If that was me, I still wouldn't have been allowed to spend anything.

00:54:39 Harrison

Yeah.

00:54:41 Thomas

Like, Jamie, I'm not giving 2%.

00:54:42 Harrison

It's been my ******* training rod.

00:54:44 Harrison

I know somebody get on really well with Jamie.

00:54:46 Katie

Yeah, that's so good.

00:54:50 Jamie

I'm removing money.

00:54:53 Thomas

But I will spend it.

00:54:55 Jamie

You're going to spend my money.

00:54:57 Thomas

On things that we've democratically voted for.

00:54:59 Thomas

We all voted Katie in.

00:55:01 Thomas

She gets money because we voted her other case.

00:55:03 Harrison

Amanda discovers tax from first principles.

00:55:05 Thomas

So I'm not I'm not spending it.

00:55:07 Thomas

We're all spending it.

00:55:08 Katie

Does Cumstock get subsidies?

00:55:10 Thomas

It can do if it wants.

00:55:13 Jamie

What was the reason?

00:55:13 Jamie

I believe I had a reason.

00:55:15 Jamie

Oh yeah, that was the fund business.

00:55:16 Jamie

I guess that's similar to services.

00:55:18 Harrison

Cumstock's similar.

00:55:19 Harrison

Cumstock's subsidies is a really interesting phrase if you think about it deeply.

00:55:22 Thomas

I don't think you can even think about it deeply.

00:55:26 Harrison

Yeah, it's pretty services.

00:55:29 Katie

So if you can get subsidy, if you get payment from the government, if the cum sock gets payment from the government, you can like do subsidies to get people to encourage people to open service.

00:55:40 Jamie

Can I donate to my own?

00:55:41 Thomas

Yes, I was going to suggest that.

00:55:43 Thomas

If it's done in the same way as other people's, I assume.

00:55:47 Katie

I donate it to the VCCA.

00:55:48 Katie

I can do it with the US first because I had to have a I had to because I've got.

00:55:53 Katie

Tom's B stuff and Harrison's pumpkin pond was organic certified, but I hadn't had enough subsidies to actually pay the subsidies that I promised from being an organic certified farm, so I donated to myself.

00:56:05 Jamie

Oh, you had to pay me as well, didn't you?

00:56:08 Thomas

Yeah, you've still got a loan.

00:56:09 Katie

Oh, was yours the bread one?

00:56:11 Jamie

No, you paid me for to have the organic status aligned with the gum soft.

00:56:18 Katie

Yes.

00:56:19 Katie

Well, businesses advertising themselves as organic had to, yeah.

00:56:23 Thomas

You also have a loan.

00:56:24 Thomas

You also have a loan currently, just to remind you.

00:56:26 Katie

Yeah, the financial week's frozen though, right?

00:56:28 Thomas

Until we.

00:56:28 Katie

It's not accumulating interest.

00:56:30 Thomas

No, we're free to play.

00:56:32 Thomas

Next Monday, it's going to step over.

00:56:34 Thomas

No, I mean, it's coming out with your 24 a week payment at the minute.

00:56:37 Katie

Oh, I've been paying it.

00:56:40 Jamie

Am I allowed to look at your treasury books?

00:56:42 Jamie

I always do.

00:56:43 Jamie

It's really interesting.

00:56:44 Thomas

Yeah.

00:56:44 Jamie

Cool.

00:56:46 Thomas

I'm trying to get the paperwork, have a set how to do it.

00:56:50 Thomas

I'm trying to.

00:56:51 Jamie

Is that going to be available online?

00:56:53 Thomas

It could.

00:56:53 Thomas

I mean, I was just going to summarise it in the economic report that I will do.

00:56:57 Harrison

Can we just have like a shared few like Google Sheets of Google Sheets or whatever?

00:57:00 Thomas

We could do.

00:57:01 Thomas

I was trying to keep everything in game, but it is getting a bit annoying because you're able to book and cool and you have to skip 50 pages.

00:57:06 Jamie

I press escape every time, which obviously gets rid of everything.

00:57:12 Thomas

No, I mean, if you have a treasury log, you have to skip 50 pages of it.

00:57:18 Harrison

Paperwork in Minecraft would do my nuts here, and I would require my helpless sleep if I had to try to do it.

00:57:23 Thomas

Well, people are voting in for Maxwell paperwork.

00:57:25 Harrison

This is the thing, so like, sure, I think sure you have to cash position to it like a spreadsheet.

00:57:31 Thomas

Well, why?

00:57:33 Thomas

I guess we can.

00:57:38 Harrison

Because they mean you do financial analysis for points.

00:57:41 Thomas

We could do it.

00:57:42 Katie

We could also apply like automatic tax calculations.

00:57:44 Thomas

Yeah, I was going to put that on the Bank of Min's website if we did the one.

00:57:49 Thomas

This is actually a value you can calculate, but I need to know the transaction values and average transaction values.

00:57:56 Jamie

Could we make the website better and file them that?

00:57:59 Thomas

We can improve the website.

00:58:01 Thomas

I've just got a temporary VIVE coded.

00:58:03 Thomas

If you want to put anything...

00:58:04 Thomas

There's a treasury section where anyone that's funded by the government...

00:58:07 Jamie

Could be Bank of Mint slash Treasury.

00:58:09 Thomas

Can put a...

00:58:10 Thomas

Well, I have the Treasury.

00:58:11 Thomas

Well, the Bank of Mint in this case is the central bank, so the Bank of England plus HMRC.

00:58:17 Thomas

Plus the treasury and chancellor of extra checker.

00:58:19 Thomas

It's a strong kind of.

00:58:21 Thomas

Well, because there's only four of us.

00:58:22 Thomas

I don't have to do.

00:58:24 Jamie

Because then we can have all of our logins, we can have logins to that.

00:58:27 Jamie

And yeah, login systems are obviously easy to make.

00:58:31 Thomas

Especially if I only cooked the passwords and we don't.

00:58:34 Jamie

I've learned how to crack passwords last week.

00:58:37 Thomas

You can try and hack our site.

00:58:41 Jamie

Yeah, and then we could file it there and you could obviously always see everything, which means you could tax properly.

00:58:45 Thomas

I mean, few of all sheets has kind of figured this out.

00:58:49 Thomas

We could be reinventing the world.

00:58:50 Katie

That was much less cool.

00:58:51 Harrison

It wouldn't quite put down our own spreadsheet system.

00:58:55 Thomas

Do you want to build it?

00:59:00 Harrison

He's deciding.

00:59:00 Harrison

He's undecided.

00:59:02 Harrison

He's tempted.

00:59:02 Katie

He's weighing it up.

00:59:03 Katie

What if I pay you 20 raw beef?

00:59:05 Thomas

Oh yeah, we can pay.

00:59:06 Katie

Services.

00:59:10 Jamie

What would you have to, what would you have to build?

00:59:12 Jamie

Spreadsheets.

00:59:12 Katie

Just put Excel in there.

00:59:15 Thomas

Yeah, just put Excel in there.

00:59:16 Harrison

Just build Excel.

00:59:17 Thomas

It didn't take them ******* 20 years.

00:59:19 Katie

Why do you need Excel?

00:59:20 Katie

Surely we'd literally use that?

00:59:22 Jamie

No, but are we not just calculating, is it not just a running total plus your total money?

00:59:28 Jamie

Is it not just total for week, total for money?

00:59:30 Katie

Are we separating it like income from?

00:59:33 Jamie

Because that's all we need for wealth and income.

00:59:35 Thomas

Well, that's another thing, because at the minute everyone's a sole trader in UK terms.

00:59:39 Thomas

So all the income from your businesses is income.

00:59:42 Harrison

Sole traders is what people make shoes are.

00:59:44 Jamie

A lot of people that skin feet and sell.

00:59:49 Thomas

Yeah, that's beach collector.

00:59:50 Harrison

No.

00:59:50 Katie

Don't give Jeffrey any idea.

00:59:57 Thomas

We could make more paperwork and say that people can.

01:00:02 Thomas

We can create more paperwork and say that you can file as a limited business and then

01:00:07 Thomas

You pay income tax based in business.

01:00:10 Harrison

What is Gorp?

01:00:12 Jamie

Gorf.

01:00:12 Thomas

Gorf, yes.

01:00:13 Jamie

It's Gorf.

01:00:16 Thomas

I don't know.

01:00:17 Thomas

It depends how you want to do things.

01:00:19 Thomas

So how...

01:00:20 Thomas

So what have we decided?

01:00:24 Jamie

Unless you want to keep a spreadsheet, which is fair enough, you only need 2 numbers at the end of the week of the amount you've made in tax in your current.

01:00:32 Thomas

Yes, but you need a way to add up the stuff you made in tax.

01:00:36 Jamie

Wait, no, wait, I don't know.

01:00:38 Katie

It's like a spreadsheet, you have all your income sources.

01:00:41 Jamie

Yeah, but all you need is, yeah, but at the end of the week, all you need is income and total current.

01:00:47 Thomas

Yes, per business or whatever.

01:00:50 Jamie

Why would it need to be per business?

01:00:52 Thomas

Well, the BCC, the twenty-four...

01:00:55 Jamie

Will the BCC pay tax?

01:00:57 Thomas

They'll pay you, I don't know, would they pay wealth tax?

01:01:01 Jamie

I wouldn't have thought so.

01:01:01 Thomas

We can say the government organisation.

01:01:03 Katie

It's also sort of a charity.

01:01:07 Thomas

We can say it's not technically income, like how my income is not technically income.

01:01:11 Katie

Because the subsidies I get from the VCC, I can't...

01:01:16 Katie

Yeah, she can't buy an item with it.

01:01:18 Thomas

Well, you can.

01:01:22 Thomas

I mean, technically you could give it to yourself, but then we'd all vote you out because you're...

01:01:25 Harrison

I'd like to point out, disappointingly, we just finished a unit on

01:01:32 Harrison

maths and money, so like the money behind like business taxation rates and like mortgages and stuff.

01:01:37 Katie

Why don't they teach us that sort of stuff in schools?

01:01:39 Harrison

They did, you just didn't pay attention Georgia.

01:01:41 Katie

I think she remembered the multiple lessons we had on this.

01:01:45 Katie

We learnt compound interest.

01:01:47 Harrison

Yeah, exactly, we did compound interest.

01:01:49 Harrison

This would have been great, because imagine like, I teach a lesson on this, I can just use our Minecraft server as examples.

01:01:55 Harrison

What's the Bank of Bids website?

01:02:00 Harrison

We don't do fractional reserve banking here.

01:02:02 Harrison

Like, what the **** is a, what the **** is a bank?

01:02:05 Jamie

If they're asking that, they're all lost.

01:02:07 Katie

What is the difference between a bank and a building society?

01:02:09 Katie

I don't know.

01:02:11 Jamie

I think a building society.

01:02:12 Jamie

Something through shareholders would be my guess.

01:02:14 Katie

Yes, it is.

01:02:15 Katie

That's why Nationwide has the fairer share payment because technically the customers own part of it.

01:02:21 Thomas

And like the co-op.

01:02:22 Thomas

Well, I did see when reading the registering for a bank on the Bank of England website, there is...

01:02:28 Katie

Can we be a building society?

01:02:30 Thomas

No, it's the same sort of regulations.

01:02:32 Thomas

You still need to 5 million.

01:02:34 Thomas

I don't know if you have.

01:02:36 Jamie

Put it together.

01:02:36 Katie

Yeah, I've got one.

01:02:38 Harrison

We pull our socks out.

01:02:41 Thomas

Pull our socks out.

01:02:42 Thomas

Pull our socks out.

01:02:43 Thomas

You're genius.

01:02:43 Harrison

What's being added every morning?

01:02:44 Thomas

Don't say that in the interview.

01:02:46 Harrison

Put your socks out?

01:02:47 Harrison

What's wrong with pulling your socks out?

01:02:50 Jamie

What are you doing?

01:02:52 Jamie

Jamie's got a cum sock.

01:02:53 Thomas

Yeah.

01:02:55 Jamie

He hasn't pulled it out.

01:02:56 Jamie

I have a cum sock.

01:02:57 Jamie

I'm the leader of the cum sock.

01:02:58 Harrison

That's worse.

01:02:58 Katie

He is with a cum sock.

01:02:59 Jamie

I'm the head of the cum sock.

01:03:00 Harrison

You're the cum sock head.

01:03:01 Harrison

There's a head somewhere.

01:03:03 Thomas

Your head is in the cum sock.

01:03:04 Jamie

My head is always in the cum sock.

01:03:05 Thomas

Excellent.

01:03:08 Thomas

So what will we be doing?

01:03:09 Thomas

We'll be doing both with the most in income and then a bit in wealth.

01:03:14 Thomas

Because then what's the point of...

01:03:17 Thomas

I mean, we could just do one.

01:03:19 Harrison

That's a fair point.

01:03:21 Thomas

So if we want to do both.

01:03:22 Thomas

My main issue is I don't...

01:03:25 Thomas

You see this as a person attacking yourself and you're very against it.

01:03:30 Thomas

Well, you will notice...

01:03:33 Thomas

When I specify the two issues, you'll see I didn't specify economic inequality.

01:03:38 Thomas

That was not necessarily an issue.

01:03:40 Thomas

The problem is you have a bunch of money and you can't spend it.

01:03:43 Thomas

I'm trying to get the money with it.

01:03:44 Jamie

I would very happily spend my money if there was stuff to spend it on.

01:03:49 Thomas

But in the meantime, we can artificially make you spend it.

01:03:52 Katie

I don't need lots of flowers.

01:03:54 Jamie

I can get any food I want, but I buy Harrison's because it's tasty.

01:03:57 Thomas

And it's organic as well.

01:03:59 Harrison

I didn't have any effect in it.

01:04:04 Katie

God, we need to bring back pumpkin lies.

01:04:08 Harrison

Oh yeah.

01:04:08 Harrison

Should I sell a slightly lower market pumpkin pie that may contain asbestos?

01:04:12 Thomas

Not organic.

01:04:13 Katie

Russian roulette.

01:04:14 Harrison

There's one, there's one.

01:04:17 Harrison

It's not branded.

01:04:18 Harrison

That can mean a nice stew stock there can be a suspicious stew that's renamed to

01:04:22 Harrison

Well, you can give it.

01:04:24 Jamie

You can have stews with poison effects, don't you?

01:04:26 Harrison

Oh yeah.

01:04:27 Jamie

So you can do one that's third.

01:04:32 Thomas

I've still, I'm still saying what are we doing?

01:04:34 Thomas

Are we just going to do income then?

01:04:35 Thomas

Or are we also doing wealth?

01:04:39 Katie

I think right as it stands, we just need income.

01:04:41 Thomas

Because we could just do income and then burn through some of the thousand.

01:04:47 Jamie

But I'm happy to promise to buy lots of things.

01:04:53 Thomas

This is why I like this, because you don't have to promise.

01:04:55 Harrison

That's true.

01:04:56 Harrison

Well, we can start with the wealth tax and then like taper off to an income tax.

01:04:59 Katie

Why would we start with the wealth tax?

01:05:02 Thomas

We can start with the income tax.

01:05:04 Thomas

If nothing happens and no one's starting a service, I'll switch to a wealth tax to try and move everything around and then switch back to income once we get things.

01:05:11 Jamie

Hiding my money.

01:05:13 Harrison

Okay, and that is hacksaw.

01:05:15 Thomas

Yes, I also do have server admin control.

01:05:17 Jamie

It's going in the furnace in the end.

01:05:20 Thomas

Brilliant.

01:05:24 Thomas

I feel like I would take you to court and I think if we find you, I'm allowed to steal all your money as tax.

01:05:32 Harrison

Is that personal tax evasion?

01:05:34 Harrison

Yeah, we take it.

01:05:35 Jamie

I'm just killing all the cows.

01:05:36 Harrison

This is my economic punishment system.

01:05:38 Harrison

We get all of your money.

01:05:39 Thomas

Yeah, we get all of your money.

01:05:41 Jamie

As the person who would be the all of your money there, I have a lot of things I could do in my situation that would stop you from getting my money.

01:05:49 Harrison

Yeah, but if you find.

01:05:50 Thomas

Out, we get, you can't do anything with your money.

01:05:52 Jamie

I would just kill you in this situation in game.

01:05:56 Jamie

That's more of a crime.

01:05:57 Thomas

You forgot I had the console commands.

01:05:59 Harrison

Yeah, that's the thing.

01:05:59 Jamie

We get all of your money.

01:06:00 Jamie

But you can actually play God.

01:06:02 Thomas

Yes, he can.

01:06:03 Harrison

He's ahead of the bank of mince.

01:06:04 Thomas

I can ban you and give you a time out for a reckless...

01:06:07 Jamie

If you ever do that, I would never play again.

01:06:11 Thomas

You did shut the server down to stop me playing in the last server.

01:06:14 Jamie

Did I?

01:06:14 Thomas

Two weeks, yeah.

01:06:15 Thomas

You were unhappy that I was going to play and get ahead.

01:06:18 Thomas

So you shut it down for two weeks.

01:06:20 Thomas

And then I couldn't play and then we never played on it again.

01:06:22 Thomas

So I was like, great.

01:06:24 Jamie

You killed the server, Jamie.

01:06:25 Thomas

You also got very annoyed at me for offering to give Harrison free stuff because you said you had to earn it.

01:06:30 Thomas

Which I thought was interesting.

01:06:32 Jamie

Because we didn't have a money system because that was just pure, pure communism.

01:06:36 Thomas

Yeah.

01:06:38 Jamie

Because I wanted this.

01:06:39 Thomas

Yeah.

01:06:40 Jamie

That's my point.

01:06:41 Jamie

This is fun.

01:06:41 Thomas

Yeah, I agree.

01:06:43 Jamie

So I didn't want you to do that because I wanted it to develop into this.

01:06:46 Thomas

Okay, so we've got this now.

01:06:47 Jamie

Yeah, so that was a bad point.

01:06:50 Thomas

Anyway...

01:06:50 Thomas

I'm saying that, I mean, we...

01:06:57 Jamie

Property tax work in Minecraft.

01:06:59 Harrison

We might have a slight issue.

01:07:00 Thomas

How much businesses you have get paid?

01:07:02 Jamie

I think we already fell asleep.

01:07:05 Thomas

She's resting her head.

01:07:07 Thomas

This is only the first part.

01:07:09 Harrison

It's the second part.

01:07:10 Harrison

You haven't gone to the Zenibar yet.

01:07:12 Thomas

It's less intense.

01:07:13 Harrison

It's the Harrison Barking section.

01:07:15 Thomas

It's the less intense, there will be, it's on 20%, we've been going for an hour and seven.

01:07:23 Thomas

Am I actually getting picked up over here?

01:07:26 Thomas

A small amount.

01:07:28 Thomas

That's not gonna work to transcribe.

01:07:29 Harrison

We'll bass boost it.

01:07:30 Thomas

Yeah.

01:07:31 Thomas

Bass boost.

01:07:33 Harrison

Bum bum bum back on me.

01:07:35 Thomas

Right, income.

01:07:37 Jamie

Dividends! It's going to say on that, Jamie is very angry.

01:07:44 Jamie

Very angry.

01:07:47 Thomas

Okay, how much are we actually going to do with the public services?

01:07:53 Thomas

Are people going to create more?

01:07:55 Thomas

Because at the minute, we don't, we have, you might have some, Harrison might have some, I get the VTA funding, she gets VCC.

01:08:02 Katie

What's the VTA, yeah.

01:08:03 Jamie

I feel like we've got a thing on the.

01:08:05 Katie

Railway.

01:08:06 Jamie

We surely have to think of a lot of ideas for services all at once.

01:08:09 Jamie

It's my thing.

01:08:11 Thomas

We can do that.

01:08:12 Thomas

I mean, now if you want.

01:08:13 Thomas

But like, for example, one thing I thought would be cool for...

01:08:16 Harrison

Horse breeding, that'd be fun.

01:08:19 Jamie

I would so buy a really quick horse.

01:08:20 Jamie

I would buy the quickest horse if...

01:08:24 Harrison

Getting golden apples, horse breeding sorted.

01:08:28 Jamie

Yeah, if anyone wants to get a really good make me a horse.

01:08:31 Katie

I'm happy with her.

01:08:33 Jamie

I love my dudes, but...

01:08:34 Jamie

Quick horses are so fun.

01:08:36 Katie

But no races wanders off as part of his job.

01:08:39 Harrison

Yeah, I think my horse is still in prison.

01:08:43 Thomas

Possibly.

01:08:45 Harrison

For insolence.

01:08:45 Thomas

Oh yes, it was in your pen.

01:08:46 Harrison

He was in prison for insolence.

01:08:50 Harrison

So I could replace him with a new horse.

01:08:52 Jamie

I heard incidence twice though.

01:08:54 Harrison

Insolence.

01:08:55 Katie

I heard incest.

01:08:56 Katie

What's insolence?

01:08:57 Harrison

You know, like I guess like petulance, rudeness.

01:09:01 Jamie

Oh, okay.

01:09:02 Jamie

Being a naughty boy.

01:09:04 Thomas

Because we could also have publicly owned farms.

01:09:06 Thomas

One thing I was thinking of, publicly owned shulker farm.

01:09:09 Thomas

So we get lots of.

01:09:10 Harrison

Oh, that's a good idea.

01:09:11 Thomas

I think that'd be good for public ownership because I think lots of shulker boxes.

01:09:14 Jamie

Oh, how do they make?

01:09:16 Jamie

I assume hard.

01:09:18 Thomas

Yeah, you have to move shulkers around.

01:09:19 Harrison

I don't want to ******* go to the end.

01:09:24 Jamie

But then why would a bank be publicly owned?

01:09:26 Thomas

Because I think that it's a good boost for GDP.

01:09:29 Thomas

It's like infrastructure.

01:09:30 Jamie

Someone's got to make it.

01:09:31 Jamie

So would that someone be paid and therefore it's publicly owned?

01:09:33 Thomas

Yes.

01:09:34 Katie

By the government.

01:09:35 Thomas

As in I get money because you're giving me stuff for the wealth tax.

01:09:39 Thomas

No.

01:09:40 Thomas

So I get the money.

01:09:41 Thomas

I can then buy iron from you.

01:09:43 Thomas

I can hire something from Katie, whatever.

01:09:46 Thomas

The thing gets built.

01:09:47 Jamie

I don't know what I do.

01:09:48 Thomas

But I still own...

01:09:50 Jamie

You made the end of it.

01:09:52 Thomas

Yeah, you've proven experience in the end.

01:09:53 Thomas

I think you put that on your CV when you're applying for...

01:09:55 Jamie

I'm going to fill a Minecraft CV.

01:09:58 Thomas

Yeah, because...

01:10:01 Harrison

She went to...

01:10:02 Harrison

I promised...

01:10:04 Harrison

I do promise a live stream on Discord, the construction of my slime farm.

01:10:08 Katie

Yeah.

01:10:09 Harrison

Actually, I know until I'm building it.

01:10:10 Katie

Either way, I need to see it happen.

01:10:14 Harrison

I think it may take several hours.

01:10:15 Thomas

But then it's publicly owned and people get access to shulker boxes, which is good because you can put shulker box loaders on your farms and it makes transporting them easier.

01:10:23 Thomas

So it like...

01:10:25 Jamie

Would you guys be down for...

01:10:27 Jamie

To make a hostile mob thing, button thing.

01:10:30 Thomas

Hostile mob switch, yeah, that's quite good.

01:10:32 Harrison

What does that mean?

01:10:34 Jamie

You stick like, for us, it'd be hundreds, hundreds of hostile mobs way away and have a truckloader that keeps them loaded in and you hit the mob caps and no other hostile mobs can spawn anywhere.

01:10:45 Harrison

Oh.

01:10:46 Jamie

And you can turn them on.

01:10:46 Thomas

My dad used to do them on our servers.

01:10:48 Thomas

They were quite good.

01:10:48 Thomas

Because you could just walk around at night and nothing's going to attack you.

01:10:51 Jamie

Yeah, that was quite fun.

01:10:54 Harrison

That sounds a good idea.

01:10:55 Harrison

I've just realised.

01:10:56 Thomas

The public we own thing, that's why we need money for the bloody tax system.

01:10:59 Harrison

I've just realised that, you know, I spent all that time collecting and getting really annoyed at collecting the materials of the slime farm.

01:11:05 Jamie

You know what the farm that farm was planning again.

01:11:07 Harrison

No, I just can't.

01:11:08 Harrison

Well, that's, and I can't remember where I put it.

01:11:14 Harrison

It was vague.

01:11:15 Thomas

You mean that storage system?

01:11:17 Thomas

Isn't it amazing?

01:11:19 Harrison

No, it was in like, because I said where I was going to build the slime farm.

01:11:24 Harrison

Which is across, which is across the ocean, and villages here, it was like here.

01:11:31 Jamie

But the slimes are the swamps east.

01:11:34 Jamie

It's not, I wouldn't be because you have to build it in the swamp.

01:11:36 Jamie

I was going to build it in the swamp.

01:11:38 Jamie

Yeah, I'm thinking east from where I am, but that's just not how...

01:11:41 Harrison

Do you have to build it in this one?

01:11:43 Jamie

I don't know.

01:11:44 Jamie

I don't think this one.

01:11:45 Harrison

You have to build it in this one.

01:11:46 Thomas

Is this the one with using potion?

01:11:48 Harrison

Essentially.

01:11:49 Harrison

No, you don't know.

01:11:49 Harrison

Yes, it was.

01:11:50 Thomas

I don't think you do.

01:11:51 Jamie

Yeah, I was thinking number Jumbo 20 built one time.

01:11:54 Thomas

I don't really like the using ones, but I'm fine with people building up.

01:11:58 Jamie

I'd probably find a few sellers.

01:11:59 Harrison

It's probably way easier building it in the swamp, isn't it?

01:12:04 Thomas

Not necessarily.

01:12:05 Jamie

Do you guys have to pay for electricity?

01:12:07 Jamie

Electricity.

01:12:07 Harrison

Yes.

01:12:09 Harrison

Do you?

01:12:09 Harrison

Yeah.

01:12:11 Jamie

Not all about AFK and stuff.

01:12:14 Thomas

Oh, I've got ******* money.

01:12:18 Jamie

It's not expensive anyway to run a computer overnight.

01:12:21 Thomas

No.

01:12:22 Thomas

Especially if you turn them.

01:12:24 Thomas

Graphics down.

01:12:24 Jamie

I don't know whether it's a my PC thing.

01:12:28 Jamie

Does your PC like have about 5 frames if you if you're gone for like 10 minutes or something?

01:12:35 Thomas

That's part of the settings in your.

01:12:37 Jamie

Yeah, I didn't know whether it was a thing or.

01:12:39 Thomas

Yeah, there's an option once you turns the frame rate down.

01:12:42 Jamie

That's good stuff.

01:12:45 Harrison

Katie.

01:12:46 Harrison

We haven't hit part two yet.

01:12:48 Thomas

It'll be quicker and less dense.

01:12:50 Jamie

Should we summarise?

01:12:51 Thomas

So, to summarise, summarise it.

01:12:53 Thomas

So, are people going to create...

01:12:54 Jamie

Do you want to write down?

01:12:55 Thomas

Write down what?

01:12:57 Jamie

As in, like, the summary.

01:12:59 Thomas

The summary.

01:12:59 Thomas

Well, what should I write?

01:13:00 Thomas

Okay, what is the summary?

01:13:01 Harrison

I don't know.

01:13:03 Jamie

The summary is...

01:13:04 Thomas

I have absolutely no idea where we still stand on this.

01:13:06 Thomas

Some government.

01:13:08 Thomas

Some government.

01:13:09 Jamie

I don't really know what we mean by that.

01:13:11 Harrison

Approcally, not some...

01:13:12 Thomas

The publicly owned things.

01:13:14 Thomas

Some publicly owned institutions.

01:13:16 Thomas

I don't disagree with that.

01:13:18 Thomas

Some publicly owned.

01:13:19 Thomas

So we need a tax system.

01:13:20 Thomas

That's the implications of it.

01:13:21 Thomas

Yeah.

01:13:22 Harrison

Because it's all private companies want the taxes.

01:13:26 Thomas

Well, that was my original.

01:13:27 Thomas

Yeah, we could just abandon it and it would sort this out.

01:13:29 Thomas

But then I don't want to do that.

01:13:30 Harrison

Yeah.

01:13:31 Thomas

Some government income tax.

01:13:35 Harrison

Katie, do you need tea?

01:13:38 Harrison

Katie needs tea.

01:13:38 Harrison

May you have a tea break?

01:13:40 Thomas

I like actual cup of tea.

01:13:41 Katie

Why don't we have a tea break?

01:13:43 Katie

Is this part 2 now?

01:13:45 Thomas

By the way, I'm wrapping it up.

01:13:46 Katie

OK, I'll have tea break.

01:13:48 Thomas

Income tax.

01:13:52 Thomas

There's also difficulties with taxes because if you're not, don't go online, if you log in then, how much do you pay for them?

01:13:59 Thomas

But I've got some solutions I'll propose.

01:14:01 Thomas

Cool.

01:14:01 Thomas

Because I've thought about this for ******* 6 hours.

01:14:06 Harrison

Is this what you thought?

01:14:07 Thomas

I thought about how we can implement each of these.

01:14:12 Jamie

How would we implement property?

01:14:14 Thomas

Well, that would be fairly simple.

01:14:15 Thomas

It's just you just.

01:14:18 Thomas

Come up with some sort of license system.

01:14:20 Thomas

If you have a shop, you have to pay this much per month.

01:14:23 Harrison

That would involve Amy because I'm the head of the planning committee.

01:14:25 Harrison

Like we've actually got a license for property.

01:14:29 Harrison

Katie's gone.

01:14:33 Thomas

And then people are yay for services.

01:14:37 Thomas

Yay.

01:14:38 Harrison

Oh, and the financial week.

01:14:39 Thomas

Services.

01:14:40 Thomas

Well, that's part of part 2 because we've already covered this.

01:14:43 Harrison

Oh, exciting.

01:14:44 Thomas

Yay, services.

01:14:46 Harrison

Services factorial.

01:14:48 Jamie

Yeah, we've got 70 factorial.

01:14:52 Harrison

Lots of factorial.

01:14:55 Thomas

There we go.

01:14:56 Harrison

Okay, what was in the voice memo?

01:14:58 Thomas

We can end the point, but...

01:15:01 Jamie

Do we want to establish how much income that could be?

01:15:05 Thomas

That's what I was saying.

01:15:05 Jamie

Why are you trying to think of a number?

01:15:07 Thomas

Well, if we can think of how much we need for the government, then I can go away and mess around with bands, which is what I was saying.

01:15:16 Thomas

But then I don't really know how much income there is.

01:15:18 Thomas

This was more I know how much wealth there is so I can design A tax properly.

01:15:22 Thomas

This I still don't know.

01:15:24 Thomas

It's going to take a while to balance out, especially as it's changing constantly if we start doing that.

01:15:30 Thomas

But we can set probably do it in terms of one in every something you get.

01:15:37 Thomas

Because if you set it as like 10%, you can't 10% stack.

01:15:40 Harrison

Yeah, we need a base two.

01:15:46 Thomas

Or you could just do one in five.

01:15:47 Harrison

I suppose.

01:15:51 Jamie

Do we do one in 64, which is essentially what you're saying initially, but phrasing it like that?

01:15:57 Thomas

I mean, we could do it any way we want, I guess, but how much do we want?

01:16:01 Thomas

Because there's not much moving around.

01:16:03 Thomas

It would have to be probably quite a bit.

01:16:07 Thomas

Like one in eight.

01:16:10 Thomas

That would be 12.5% if that's a flat.

01:16:12 Thomas

Are we doing flat rate or are we doing progressive with different bands?

01:16:15 Thomas

Because if it's different bands, that will say the last.

01:16:17 Jamie

I'm sure it's flat.

01:16:19 Thomas

We can do flat if you want.

01:16:20 Jamie

I think I'm going to be taxed more of income than I would wealth.

01:16:23 Jamie

I mean, I'm completely fine with that.

01:16:25 Jamie

I vastly prefer it.

01:16:31 Jamie

I just don't like the idea of...

01:16:35 Thomas

See, a year ago you were like, Yeah, Pielowski, he's doing a wealth tax.

01:16:38 Thomas

You've really changed your tune.

01:16:40 Thomas

It's just me.

01:16:42 Harrison

Here's the thing.

01:16:44 Jamie

I don't disagree that the exos would hate it if I stole his money, but I'd be very happy.

01:16:48 Thomas

Well, the point is you implement a policy objectively, regardless of how you feel about it, based on what you think would be good.

01:16:53 Thomas

You're supposed to think rationally.

01:16:56 Jamie

No, this is Minecraft.

01:16:58 Jamie

I'm never going to think about it in life.

01:17:02 Jamie

Well, yeah, I don't think a wealth tax would work.

01:17:06 Thomas

Not in real life, but it could have been.

01:17:08 Jamie

Yeah, that's what I'm saying.

01:17:09 Thomas

But anyway, yeah, that's why I'm against it.

01:17:11 Thomas

But I'm 4 here.

01:17:12 Thomas

Our economy is very different to the real life economy.

01:17:14 Jamie

It also wouldn't work in real life because it's also not really that fair in real life.

01:17:19 Thomas

Well, yes, but no, neither is taxed really.

01:17:22 Jamie

Yeah.

01:17:23 Thomas

Why am I getting taxed for working, whereas Bezos could just sit there and he doesn't get taxed even though he has everything?

01:17:29 Thomas

I mean, this seems unfair.

01:17:30 Thomas

I'd pay more tax if he didn't do anything.

01:17:32 Jamie

No, I agree.

01:17:33 Jamie

I'm not calling it tax, I'm calling it steamer.

01:17:39 Thomas

What all tax in some sense is theft.

01:17:42 Jamie

When's he making that?

01:17:43 Thomas

Well, I mean, if you're libertarian, say all tax is theft.

01:17:48 Thomas

I would say, welcome, welcome to.

01:17:50 Jamie

I would agree.

01:17:51 Jamie

It is fair.

01:17:52 Thomas

I would agree.

01:17:52 Thomas

It's not really.

01:17:53 Jamie

Yeah, but it's good fair.

01:17:56 Jamie

You have earned the money.

01:17:58 Jamie

I mean, but you've earned the money under an established system where it would happen, but there's no there's no opt-in, therefore.

01:18:04 Thomas

Or you can leave.

01:18:06 Jamie

Go where?

01:18:06 Thomas

Well, there is places with 0% taxes in there.

01:18:09 Thomas

Dubai.

01:18:10 Thomas

They have 0% tax.

01:18:11 Jamie

I mean, income tax is like, yeah, but surely they still have income tax.

01:18:13 Thomas

But you don't have to do it with income tax.

01:18:14 Jamie

Dubai, they've still got like VAT.

01:18:16 Thomas

Or some tax, yeah.

01:18:17 Thomas

But you can choose.

01:18:18 Jamie

So you still can't.

01:18:19 Thomas

You can go to a remote island where there's nothing.

01:18:22 Jamie

If I don't have the money for that.

01:18:23 Thomas

Yeah, that's a shame.

01:18:25 Jamie

So I have to go in the system.

01:18:26 Thomas

I know.

01:18:26 Thomas

It's almost like you have to be in the system and you have to live off the roads and the public services that it costs the government to make and you have to pay.

01:18:32 Thomas

I don't want to pay.

01:18:34 Thomas

You don't want to pay.

01:18:34 Thomas

You want everything for free.

01:18:35 Thomas

Now that's unfortunate because life's unfair.

01:18:37 Jamie

The problem with socialism is you eventually end up with no money to spend of something you're stealing of someone else's money.

01:18:45 Thomas

Yes.

01:18:47 Thomas

Very well thought.

01:18:48 Thomas

But we can do income tax.

01:18:49 Thomas

So are we going to set?

01:18:50 Thomas

Are we going to do it in bands or flatbed?

01:18:53 Thomas

You're the only.

01:18:55 Thomas

This is the problem.

01:18:55 Thomas

The only two people that would oppose you are ******* sleeping are in the toilet.

01:18:58 Thomas

Flat.

01:18:59 Thomas

Flat tax.

01:19:02 Jamie

Would it be bans...

01:19:05 Jamie

Is there any chance of bans being tapered?

01:19:07 Thomas

What do you mean by that?

01:19:08 Thomas

Like jeans.

01:19:11 Thomas

I've been learning about bloody fashion.

01:19:13 Thomas

It's awful.

01:19:16 Jamie

The final thing was really nice.

01:19:17 Harrison

This is my attempt.

01:19:19 Jamie

You're not good at taking compliments.

01:19:21 Thomas

This is my attempt.

01:19:22 Harrison

It's really good.

01:19:23 Harrison

I am a big fan of your outfit currently.

01:19:25 Thomas

Oh, thank you.

01:19:25 Thomas

I've gone for monotone.

01:19:28 Harrison

It works.

01:19:33 Thomas

Right, 12.5%.

01:19:35 Thomas

Thank you.

01:19:37 Jamie

Oh, it's income tax, would that also be on services, I assume?

01:19:41 Harrison

Would I be if generics income, yes.

01:19:43 Jamie

Would I be taxed on the service that I'm getting paid for the government to do?

01:19:48 Thomas

A contract, as in like this?

01:19:49 Thomas

Yeah, that's by the government.

01:19:51 Harrison

That's for part of the reason, yeah.

01:19:52 Jamie

So the government aren't paying me 12.5% essentially.

01:19:56 Thomas

Yes, just like in real life, cool.

01:19:57 Jamie

Yeah.

01:19:58 Harrison

I'm taxed and I don't care by the government.

01:20:01 Jamie

Yeah.

01:20:01 Harrison

That's OK, I'm not taxed anywhere.

01:20:03 Harrison

We'll be taxed next year.

01:20:06 Thomas

We can do 12.5, that's one in eight.

01:20:08 Harrison

That works.

01:20:09 Thomas

Is that all right?

01:20:10 Thomas

Yeah.

01:20:11 Thomas

One in eight.

01:20:13 Harrison

So in a stack, you pay.

01:20:16 Harrison

Yeah.

01:20:16 Jamie

Are we able to see where all government money goes?

01:20:22 Thomas

That is one thing I was going to put on the Treasury website, but I got round to it.

01:20:25 Thomas

And then I was going to have a little, everyone that gets funded can put a little few sentences about what they're doing.

01:20:31 Harrison

Oh, I like that.

01:20:32 Thomas

So, Kate, you can put something, I can do something about the website.

01:20:35 Jamie

Katie.

01:20:37 Thomas

Well, we can break a tea.

01:20:39 Katie

Yes, tea break.

01:20:41 Thomas

We've voted on a flat tax.

01:20:43 Thomas

I'm not sure if anyone thinks of that, but you were a sleeper in the toilet.

01:20:45 Jamie

So I was the only vote.

01:20:47 Jamie

I actually voted for no tax.

01:20:48 Thomas

You actually voted for no tax.

01:20:49 Harrison

I think I would have voted for flat tax as well.

01:20:56 Harrison

Good.

01:20:57 Thomas

Right, there we go.

01:20:57 Thomas

Are we going to discuss with each other what services we want to set up?

01:21:01 Thomas

Are we going to do?

01:21:01 Thomas

We could do that in the second part.

01:21:02 Harrison

That's like brainstorming.

01:21:04 Thomas

Yes.

01:21:04 Thomas

The second part is a lot more looser.

01:21:05 Thomas

There's going to be the Harrison ********** session.

01:21:08 Thomas

One proposal from me unrelated to the bank.

01:21:12 Jamie

Actually, this was the Jamie.

01:21:13 Harrison

This is the Jamie.

01:21:15 Thomas

Yeah, ******* you got to do this now.

01:21:17 Thomas

You got to figure this out.

01:21:17 Thomas

You could do something like, because you've got your shop suggestions, but I imagine that's just you being like, oh, we might could have this, could have this.

01:21:24 Thomas

You could have a place where people can go and it's like a consulting thing that say I want this because I'm going to build this and so I would actually buy this.

01:21:32 Jamie

As in you.

01:21:33 Thomas

As if it's not actual you.

01:21:35 Jamie

So say you're a person and you need gold.

01:21:38 Jamie

Yeah, you need gold for rail.

01:21:39 Jamie

Therefore you think that I should?

01:21:41 Thomas

Just some way of communicating demands to each other.

01:21:46 Jamie

Okay.

01:21:48 Thomas

Because I'm going to want to make a shop where people are going to buy from me.

01:21:53 Thomas

I mean, you could just do general...

01:21:55 Thomas

You could just go around and ask what are the three things you want and then you publish that.

01:21:58 Thomas

You could do what you want.

01:21:59 Thomas

But figure out a way for us to communicate more.

01:22:01 Jamie

Harrison needs gold.

01:22:02 Jamie

Harrison then comes to me to say we need to build a gold shop.

01:22:05 Jamie

And then I come to you saying can we have funding to buy someone to get someone to build a gold shop?

01:22:12 Thomas

You could do it.

01:22:12 Jamie

And then I can advertise it as the shop person.

01:22:17 Thomas

Well, if it's a publicly owned shop.

01:22:20 Harrison

So basically it's a contract bidding process to win the contract to make.

01:22:24 Jamie

Yeah, I don't.

01:22:24 Jamie

Yeah.

01:22:25 Thomas

We could do that.

01:22:26 Thomas

I mean, there's many.

01:22:27 Thomas

This is the point.

01:22:29 Jamie

Katie.

01:22:30 Thomas

So you get to implement some way of making the private sector good.

01:22:34 Thomas

I'm still stuck on this, which is the public sector.

01:22:37 Thomas

Which is the bit I find fun.

01:22:38 Harrison

I've just got an idea of how to import post office, which remind me to let you know about.

01:22:42 Thomas

Yes, we will do that in the Harrison **********.

01:22:46 Thomas

But we can have to finally.

01:22:47 Jamie

Do you want to do water streams and stuff like that?

01:22:52 Harrison

That would be cool.

01:22:53 Harrison

I was thinking more a digital service the post office could provide.

01:22:56 Harrison

Oh, okay.

01:22:56 Harrison

We.

01:22:57 Thomas

Can talk about the post office because the bank is very interested in the post office, which is why I'm doing the Harrison ********** session because it's not been built.

01:23:05 Harrison

Again, every meeting there will be a, there will be a ********** session.

01:23:08 Harrison

It will normally be me getting the **********.

01:23:12 Harrison

No, average Tuesday.

01:23:16 Jamie

D.

01:23:16 Jamie

D.

01:23:17 Jamie

I bid one Ruby.

01:23:19 Harrison

Then we can't, we can't...

01:23:23 Jamie

Oh actually, finally something to spend my money on.

01:23:26 Jamie

10,000 Ruby.

01:23:28 Harrison

You're in debt.

01:23:29 Thomas

20% tax.

01:23:30 Jamie

****.

01:23:32 Thomas

There is also an interest tax at the minute on bonds that I could set, but I'm not going to do because that's for the better.

01:23:38 Thomas

But that's also one of, because there's like 50 options you can tax, but these are the only ones that would produce enough to actually fund it on.

01:23:46 Thomas

I mean, this may not even be enough, but we have enough to fund it in a little time.

01:23:49 Jamie

Yeah, I just have no idea how you're going to spend that much from the back.

01:23:53 Thomas

1000?

01:23:55 Thomas

I'm not.

01:23:55 Jamie

Yeah, even 1000.

01:23:56 Thomas

I'm keeping that.

01:23:57 Jamie

Okay, yeah, but say you have 2000, how would you spend 1000?

01:24:02 Jamie

In theory.

01:24:03 Thomas

We're going to build this farm now.

01:24:05 Thomas

Who wants to build it?

01:24:06 Thomas

You get a thousand.

01:24:08 Jamie

Me.

01:24:08 Jamie

And you'll get a thousand.

01:24:10 Jamie

I've been bloody taxed on.

01:24:12 Thomas

Well, you'll get taxed for 0.5%, but you still get to keep 875, Robbie.

01:24:19 Jamie

I prefer income tax as well because it's also completely fine.

01:24:24 Jamie

Completely what?

01:24:25 Jamie

I'm not going to try and wangle anything.

01:24:28 Jamie

If that makes any sense.

01:24:31 Thomas

Yeah, sure.

01:24:31 Jamie

I'm not going to give a boosted contract to Katie to go give me something.

01:24:35 Thomas

Well, that would circulate the money around.

01:24:38 Jamie

Well, yeah, but it's also unfair.

01:24:39 Jamie

On the system, I guess.

01:24:42 Thomas

On the system.

01:24:43 Jamie

Because I'm dictating where the money goes.

01:24:45 Thomas

Well, you do that anyway as the power of having money.

01:24:47 Thomas

Yeah.

01:24:49 Jamie

Yeah, but I'm directly then taking away from the money that the state gets and deciding.

01:24:54 Thomas

In some way, that's why I have to...

01:24:56 Thomas

But we spread out the money out and then we redistribute the taxes in the constant.

01:24:59 Thomas

We can change the demands and turn it stabilizes.

01:25:03 Jamie

No, I just remember they did auctions in Hermancraft and that looked a lot of fun, but I don't know what that was.

01:25:08 Thomas

As in for what?

01:25:09 Jamie

Like the *******.

01:25:11 Thomas

Permits or.

01:25:12 Jamie

No, the wings.

01:25:14 Jamie

Have you seen that?

01:25:14 Thomas

No.

01:25:15 Jamie

Have you not seen where Small Wish Beans bid 1000 diamonds or something?

01:25:20 Thomas

No.

01:25:21 Jamie

It's got funny.

01:25:22 Jamie

It was just some useless science effect.

01:25:28 Jamie

Have you seen any reason?

01:25:30 Thomas

No.

01:25:30 Jamie

They've went mental on diamonds.

01:25:33 Jamie

They've got something.

01:25:33 Jamie

They're paying thousands for everything.

01:25:35 Jamie

Really?

01:25:36 Jamie

Not for everything, but there's been multiple thousand diamonds.

01:25:39 Jamie

For what?

01:25:39 Jamie

It was a thousand.

01:25:40 Jamie

That's...

01:25:42 Jamie

Pranks has been the main thing.

01:25:44 Jamie

I believe Joel and Bdubs paid like 3000 for...

01:25:53 Jamie

for some wings that had like a special pattern on them and they're sharing it.

01:25:57 Jamie

And that went straight for the bank.

01:26:01 Jamie

The bank did the auction.

01:26:03 Thomas

Oh yeah.

01:26:03 Jamie

So there you go.

01:26:04 Thomas

We can do that.

01:26:04 Thomas

That sounds fun.

01:26:05 Thomas

If you come in assets.

01:26:07 Jamie

I would bid on stuff like that.

01:26:11 Jamie

I mean, okay, as a wealthy person in this situation, I'm essentially then just trying to collect art.

01:26:17 Thomas

Well yes.

01:26:18 Thomas

Well you get to do what you want.

01:26:19 Jamie

That sounds fun.

01:26:23 Jamie

Have you updated the survey at all?

01:26:26 Thomas

Not the version, no.

01:26:27 Jamie

I just want to play around with questions.

01:26:29 Thomas

Yeah, I'm going to do it because those are good.

01:26:32 Thomas

It's important to remember, the point of an economy is resource allocation.

01:26:38 Thomas

That's what the fundamental problem of economics is.

01:26:40 Thomas

The fundamental problem of psychology is how does the mind work, how does the brain work?

01:26:45 Thomas

The fundamental question of physics is how does the universe work, why do things behave?

01:26:49 Thomas

The fundamental question of economics is there are unlimited wants and limited resources.

01:26:56 Thomas

We could theoretically give everyone electric cars, but there's not enough money in the world or resources to make electric cars for everyone.

01:27:03 Thomas

But everyone would want one if they could have one for free.

01:27:06 Thomas

So the point of our-?

01:27:07 Jamie

That's sort of why we have to split up into-.

01:27:09 Thomas

That's why supply and demand kind of happens.

01:27:12 Jamie

But also it wouldn't be possible if-

01:27:15 Jamie

Even if we did that on a medium scale, as in the UK, everyone has electric cars.

01:27:19 Jamie

They're still incredibly poor people as a result.

01:27:24 Jamie

Elsewhere.

01:27:24 Thomas

Yes, well, it's just...

01:27:27 Thomas

But the main point I was going to make...

01:27:30 Thomas

Yeah, I mean, Katie.

01:27:31 Jamie

Katie.

01:27:32 Thomas

The main point is in a way.

01:27:34 Thomas

Katie.

01:27:34 Jamie

Katie.

01:27:34 Thomas

The point, the point of our money.

01:27:36 Jamie

Until you have your head up with your eyes open.

01:27:39 Jamie

There we go.

01:27:39 Thomas

Well, this is, well, this is the interim.

01:27:41 Thomas

This isn't really the discussion.

01:27:42 Jamie

Oh, yeah, you can laugh, I guess.

01:27:45 Harrison

Why you don't want tea?

01:27:47 Jamie

It's going to cool down.

01:27:50 Harrison

Yeah, there's someone else wants to do bidding or wants to do bidding or because we're heavy duty because discussions are out of time for bidding.

01:27:56 Thomas

Yeah, ******* give me something.

01:27:57 Thomas

Give me a train mug.

01:27:58 Harrison

Train mug.

01:27:59 Jamie

I think we've discovered, we definitely know which mugs are each other's names.

01:28:06 Jamie

I know what one's not picking.

01:28:07 Harrison

This is such a sturdy mug.

01:28:11 Harrison

Katie, what mug?

01:28:11 Thomas

Well, I know what she's not going to pick.

01:28:14 Jamie

What are you not going to pick?

01:28:15 Katie

Can I have any monk?

01:28:17 Katie

Do you have my green tea bags?

01:28:18 Jamie

Any monk?

01:28:18 Katie

There's one left.

01:28:21 Harrison

There's a tea bag in here.

01:28:22 Jamie

Yeah, there was one.

01:28:23 Katie

Is it green tea?

01:28:24 Harrison

Yes.

01:28:24 Harrison

Last time you didn't drink any of it.

01:28:26 Harrison

That's not going to keep you energised for discussions.

01:28:28 Jamie

That's a good point.

01:28:30 Thomas

Yeah, I know you've got work tomorrow.

01:28:32 Thomas

You've got two teas.

01:28:33 Jamie

I don't have.

01:28:35 Thomas

Uni tomorrow.

01:28:36 Thomas

I've got a bloody two inductions tomorrow.

01:28:38 Thomas

My fourth and fifth induction and then I've got a sixth next one.

01:28:44 Thomas

For some ******* reason.

01:28:45 Thomas

I'm not going to go to the movement of the mandatory and they're going to send me angry emails and I'm going to tell them the **** *** and hopefully not get kicked out.

01:28:53 Harrison

But then if you do, you could be full time.

01:28:56 Harrison

Greasy or black tea?

01:28:59 Jamie

Green or black?

01:29:03 Harrison

It is your decision.

01:29:04 Thomas

It is your decision.

01:29:05 Thomas

We're not forcing.

01:29:05 Thomas

You can vote for whoever you want.

01:29:06 Jamie

Is there milk?

01:29:08 Jamie

Uh, the pizzin do.

01:29:10 Jamie

I need to specify that these days.

01:29:12 Harrison

Tesco is over.

01:29:14 Harrison

No it is.

01:29:14 Harrison

You want a Tesco trip?

01:29:15 Thomas

Unless we drive though.

01:29:16 Harrison

What time is it?

01:29:17 Katie

Bloody hell.

01:29:18 Harrison

Oh Tesco is not open.

01:29:19 Harrison

Okay, so no milk for Jamie.

01:29:20 Harrison

Do you want a black tea?

01:29:21 Jamie

Wait, surely co-op's open.

01:29:23 Harrison

Co-op's open.

01:29:24 Harrison

We can water the co-op if you like.

01:29:26 Jamie

They are milk.

01:29:27 Jamie

Yeah.

01:29:27 Jamie

It's not like we need.

01:29:30 Thomas

To get this over because Katie's not here.

01:29:31 Jamie

It's like if we just leave her here.

01:29:34 Thomas

Yeah, she can get the nap in.

01:29:35 Harrison

Katie, do you want a 20 minute nap in our house?

01:29:37 Jamie

Are you cool with staying here while we go co-op?

01:29:40 Katie

Okay.

01:29:45 Thomas

But anyway, as I was saying, the point of our economy is that we have several farms and we all want to do stuff and it's resource allocation.

01:29:53 Katie

That's on my list of things to do.

01:29:54 Katie

Thank you.

01:29:55 Katie

Have you got my phone because I had yours.

01:29:57 Jamie

No, that's not how that works.

01:30:01 Katie

It's not traces.

01:30:02 Katie

I didn't think it was a principle.

01:30:05 Thomas

Anyway, I'll adjourn this.

01:30:07 Thomas

Oh, one hour 30.

00:00:00 Harrison

There we go.

00:00:00 Jamie

Where are you getting your desk?

00:00:03 Harrison

I need to order it.

00:00:05 Jamie

Where are you getting your desk from?

00:00:06 Harrison

IKEA.

00:00:07 Harrison

Yes.

00:00:09 Thomas

I got mine.

00:00:09 Thomas

It was forty-five quid.

00:00:10 Harrison

That's why I didn't do it.

00:00:12 Jamie

Oh, I got the cabinet.

00:00:13 Harrison

But I don't like the colours they have in IKEA.

00:00:15 Thomas

No, I'm pretty sure.

00:00:16 Thomas

I mean, you can paint them if you really fancy them.

00:00:18 Thomas

I can't be asked.

00:00:19 Harrison

Actually, we'll be staying there a while.

00:00:20 Harrison

It's worth doing at that point.

00:00:21 Thomas

You can also keep it.

00:00:22 Thomas

You can also keep it after you move.

00:00:25 Harrison

Yeah, that's true.

00:00:28 Thomas

You have to own things.

00:00:30 Harrison

No, not either.

00:00:30 Thomas

It was Becca Starmer didn't take that away.

00:00:32 Harrison

Billy Burnsbridge.

00:00:35 Thomas

Right, we've covered Newfoundland.

00:00:37 Jamie

Does the server have a name?

00:00:39 Jamie

Or like the world have a name.

00:00:40 Thomas

Not really.

00:00:42 Thomas

Viaductian server it's called on my hosting.

00:00:44 Harrison

Yeah, because we've got the Viaductian island, does the world have a name?

00:00:48 Jamie

Is it officially the Viaductian island?

00:00:49 Harrison

I think it is, yeah.

00:00:50 Thomas

I'd just call it home island, but we call it Viaductian island.

00:00:52 Harrison

Well, there's the BCC, Viaductian, I imagine that in personally island rather than its population.

00:00:57 Thomas

I thought it just referred to us.

00:01:00 Thomas

Well, I do, this will be somewhat relevant because I have plans for out of Ireland stuff, but that will be after Harrison explains his post office plans.

00:01:08 Harrison

Katie, wake up.

00:01:10 Harrison

Katie, Katie, wake up.

00:01:12 Thomas

That'll come in after I respond to you.

00:01:14 Thomas

Say, yes, I want this, why haven't you done it?

00:01:17 Thomas

But I wanted to ask, what are you planning for there?

00:01:19 Harrison

So obviously you've got the letters, which is fairly easy, but I was thinking as an additional service beyond letters, letter delivery the post office can provide,

00:01:28 Harrison

And this is why I purchased up your idea of a government-owned shulker farm, shulker boxes, because then we could have, if you had a large quantity of something off the island and you wanted it on the island, you could commission the post office to deliver it for you.

00:01:42 Thomas

Yeah, the freight, yeah.

00:01:44 Harrison

And if I had other shulker boxes, that's really easy.

00:01:48 Thomas

In terms of...

00:01:49 Thomas

Are you publicly owned or privately owned?

00:01:52 Thomas

Are you funded by stamps and payments or by government taxes?

00:01:56 Harrison

My thought was the post was publicly owned.

00:01:59 Thomas

Publicly owned?

00:02:00 Thomas

Yeah.

00:02:01 Jamie

That was funny.

00:02:02 Jamie

So you said the opposite.

00:02:03 Thomas

Yeah.

00:02:05 Jamie

Couldn't have gone worse.

00:02:06 Jamie

Yes, I'm a thief.

00:02:07 Harrison

No, I didn't say I was releasing the sausages.

00:02:12 Thomas

Are you funding via paying for, people pay for postage or through general taxation?

00:02:19 Harrison

I assumed of Nick said both.

00:02:20 Harrison

Is that not how the post office is funded nowadays?

00:02:22 Thomas

Somewhat, yeah.

00:02:23 Thomas

But I mean, you don't have to follow.

00:02:25 Jamie

Is the Royal Mail public earned?

00:02:26 Thomas

Yeah.

00:02:27 Harrison

Hence Royal.

00:02:30 Harrison

Really?

00:02:30 Harrison

Yes, the King's Post Office.

00:02:31 Harrison

It's so ****.

00:02:33 Harrison

Yeah.

00:02:33 Thomas

I mean, yeah.

00:02:34 Harrison

So a lot of things are publicly owned.

00:02:36 Harrison

I think this is Thatcher's point.

00:02:38 Harrison

That's the question I had to.

00:02:40 Thomas

You've been arguing.

00:02:42 Thomas

I think you've turned around.

00:02:45 Jamie

Where's my phone?

00:02:47 Jamie

Okay, have you stolen them again?

00:02:48 Jamie

You have, you've sat on them.

00:02:50 Harrison

That's not really stealing.

00:02:51 Harrison

Yes, because the point I wanted to say...

00:02:55 Harrison

I think you've assaulted them.

00:02:58 Harrison

Sorry, James.

00:02:59 Thomas

The bank would like to send a lot of letters and it was just in my interest.

00:03:03 Thomas

Am I going to be paying per letter or can we have contracts?

00:03:06 Harrison

No, I think there's a very easy contract.

00:03:08 Thomas

Royal Mail.

00:03:09 Harrison

Because it's just shifting around government money at that point, you know?

00:03:13 Thomas

Yeah.

00:03:13 Jamie

Royal Mail is private.

00:03:16 Harrison

Sorry, it's a bank part, a central bank, of course it is part of the government, isn't it?

00:03:19 Harrison

Yeah, separate from the government.

00:03:20 Thomas

It's 2015.

00:03:23 Thomas

There you go.

00:03:23 Thomas

Wow, it's ******* bloody Tories, isn't it?

00:03:26 Harrison

I mean, they sold it.

00:03:27 Jamie

I saw it somewhere.

00:03:28 Thomas

Yeah.

00:03:28 Thomas

Well, it should be government owned.

00:03:30 Thomas

Yeah.

00:03:32 Thomas

Well, it depends what you mean by the government.

00:03:35 Thomas

The central bank isn't technically the government.

00:03:38 Thomas

I mean, Trump's found this out.

00:03:39 Thomas

He's going to war with the Fed because the central bank's independent.

00:03:41 Thomas

Because the point is, again, while I said I see myself as for life, it's because...

00:03:46 Harrison

You fussed this.

00:03:47 Harrison

Yeah.

00:03:48 Harrison

You can say to the Prime Minister, you ****** this, we're going to sort it out.

00:03:52 Thomas

Yeah.

00:03:52 Thomas

I can't remember who's in head of the bank, but he's not politically appointed.

00:03:57 Harrison

It used to be Mark Carney, isn't it?

00:04:01 Harrison

Yeah, he might speak.

00:04:02 Harrison

No, he's not.

00:04:04 Jamie

That would be a conflict.

00:04:05 Harrison

He'd be busy.

00:04:09 Thomas

Yeah, I don't remember.

00:04:10 Jamie

I wouldn't like that at all if I was the American government, to be fair.

00:04:14 Jamie

If the previous head of the American bank was the Canadian Prime Minister.

00:04:21 Thomas

Oh, who's the head of the...

00:04:23 Thomas

I did look up who's the head of the Bank of England.

00:04:25 Jamie

The most powerful thing that I can't control is you should be headed up by the people I'm currently aggressive to.

00:04:32 Jamie

Sounds unfair.

00:04:34 Harrison

But that's Locker's direction to what happens in this case, because Mark Harley used to be the governor of Bank England, and now he's trying to...

00:04:41 Jamie

Oh, I thought you said the...

00:04:43 Harrison

No, it's not.

00:04:44 Jamie

I thought you came around.

00:04:45 Jamie

No, Wall Street.

00:04:48 Jamie

I never noticed that it's a Wall Street.

00:04:50 Jamie

Oh, yeah, Wall Street.

00:04:54 Thomas

The ******* shit's gone down.

00:04:56 Jamie

Oh, no.

00:04:57 Jamie

Why has it all gone down?

00:04:58 Thomas

Oh, no.

00:05:00 Thomas

The evil rich people are losing money.

00:05:04 Jamie

Which character was your favourite?

00:05:07 Jamie

Jill and Bills.

00:05:08 Thomas

Yeah, I don't know.

00:05:09 Thomas

Stop watching halfway through.

00:05:11 Jamie

You scumbag.

00:05:12 Thomas

I've got things to do.

00:05:15 Harrison

What serious is this?

00:05:16 Harrison

It's Helicraft.

00:05:17 Thomas

I've got a ******* bank to run.

00:05:19 Thomas

I came ******* top of the class because I had revisions to do.

00:05:22 Harrison

Is this the current one?

00:05:23 Jamie

No, last season.

00:05:26 Harrison

I started watching this season.

00:05:27 Harrison

I just, I've fallen off a cliff.

00:05:28 Thomas

Yeah, we've got things to do.

00:05:29 Jamie

You have to watch one video every month.

00:05:37 Thomas

How are letters going to work?

00:05:39 Thomas

Is in terms of...

00:05:40 Jamie

Is anyone going to post?

00:05:42 Thomas

How are mailboxes...

00:05:44 Thomas

How is there post boxes?

00:05:45 Thomas

How is there...

00:05:46 Harrison

I think everyone has a post box as you buy the post office.

00:05:51 Jamie

I think cool designs for post boxes.

00:05:53 Thomas

We could have a post box.

00:05:54 Thomas

And so do we, is there, as in...

00:05:56 Harrison

I think you'll have to...

00:06:00 Harrison

I visit yours once a day or like whenever I log off.

00:06:03 Thomas

Yeah, okay.

00:06:04 Harrison

Once a month.

00:06:05 Harrison

No, but I will log on more, because everyone goes through phases.

00:06:10 Harrison

And if I had to, I'd be on more.

00:06:11 Harrison

But like, you can probably system where you can, it's like a, you could put the flag up on your post box or whatever, if you had a letter to collect, I collect it, tagged to deliver to.

00:06:21 Harrison

We could do a beacon, someone.

00:06:23 Harrison

That's a lot for just to have some of my piston system.

00:06:27 Thomas

It's also going to be quite an eyesore if there's bloody.

00:06:30 Jamie

Yeah, but then they'll definitely get collected.

00:06:33 Thomas

Well, I mean, you've got to come on.

00:06:34 Harrison

Yeah, but I think we just do piston systems.

00:06:38 Jamie

We could do a light in the back, in the, what's it called?

00:06:43 Jamie

Post office.

00:06:45 Harrison

Yeah, I mean, I would say you need a post box outside your house.

00:06:48 Harrison

Yeah, like a letter.

00:06:49 Thomas

Well, when you post a letter, you don't go put it through your door, you put it through a central...

00:06:53 Harrison

I suppose, yeah.

00:06:54 Harrison

But do you mean to say to people having to walk?

00:06:56 Harrison

Actually, you want people to walk to the post office in fairness, don't they?

00:06:58 Jamie

Yeah, that's okay.

00:07:00 Harrison

I didn't consider that.

00:07:00 Harrison

Yeah, we'll do that, yeah.

00:07:03 Jamie

Of course you don't put it in your own post box, do you?

00:07:06 Thomas

Why is it not a DVLA?

00:07:07 Harrison

I might need some help with the rest thing for that, but.

00:07:13 Thomas

I mean comparator and then there's something in the chest.

00:07:16 Harrison

So I can do it, if something is in this chest, this like **** turns up.

00:07:19 Thomas

Yeah, comparator will give a positive signal.

00:07:21 Thomas

OK, something to the chest.

00:07:22 Harrison

So it's just one piece of redstone then?

00:07:24 Thomas

Or if you can't do it, if there's a redstone consultancy that someone sets up, you can use government money.

00:07:28 Thomas

I mean, oh, services.

00:07:30 Thomas

I've got a genius idea.

00:07:31 Jamie

I'm not good enough to do a consultancy service.

00:07:35 Thomas

I might do.

00:07:35 Thomas

I've done it previously in my servers.

00:07:37 Thomas

Because I've come through this kind of before.

00:07:40 Thomas

In some ways.

00:07:41 Jamie

In some ways, but I don't know with a redstone.

00:07:43 Jamie

OK.

00:07:43 Harrison

Do you know what it's doing?

00:07:45 Thomas

Well, he can build a computer from scratch.

00:07:47 Harrison

Yeah, that's what he's doing.

00:07:49 Harrison

Can you build a brain, Harrison?

00:07:50 Harrison

No, one can.

00:07:52 Jamie

I can.

00:07:53 Jamie

Computer.

00:07:53 Thomas

Oh, Katie can.

00:07:54 Harrison

I've made this book called How to Build a Brain.

00:07:56 Jamie

I know how to put the parts in the PC.

00:08:00 Harrison

I know how to put the parts in there.

00:08:01 Harrison

I know where the parts of the brain go, but I haven't done it before.

00:08:04 Thomas

Well, the crazy thing is, we can't create it, but like Katie can make one.

00:08:09 Thomas

But we don't know how.

00:08:10 Harrison

What do you mean Katie can make a brain?

00:08:12 Thomas

No, make a baby which has a brain in it.

00:08:15 Thomas

It's part comes part of the package.

00:08:19 Thomas

No one has a clue.

00:08:20 Harrison

I thought you said Katie can build a brain.

00:08:21 Harrison

No, I'm not saying it's like a chemistry lab.

00:08:23 Harrison

I was like, what?

00:08:24 Harrison

Well, she can.

00:08:25 Harrison

Moves the chemistry lab.

00:08:26 Harrison

If you mix hydrogenic acid with sulfuric acid with some carbonate and makes a brain.

00:08:31 Harrison

And salt.

00:08:32 Harrison

And salt.

00:08:34 Harrison

The table's on ruthless.

00:08:34 Harrison

Don't forget.

00:08:35 Thomas

I'll go more generally if she's a woman.

00:08:36 Thomas

Yes.

00:08:40 Thomas

That's the fun thing, because ******* we figured it out somehow and we still don't know.

00:08:44 Thomas

Anyway.

00:08:46 Jamie

Yes, but that must have been trial and error, surely?

00:08:49 Thomas

Life's quite interesting that it evolved.

00:08:51 Harrison

Yeah.

00:08:52 Thomas

There's a lot of things that have to happen.

00:08:54 Harrison

In a way, evolution is just trial and error.

00:08:58 Harrison

But yeah, There is various trials that happen with magnum mutations and then lots of errors.

00:09:04 Jamie

Do you reckon we did it first time?

00:09:06 Jamie

I think we did, because we would have learned, Your bit is different to mine bit.

00:09:12 Jamie

What?

00:09:13 Harrison

Animals do it all the time, because they don't have an instinct, like a drive to do it.

00:09:16 Jamie

Or so do we.

00:09:17 Harrison

That's the thing.

00:09:18 Harrison

That's what we said.

00:09:19 Jamie

Do we know how to do it instinctively?

00:09:20 Harrison

I think so, yeah.

00:09:24 Thomas

Well, you don't even necessarily need to know that, because you can see other people doing it.

00:09:27 Thomas

We're so societal.

00:09:28 Harrison

But you'll see animals doing it as well.

00:09:31 Harrison

I think generally that's probably how it started.

00:09:35 Thomas

I mean, it started off when we were like fish and we were...

00:09:39 Harrison

How is your cow to ****?

00:09:41 Harrison

You don't.

00:09:42 Harrison

The cow just knows.

00:09:44 Jamie

Just do it.

00:09:45 Thomas

Yeah.

00:09:45 Jamie

Just jumps on.

00:09:46 Harrison

When you when you're when you're like farming sheep and you hire like rent a ram to come in and prep egg or sheep to make it to laugh.

00:09:54 Harrison

You don't you don't have to get around the crash course without the presentation.

00:10:01 Thomas

You see, we don't need sex ed.

00:10:03 Harrison

But the rams don't really have to worry about syphilis.

00:10:08 Harrison

Well, they don't have to worry.

00:10:09 Harrison

It's just they don't have the capacity to worry about syphilis.

00:10:13 Thomas

So if we lobotomize people, they don't have to worry.

00:10:17 Jamie

We don't have to teach people.

00:10:19 Thomas

Okay.

00:10:20 Harrison

Is this recording still?

00:10:21 Thomas

This is recording.

00:10:22 Thomas

This will be on the minutes.

00:10:24 Harrison

Discussion about syphilis and syphilis.

00:10:29 Harrison

This is going to be on the website over the whole minute.

00:10:30 Thomas

This will be on the public website that everyone can access.

00:10:33 Harrison

Everyone in the world can access.

00:10:35 Jamie

Do you guys know that we're doing a game tonight?

00:10:38 Thomas

As in what?

00:10:39 Harrison

Is this Amy's?

00:10:40 Harrison

Yeah.

00:10:41 Harrison

Yes, what day is it?

00:10:42 Harrison

Saturday or Sunday?

00:10:43 Harrison

Because I'm obviously not here on a Saturday, but I'm here on a Sunday evening.

00:10:46 Jamie

Yes, that's why it's on a Sunday.

00:10:47 Jamie

Cool.

00:10:48 Thomas

Yes.

00:10:48 Jamie

Amy's staying around ours.

00:10:50 Harrison

Yes, I thought she was.

00:10:52 Thomas

Is this in October?

00:10:53 Harrison

This is next week.

00:10:54 Thomas

OK, yes.

00:10:55 Harrison

This is next week.

00:10:56 Harrison

Well, yeah.

00:10:56 Thomas

That's when he's going next weekend.

00:10:59 Thomas

next week.

00:11:00 Harrison

I'm leaving on Tuesday.

00:11:01 Jamie

I need to plan things then.

00:11:02 Thomas

It's coming back.

00:11:03 Thomas

Well, don't forget a calendar.

00:11:05 Thomas

Google Calendar.

00:11:06 Jamie

No, she didn't know what's happening next week.

00:11:07 Jamie

When did you leave?

00:11:09 Jamie

I thought it was in like November.

00:11:10 Harrison

Why would it be in November?

00:11:11 Jamie

I don't know.

00:11:12 Jamie

I don't know when the plans were.

00:11:14 Jamie

You normally do plans a few weeks in advance.

00:11:16 Harrison

Yeah, but it was like you didn't it's been a few weeks.

00:11:19 Jamie

But Amy wasn't stopping like 2 days ago.

00:11:22 Harrison

What do you mean stopping?

00:11:23 Jamie

She wasn't staying hours until two days ago.

00:11:25 Jamie

Oh, she's not.

00:11:26 Jamie

No, she was staying with like her friend in Stockport.

00:11:28 Jamie

I'm sorry, this was your plaque because I've manualed it.

00:11:32 Harrison

I like manual boxes.

00:11:34 Thomas

We could have done this with Amy's presence.

00:11:36 Thomas

She would have loved to sit down for three hours and talk about tax policies and our made-up currency.

00:11:40 Harrison

I need to find all four of you guys something from Portugal as travel presence.

00:11:46 Thomas

A full train.

00:11:47 Jamie

That would be fun.

00:11:47 Harrison

A full train.

00:11:48 Thomas

Might be difficult to send the bank.

00:11:50 Harrison

What if Lisbon, Lisbon, Fenzer is trans.

00:11:52 Jamie

It's a point.

00:11:55 Harrison

No, we agree on this.

00:11:56 Jamie

Higher bar.

00:11:57 Harrison

Higher bar.

00:11:58 Jamie

Higher bar.

00:11:59 Harrison

And I have to, I'm going to be honest in like, it won't be planning stuff.

00:12:03 Harrison

Because obviously tourism, you plan things.

00:12:05 Jamie

Has to be stuff.

00:12:06 Jamie

I feel like it can't be, it can't be images is my, is my.

00:12:11 Harrison

Right.

00:12:13 Harrison

How do you think I'm going to, I was into, so.

00:12:16 Jamie

I don't mean you've got to bring it home with me.

00:12:18 Jamie

I mean, it can't be like a picture of a thing.

00:12:21 Harrison

What the **** is that thing?

00:12:22 Harrison

My recent point of Polish bean soup.

00:12:26 Jamie

Yeah, I don't think you get that in Portugal.

00:12:28 Harrison

Yeah, I think you.

00:12:28 Jamie

Do get that in this country.

00:12:33 Harrison

But to be fair, I think Polish bean soup is more surprising in Portugal than it is in England.

00:12:37 Harrison

So I think that, I don't think it's not actual.

00:12:39 Thomas

It's been taxed.

00:12:40 Thomas

Portugal taxed.

00:12:41 Jamie

Portugal taxed.

00:12:41 Jamie

But then again, does Portugal have a wealth tax?

00:12:44 Thomas

I doubt.

00:12:45 Thomas

I don't know if any country does.

00:12:47 Harrison

Portugal.

00:12:47 Thomas

I think they've all figured it out that you shouldn't.

00:12:49 Harrison

Portugal's not a really interesting drug policy though.

00:12:52 Harrison

Decriminalisation of drugs.

00:12:54 Harrison

And it works.

00:12:55 Harrison

Shocking.

00:12:56 Harrison

Because it's a social health issue, not a criminal issue.

00:13:01 Thomas

How do letters work in post office?

00:13:03 Thomas

So if I have a signed book that I want to send to Katie.

00:13:06 Harrison

You put it in your...

00:13:07 Thomas

How do you know where it's going to go?

00:13:08 Thomas

Do I have to include it in?

00:13:09 Harrison

Yeah, I think you'll sign it, like deliver to here.

00:13:14 Harrison

Do I give it?

00:13:14 Harrison

Unless you, unless I guess with a piece of paper.

00:13:17 Harrison

Well, I guess because there's so few of us, we can have like 4 chests and then any chest, any item in any of those chests.

00:13:23 Harrison

Like, so like, Well, there's.

00:13:25 Thomas

Still going to be like, I could send it to the VCC or KC.

00:13:27 Thomas

That's going to be the bank of Mints or me.

00:13:30 Thomas

Jamie or the comes log?

00:13:32 Harrison

Maybe for maybe each individual account then you should put it.

00:13:35 Harrison

No, that's then that's delivered in the letter, and you may as well just deliver it at that point.

00:13:40 Jamie

Yeah, that's going to be some.

00:13:41 Thomas

On the way to bulk mass click into a chest and then you sort it out.

00:13:45 Harrison

Yeah, that should have it be how it is really.

00:13:47 Jamie

It would just have to be a naming of the book.

00:13:49 Harrison

Yeah, I think it's a book delivered to VCC, delivered to K2, delivered to...

00:13:54 Harrison

What did Hagercraft do?

00:13:55 Jamie

It wouldn't have to have from, would it?

00:13:59 Thomas

No.

00:13:59 Jamie

You can send anonymous.

00:14:00 Harrison

Yeah, because that, yeah, because you don't write when you...

00:14:02 Thomas

I mean, you can't return the dress if you want.

00:14:04 Harrison

Yeah, exactly.

00:14:05 Harrison

When you send the letter now, you don't write from Harrison.

00:14:07 Harrison

I don't want from Harrison.

00:14:08 Harrison

They probably send a little birthday card to my mum.

00:14:11 Harrison

Do you look at the card?

00:14:12 Harrison

Oh, this is from Harrison.

00:14:13 Jamie

Yeah, but in the bottom you'd say like from Harrison.

00:14:16 Harrison

Yeah, but in the card.

00:14:17 Harrison

In the card.

00:14:17 Harrison

Not in the envelope.

00:14:18 Harrison

Not in the address.

00:14:19 Harrison

We don't.

00:14:20 Jamie

But all we're sending is a card.

00:14:22 Jamie

We don't have an envelope.

00:14:24 Harrison

Yeah, but as in the envelope is effectively the name of the name of the book when you sign it.

00:14:28 Jamie

Does it have to be signed books?

00:14:30 Harrison

I'm sorry, because it's.

00:14:32 Harrison

I just mean, you sign a book for your message and then you name the book on like an anvil.

00:14:38 Jamie

I assume you're never going to look at the messages.

00:14:39 Harrison

No.

00:14:40 Thomas

What is if I need to send...

00:14:42 Jamie

What if I send an anonymous message?

00:14:44 Jamie

Then I have to sign the book.

00:14:46 Jamie

But then I don't want to sign the book.

00:14:47 Harrison

Well, don't sign the book then.

00:14:48 Harrison

I'm just saying it's anonymous.

00:14:50 Jamie

So then I'll just rename it and have them.

00:14:51 Harrison

Yeah.

00:14:52 Harrison

We don't have to sign the book anyway, in fairness.

00:14:55 Harrison

It's just easy to write your name, I guess.

00:14:59 Harrison

For example, if you wanted someone to fill in, like, effectively, if you wanted to send a contract.

00:15:03 Harrison

I've ******* done it again.

00:15:05 Harrison

If you can do it, I'd be like giving permission.

00:15:08 Harrison

If you want, if you want to send someone a contract, you wouldn't then sign the book, because then they would have to, you want them to put a response in the book for you, and they'd just rename it, such deliver to this, and they'd open it and like, oh, it's a contract for me to send.

00:15:22 Harrison

I assume we're going to be doing contract at some point, if we're doing like commissioning people for services.

00:15:26 Thomas

Well, I mean, this is also linking to

00:15:30 Thomas

Because Jamie wants a way to buy bonds without me being online, it seems.

00:15:34 Harrison

So is that the post services?

00:15:35 Thomas

So it could be via the post service.

00:15:37 Thomas

Because bonds, I'm not going to sell up a vending machine because they are at my discretion to sell them.

00:15:42 Thomas

I don't have to sell them, even if I have an advertised interest rate.

00:15:46 Thomas

So if it's via the postal service, he can send it when he's online.

00:15:49 Thomas

I can then respond when I'm online.

00:15:50 Thomas

And then we can have a back and forth.

00:15:52 Harrison

How would that go through the post office then?

00:15:55 Thomas

As in he sends an application to the postal.

00:15:56 Harrison

Service and then it's here.

00:15:58 Thomas

Yeah.

00:15:59 Thomas

I mean, yeah.

00:16:00 Jamie

My main thing was I would like to store my raw beef in a bank account because that sounds fun.

00:16:06 Thomas

I might, I will probably build an automated.

00:16:09 Harrison

Can we call the bank accounts fridges?

00:16:12 Thomas

We can colloquially call them, we can refer to them as fridges, yeah.

00:16:16 Jamie

Would bonds lend you freezers?

00:16:19 Harrison

Yes.

00:16:19 Harrison

I'm freezing my mins.

00:16:22 Harrison

Frozen assets.

00:16:23 Thomas

Frozen assets, yeah.

00:16:24 Harrison

It's like they've got freezer assets.

00:16:28 Harrison

Okay.

00:16:28 Jamie

We're good.

00:16:29 Jamie

That's fine.

00:16:30 Thomas

This lasts longer.

00:16:31 Thomas

They'll make more money.

00:16:32 Thomas

You see it?

00:16:32 Thomas

If we had a wealth back, it would make more sense.

00:16:35 Thomas

Anyway.

00:16:35 Jamie

We can revisit.

00:16:38 Thomas

Yeah.

00:16:39 Harrison

I imagine we will.

00:16:39 Jamie

I mean, I imagine we'll all come back.

00:16:41 Jamie

We'll go into similar amounts.

00:16:45 Jamie

Yeah.

00:16:45 Harrison

Jumbawomba.

00:16:46 Thomas

We'll find out.

00:16:47 Jamie

Jumbawomba.

00:16:53 Jamie

We'll be singing when we're winning.

00:16:57 Thomas

Can you put a book in a bundle?

00:17:00 Harrison

I think you can.

00:17:00 Harrison

It would take up the entire bundle.

00:17:05 Thomas

Well, yes, but then you can rename the bundle and hide what's in the book.

00:17:08 Jamie

Yeah.

00:17:09 Thomas

So if you wanted to send anonymous, you can send.

00:17:11 Harrison

Yeah, to be fair, actually.

00:17:12 Jamie

If we have infinite shulkers, you can definitely do a shulkers.

00:17:14 Thomas

Or you can do it.

00:17:14 Thomas

Well, you can send packages via a shulker.

00:17:16 Harrison

I think though, if you want to send a bundle, I think we should put some sort of like safety system.

00:17:22 Harrison

Well, I don't think I should be able to deliver a part.

00:17:25 Thomas

I don't think that's gonna, I don't think a bomb's gonna be in there.

00:17:27 Jamie

I don't think you should be able to deliver a bomb.

00:17:31 Thomas

It's a wild tape, actually.

00:17:32 Thomas

I think we should be able to send...

00:17:38 Jamie

No, it's like a trap chest that takes the input and then dispenses the bombs.

00:17:47 Harrison

No, but you should be able to, if you, what I'm saying is, if you rename any item with an address that I can like, if you've got a slice of watermelon I can deliver if you renamed it to the address, you know?

00:17:59 Harrison

So perhaps that could be a way of like, if you wanted to send sort of some like fiat currency payments to someone, like you could do some bartering, you could send that via the postal service.

00:18:09 Harrison

I don't know what I feel, but if you're bartering and just saying, I don't know what Fiat accounts it is.

00:18:16 Harrison

If you're only trading cars.

00:18:18 Thomas

Yes, the Italian mid.

00:18:21 Harrison

So if you're paying like, I don't know, 20 bread for someone's like some bricks.

00:18:29 Harrison

But we've got the beef system.

00:18:33 Harrison

Sometimes you, because sometimes you do trades without, you know what I mean?

00:18:37 Harrison

If you want to give, if you want to give someone, I think we should be able to set up bricks.

00:18:42 Harrison

Bricks are exchangeable bread.

00:18:43 Thomas

Yeah, alternative currency.

00:18:45 Jamie

I've got bread.

00:18:46 Jamie

I've got a lot of bread.

00:18:47 Thomas

I've got a lot of bricks to provide.

00:18:49 Harrison

I need some bricks.

00:18:52 Harrison

I need to work out a design for the post office.

00:18:56 Jamie

Tom's got bricks.

00:18:56 Harrison

I feel like I'm cheating if I follow a template, so like a plan.

00:19:04 Jamie

I use a lot of images for mine because I'm not good at building, but I'm definitely better at building than I was before I started using the images.

00:19:15 Harrison

I also like don't build, which is why I'm bad at building.

00:19:17 Thomas

I mean, just search up Minecraft, I don't know, village post office or whatever.

00:19:22 Thomas

Take 10 that you like and try and merge them together.

00:19:25 Thomas

That's basically how anything gets.

00:19:26 Harrison

I'm really bad like block pallets, like whatnot.

00:19:30 Thomas

You see, if someone had an architectural design service that the government, Harrison, could get a loan for and then pay.

00:19:38 Jamie

So knowing that none of us are like builders, builders.

00:19:40 Jamie

That'd be good.

00:19:42 Harrison

Maybe you could train these to be a builder?

00:19:44 Jamie

I was going to say, OK.

00:19:48 Thomas

Yeah, I've been focusing on building, but I think I'm going to go that way more into farms at some point.

00:19:55 Jamie

I'm still going to, yeah, I'm going to.

00:19:57 Thomas

I might set up a financial service sector if anybody needs help with tax planning.

00:20:02 Harrison

Private equity.

00:20:02 Thomas

Private equity firm.

00:20:04 Jamie

Yeah, how can I dodge the taxes?

00:20:05 Thomas

Oh yeah, I can help them dodge the taxes.

00:20:07 Harrison

I feel like there's some level of conflict of interest for having a private equity firm running the central bank.

00:20:16 Thomas

This is why I'm not going to set up savings accounts or whatever, because that would be a confidence.

00:20:23 Thomas

But I'll probably set up an automated account where you can go downstairs, put your card in, then you get access to your account like a minecart chest.

00:20:32 Thomas

So you can put stuff in there.

00:20:33 Jamie

Does the rail system work?

00:20:36 Jamie

I don't remember the point you got to.

00:20:38 Thomas

The rail system.

00:20:40 Jamie

As in...

00:20:41 Jamie

go to this point and it stops and then changes.

00:20:45 Thomas

I haven't got further than Village 1, there's actual tracks.

00:20:50 Jamie

But does it have the setting whether you want to go left or right beforehand?

00:20:55 Thomas

Yeah that works at the split after you go across the viaduct.

00:20:59 Jamie

Oh yeah, you said the chest mic.

00:21:02 Thomas

Yeah so the head.

00:21:02 Thomas

If it's got to be the dirt in I think then it goes left otherwise it goes right.

00:21:06 Thomas

That's pretty cool.

00:21:08 Thomas

That was the demo and it works in practice well.

00:21:11 Thomas

a small one.

00:21:13 Thomas

See if it works in the...

00:21:15 Thomas

I was going to bypass the villages and go straight to the industrial area, which is the other thing I was going to talk about.

00:21:20 Thomas

My plans for that?

00:21:21 Jamie

I don't know what to do with farms and stuff.

00:21:28 Jamie

Because I like buildings on the main island, but then it might eventually get cluttered.

00:21:35 Jamie

But it's...

00:21:36 Thomas

Well, we have the others.

00:21:40 Jamie

I'm definitely paying to help me move my casino.

00:21:45 Jamie

It's just in such a crucial location.

00:21:47 Thomas

What are you going to put there?

00:21:48 Jamie

I have no idea, but it's just too small to be there as well.

00:21:51 Jamie

It looks a bit pathetic because everything pointing at it.

00:21:54 Thomas

Yeah, it could be a fountain, it could just be an open area.

00:21:58 Jamie

We could move the tree.

00:22:00 Thomas

Yeah, we could move it.

00:22:01 Jamie

I feel like the tree being that could be quite cool.

00:22:10 Jamie

The trees currently, if it gets any bigger, it would be in the way of things.

00:22:13 Thomas

Yeah, yeah.

00:22:15 Thomas

If we're building a big tree, then we can move it.

00:22:18 Thomas

Something like that.

00:22:20 Jamie

I believe Katie was building the big tree.

00:22:22 Thomas

Yeah.

00:22:23 Thomas

She did leave a barrel out with stuff in it, which is against VCC rules.

00:22:27 Thomas

It's exactly littering.

00:22:30 Jamie

I do believe it is.

00:22:37 Thomas

Right.

00:22:38 Jamie

Katie, you're awake.

00:22:39 Jamie

You can drink your tea now.

00:22:41 Jamie

That house have made you.

00:22:42 Jamie

Yeah, he's got tea.

00:22:43 Jamie

Katie, Katie, Harrison made you 2 teas.

00:22:46 Jamie

You've not drunk any.

00:22:46 Jamie

They're still warm.

00:22:47 Jamie

You could drink them now.

00:22:49 Harrison

Katie, tea.

00:22:50 Harrison

Katie, you could drink your teas.

00:22:53 Thomas

You didn't drink it last time.

00:22:55 Harrison

Katie, you guys at the time before?

00:22:56 Jamie

You could drink your teas.

00:23:00 Jamie

Harrison made you 2 teas.

00:23:01 Jamie

Katie, I can see your eyes rolling back.

00:23:03 Jamie

Katie, 2 teas.

00:23:04 Jamie

You've got 2 teas.

00:23:05 Jamie

You can drink them both.

00:23:06 Jamie

Look at your teas.

00:23:07 Jamie

Katie, drink tea.

00:23:08 Jamie

Katie, go on.

00:23:09 Jamie

drinks and teas.

00:23:11 Jamie

Tax.

00:23:11 Jamie

Taxes.

00:23:12 Jamie

Teas and taxes.

00:23:14 Jamie

Teas and taxes.

00:23:15 Thomas

Death and taxes.

00:23:16 Thomas

Death and taxes.

00:23:17 Thomas

Death and taxes.

00:23:18 Thomas

Death and taxes.

00:23:18 Thomas

Death and taxes.

00:23:19 Thomas

Teas and teas.

00:23:21 Thomas

Tea, death and taxes.

00:23:22 Jamie

Tea, death and taxes.

00:23:25 Thomas

And a little bit of cheese.

00:23:28 Thomas

Jews.

00:23:29 Thomas

Big cheese Jews.

00:23:31 Thomas

Big cheese Jews.

00:23:34 Thomas

12.5% income tax.

00:23:38 Jamie

Income tax.

00:23:40 Thomas

It's crazy that a lot of people before us, in charge of actual countries, have probably gone through this before.

00:23:47 Thomas

I wonder what they thought.

00:23:49 Thomas

I wonder what they'd come up with.

00:23:51 Thomas

If only I actually knew how to research properly.

00:23:56 Thomas

It's not like my job is postgraduate researcher.

00:24:00 Jamie

Yeah, that's for physics.

00:24:02 Thomas

Right, my final.

00:24:04 Jamie

How did Howton get a **********?

00:24:06 Thomas

No, not really.

00:24:07 Thomas

I mean, I said it wasn't really a **********.

00:24:10 Jamie

******* build it.

00:24:10 Thomas

You're going to build it, mate.

00:24:13 Thomas

I'm going to.

00:24:14 Thomas

You're ******* building it.

00:24:15 Harrison

Are you going to build anything?

00:24:16 Harrison

I shall have progress before I before over the weekend.

00:24:19 Harrison

I hope to finish it before I enter Portugal.

00:24:21 Thomas

Excellent.

00:24:24 Thomas

He said he's given a date now.

00:24:27 Thomas

Can we send parcels and multiple?

00:24:30 Thomas

Because we can send small letters via bundles.

00:24:33 Thomas

Can we send shulker boxes?

00:24:37 Jamie

Does that cost more?

00:24:39 Jamie

I like this a lot.

00:24:43 Thomas

I've got a stack and a half of shulker shells if you want to get started.

00:24:45 Thomas

I mean, you'll have to buy it through me, through the public, through the government.

00:24:49 Thomas

I mean.

00:24:50 Jamie

I'm willing to go harvest some shulker shells.

00:24:52 Thomas

Well, but I've got it immediately.

00:24:54 Thomas

I don't have anything need for them.

00:24:58 Thomas

I'll give a good price.

00:25:00 Jamie

I'll give you 1 shulker box.

00:25:01 Thomas

How much do you think you'll need for funding then?

00:25:05 Thomas

Do you have any idea?

00:25:07 Harrison

I guess at any minute I don't know, because I don't.

00:25:10 Jamie

Because Tom's shulker boxes are going to cost 5 stacks.

00:25:13 Thomas

Oh yeah.

00:25:13 Thomas

Not sure I'm going to give that as public funding.

00:25:16 Thomas

That would be half of the...

00:25:20 Jamie

Can you rewrite that in terms of stacks?

00:25:21 Jamie

Because I actually can't picture that.

00:25:28 Harrison

This is the problem with having like a base 10 numbering system for a base 2 design game.

00:25:34 Harrison

It's 64.

00:25:36 Harrison

Gosh, I tried to teach my year nines about base counting systems.

00:25:39 Harrison

Base 64.

00:25:40 Jamie

Right.

00:25:40 Harrison

Yeah, I should teach them base, but try to teach them base 6.

00:25:44 Thomas

This is 63 stacks.

00:25:49 Thomas

We're going to do ST.

00:25:52 Jamie

And there's 27 in a chess.

00:25:55 Thomas

And there is, yes, that in the bank.

00:25:59 Jamie

Bank.

00:26:01 Thomas

Is that rounded up?

00:26:02 Thomas

Let's see if that rounds correctly.

00:26:04 Jamie

Hello, Katie.

00:26:05 Jamie

Wait, what about for waking up?

00:26:06 Jamie

Have your tea.

00:26:08 Jamie

I also make you 2 teas, but I'll have at least one.

00:26:12 Thomas

That was a round.

00:26:14 Thomas

Right, **** it, we're doing that.

00:26:16 Thomas

46 stacks out of bank.

00:26:22 Jamie

Oh, Canada.

00:26:26 Harrison

Maracas.

00:26:30 Thomas

Does it cost extra to send the parcels, or is this something you'll come up with?

00:26:34 Jamie

I feel like...

00:26:35 Jamie

wait, you go.

00:26:36 Harrison

I mean, there's no for the reason that should cost more, but I also think it should cost more.

00:26:39 Jamie

Well, I feel like it costs to buy the package from you, the shulker box package.

00:26:44 Thomas

Can you only sell?

00:26:45 Thomas

Yeah, you have to render.

00:26:47 Harrison

Yeah, we've got to work out this shulker box system.

00:26:49 Jamie

Yeah, so it would be a it would be a Harrison branded shulker box.

00:26:52 Harrison

Oh, you don't, I see, I see, you don't keep shulker box like.

00:26:55 Harrison

No, you, but you purchase.

00:26:58 Harrison

One shulker box worth, and I would label that contest, and then get the shulker back at the end.

00:27:02 Harrison

Yeah.

00:27:02 Harrison

That makes sense.

00:27:03 Jamie

I like that idea, yeah.

00:27:05 Jamie

Maybe you could have a colour of shulker boxes that Harrison's were all well.

00:27:08 Jamie

Shulker.

00:27:08 Jamie

Why is it all well?

00:27:09 Jamie

You've got to think of the name.

00:27:10 Harrison

It will be green.

00:27:11 Jamie

No, But she found.

00:27:14 Harrison

It was like with me.

00:27:16 Harrison

This is me, therefore the colour of the shulker boxes will be dark green.

00:27:19 Jamie

That's fine.

00:27:22 Thomas

Or the environment of this post office.

00:27:24 Jamie

I think yellow is my colour that I use for other shulker boxes.

00:27:28 Thomas

My favourite colour is purple.

00:27:32 Thomas

Just adding on the debate of what people's colours are.

00:27:35 Harrison

Casey, what's your favourite colour of shulker blocks?

00:27:41 Thomas

Shulker blocks.

00:27:42 Thomas

Cyan.

00:27:45 Jamie

Blue, that's mine.

00:27:47 Thomas

You said yellow.

00:27:48 Thomas

I did.

00:27:49 Harrison

Yellow's a different colour to cyan.

00:27:54 Harrison

Clumsy.

00:27:55 Jamie

It was either it was either yellow or light blue on my head beforehand.

00:27:58 Thomas

As he said yellow, I'm going to need a quick difference.

00:28:00 Thomas

It is yellow.

00:28:02 Thomas

We've got that **** we've got that **** we've got that ****.

00:28:06 Thomas

******* big ***** here in here.

00:28:09 Jamie

Oh no, look at the poo.

00:28:10 Thomas

Right, this is not the scale.

00:28:12 Thomas

This is zoomed in.

00:28:14 Jamie

That industrial district is massive.

00:28:18 Jamie

I got my villager breeder on that right now.

00:28:20 Thomas

Yeah, there's one.

00:28:21 Thomas

Well, come on to that.

00:28:23 Jamie

It's very well lit.

00:28:24 Thomas

V2.

00:28:27 Thomas

This is V3.

00:28:29 Jamie

That was V4.

00:28:31 Thomas

V4 was over here.

00:28:36 Thomas

That bridge may happen at some point.

00:28:39 Thomas

Right.

00:28:40 Thomas

So the industrial district I was going to say would come down here.

00:28:45 Thomas

It's not actually a diamond, it's more round, but it looks a bit like that.

00:28:49 Thomas

My original plan

00:28:52 Thomas

was because Jamie was concerned of villages being too cheap and it being cheaty, was to separate the village in, like we do some villager stuff here, some here, some here, so you have to travel around.

00:29:03 Thomas

Because you proposed putting that rework in, where you have to use different.

00:29:07 Thomas

Villages of different biomes to get into trades.

00:29:10 Thomas

I thought this would be a compromise.

00:29:13 Thomas

I mean, we did agree with this originally, but I assume you forgot and then did villager stuff up here.

00:29:16 Jamie

I don't think I've traded with any villagers that aren't.

00:29:22 Jamie

Enchantment ones or wants to sell pumpkins too?

00:29:26 Thomas

Anyway, but these were the villages.

00:29:27 Thomas

That's why I've built the railway connecting them.

00:29:29 Thomas

So we can put things here.

00:29:32 Thomas

We can separate villager affairs.

00:29:34 Jamie

Are villages publicly owned or are they each other's?

00:29:38 Jamie

That's the same meaning.

00:29:40 Thomas

I don't know.

00:29:41 Thomas

I'd say public.

00:29:45 Thomas

We can say public.

00:29:50 Thomas

Everyone in V1, V2, V3, the one that's going to get destroyed in V4 is no public.

00:29:55 Thomas

Everyone else is fair game.

00:29:57 Thomas

You are allowed to temporarily kidnap them to get your own though.

00:30:01 Thomas

If you breed too public and you get your, that can be private.

00:30:04 Thomas

That's your slave.

00:30:05 Thomas

Whereas these are government slaves.

00:30:06 Jamie

What was he saying about something being destroyed?

00:30:10 Thomas

The village here.

00:30:12 Jamie

Okay.

00:30:13 Thomas

This is my plan for the industrial district.

00:30:15 Thomas

What I wanted to do is what I planned on the last server, but we never did anything with it.

00:30:20 Thomas

was to build like an industrial, Victorian age industrial city kind of thing with railways through it because railways are called canals.

00:30:31 Thomas

Essentially, I didn't put it in this words in my head, but I wanted to build Manchester essentially.

00:30:35 Thomas

Now I'm thinking of it, that's kind of what I want to build because this is what I planned for the industrial area.

00:30:41 Thomas

This area is a sea and this is the ocean.

00:30:45 Thomas

Now you never put ports on an ocean because the sea's too rough, you can't unload properly.

00:30:49 Thomas

So you have a channel going through and then you put a port in like an inland sea.

00:30:54 Thomas

That's why the Thames is so good, because you have to go up the Thames Estuary or Rotterdam, the biggest port in Europe, you have to go down that big, straight from Flanders.

00:31:02 Thomas

So this could be the port here.

00:31:07 Thomas

And then this is like the industrial stuff.

00:31:12 Thomas

But I kind of thought this could be where we could put like big government buildings and things, because this is a few 100 blocks across.

00:31:20 Thomas

My idea was to build this and then have a train station here because the railway will come in.

00:31:25 Thomas

B3 will be like a farming on the outsides supporting it.

00:31:29 Thomas

And then a promenade and then a big central bank building.

00:31:35 Thomas

And then other government buildings across it.

00:31:37 Thomas

And then industrial stuff up here and then others government buildings down there.

00:31:43 Jamie

Do you think eventually our island's going to be the market island?

00:31:50 Thomas

I mean, it could be.

00:31:51 Thomas

I mean, we could have multiple.

00:31:52 Jamie

I mean, there's a potential it will morph into that.

00:31:56 Jamie

Yes, I mean, we could just, or we could move the market off entirely.

00:31:59 Thomas

I mean, I don't mean that this becomes our home base.

00:32:03 Thomas

This could be just, because I want to build this just for fun.

00:32:05 Jamie

Yeah, I mean, different.

00:32:08 Jamie

Travelling to big areas is a lot of fun where it's already been built.

00:32:12 Thomas

I want it with the things here, you know, I wanted to do the *******

00:32:16 Thomas

Burnhamism.

00:32:18 Thomas

Decentralize.

00:32:20 Jamie

Yeah.

00:32:20 Thomas

This is London.

00:32:21 Thomas

We need to get out of London.

00:32:22 Thomas

We have Channel 4 to Leeds.

00:32:24 Thomas

No one's going to Leeds.

00:32:26 Thomas

Anyway.

00:32:26 Jamie

Where's Birmingham?

00:32:29 Thomas

V4.

00:32:30 Thomas

No one's going there.

00:32:31 Jamie

It's not connected.

00:32:32 Jamie

Is the middle island crew.

00:32:34 Thomas

Yeah, crew.

00:32:36 Thomas

It's just you just go through it.

00:32:39 Thomas

The only time anyone ever goes there is to go through it.

00:32:42 Thomas

The train station.

00:32:43 Thomas

I imagine most people who have walked around in Crewe have been, just because they're going through all the train stations.

00:32:48 Thomas

They've got connecting train.

00:32:49 Jamie

Yeah, what do you reckon percentages of people in Crewe total?

00:32:54 Thomas

That are what?

00:32:56 Jamie

That have stepped foot in Crewe compared to people who actually want to be in Crewe.

00:33:00 Harrison

What is it?

00:33:00 Harrison

Zero percent.

00:33:01 Harrison

Crewe was built around the railway station.

00:33:03 Harrison

Like, Crewe wasn't a town before the railway station existed.

00:33:07 Thomas

Well, this is what I claim from industrial district.

00:33:09 Jamie

5% actually wants to be in Crewe.

00:33:10 Jamie

Yeah.

00:33:14 Thomas

So it's kind of industrialized, but it's also made to look good.

00:33:18 Thomas

I imagine you'll get so much land.

00:33:20 Thomas

As in what?

00:33:21 Jamie

Make it look good.

00:33:22 Thomas

As in you build big.

00:33:22 Jamie

Because they're big ugly farms.

00:33:25 Jamie

Sort of the reason they're there.

00:33:26 Thomas

Well, you build a big brick thing around them.

00:33:30 Jamie

Okay.

00:33:31 Thomas

You build a factory around them.

00:33:32 Jamie

That is a big brick thing.

00:33:36 Thomas

This is not every farm.

00:33:37 Thomas

These are for medium farms.

00:33:38 Thomas

Small farms are up here, as we have.

00:33:40 Thomas

This could be for medium farms that are like tall, you can stick them in somewhere.

00:33:44 Thomas

And then big farms like my...

00:33:47 Jamie

What's a medium farm?

00:33:50 Jamie

Would my bamboo thing be a medium farm?

00:33:51 Jamie

Obviously it's not the main island, I'm not really making that.

00:33:54 Jamie

I think it's fairly large.

00:33:56 Jamie

It's not a...

00:33:57 Thomas

In the hanger?

00:33:58 Thomas

Yeah.

00:33:58 Thomas

The hanger is a good size for a factory.

00:34:00 Jamie

Yeah.

00:34:01 Thomas

And then, I mean, you can go down, you can have a factory next to it, which is the same bamboo thing, but just...

00:34:08 Thomas

Or you could build a big farm or whatever.

00:34:12 Thomas

Because it also gives, because I want to build a giant bank building, because obviously I do.

00:34:17 Thomas

And I want it to look, I want it to be in a place where it's like, well, yeah, there's going to be a big building there.

00:34:22 Thomas

Because if you put it out in the middle of nowhere, it's going to be weird.

00:34:26 Jamie

Because it makes sense there's a lot of money there, because there's a lot of industry there.

00:34:29 Thomas

I also get to build a port with more ships.

00:34:32 Jamie

You seem to like ship stuff.

00:34:34 Thomas

I know, it's funny that people have interests.

00:34:38 Jamie

And trains.

00:34:39 Thomas

And trains.

00:34:42 Thomas

The only other person in the CDT doing particle physics also quite likes trains.

00:34:47 Jamie

You are strange, aren't you?

00:34:50 Thomas

Part of our talk about decarbonizing long range travel.

00:34:54 Thomas

Katie, are you going to drink your teas?

00:35:01 Thomas

So my main question with this is how, I mean, should I just put

00:35:07 Thomas

Lots down and allow people to build.

00:35:10 Jamie

Lots actually does make sense.

00:35:12 Jamie

I don't mind lots.

00:35:14 Thomas

We can have, I mean, are we going to try and because I want it to look good.

00:35:19 Jamie

Would the lots potentially be government owned and you have to purchase a lot?

00:35:22 Jamie

Oh, that's interesting.

00:35:24 Thomas

We could do.

00:35:26 Harrison

That would be a good way the government generates an income to be fair.

00:35:28 Jamie

Yeah, because obviously tax sucks.

00:35:30 Harrison

And that would be quite a sense.

00:35:32 Thomas

Why would you buy?

00:35:34 Thomas

What do you mean?

00:35:35 Thomas

Why would you buy to go here and not over here?

00:35:38 Thomas

Because that's where we go.

00:35:40 Thomas

It just is what we do.

00:35:40 Harrison

But you could, you could build it somewhere else, I guess.

00:35:42 Harrison

I guess it's nice.

00:35:44 Harrison

Well, yeah, it's give you, it's give you the farms.

00:35:46 Thomas

Yeah, and the point here is that you're able to feed your output of 1 farm into another, so you can chain them, and you can get more production as well.

00:35:53 Thomas

So, and that's why there's railways between them.

00:35:55 Jamie

Oh, like Cooper and sugarcane farms way up here.

00:35:58 Harrison

But the infrastructure is already there to support like you using that as a farm, I guess.

00:36:02 Harrison

I know we have elitras, but like...

00:36:05 Jamie

I want to use mine last.

00:36:06 Jamie

That's why I want my really ******* fast horse.

00:36:11 Harrison

I'd be up for learning how to breed horses because I think that's, I think I quite enjoy that.

00:36:15 Thomas

Also for the post office it'd be quite a time.

00:36:17 Harrison

Yeah, exactly.

00:36:18 Jamie

Oh, you could use a donkey.

00:36:20 Jamie

You could use a mule.

00:36:21 Harrison

Because eventually I imagine we'll have like people set up

00:36:27 Harrison

Like a lot of people, companies set up on different islands, for example.

00:36:30 Thomas

Yeah.

00:36:31 Harrison

So, in which case, if you want to deliver a less there, I'll require better transport.

00:36:37 Harrison

No, sorry, I'll require a horse.

00:36:40 Thomas

Yeah, a horse.

00:36:42 Thomas

Well, you can put the horse on the train if you need to move around.

00:36:44 Jamie

That's true.

00:36:45 Jamie

How do items work with loading chunks?

00:36:49 Jamie

Do they load chunks if they flow into another chunk?

00:36:51 Harrison

No, I do need to point out.

00:36:54 Jamie

Will there be any way of transporting stuff from the industrial other than rail?

00:36:58 Jamie

I mean, rail.

00:37:00 Thomas

Rail, chunk loaders.

00:37:04 Thomas

That's why people normally do it in the nether, but I don't like doing that because that's less cool.

00:37:08 Jamie

That is less cool.

00:37:09 Thomas

But that's how you would do it and how we have done it in the past.

00:37:12 Thomas

Chunk loaders for an instant hopper line, instant proper line.

00:37:15 Harrison

I would like to point out that.

00:37:17 Jamie

Hopper hoppers should load chunks.

00:37:20 Harrison

That's true.

00:37:21 Thomas

I mean, I think there's mods for that, but that's a bit cheap.

00:37:25 Harrison

If I can reassure you all, there is no way in hell my current Mr.

00:37:28 Harrison

Hagenhorse will be anywhere close to a post office position.

00:37:35 Thomas

Give me the permanent intern.

00:37:37 Harrison

He may be sent to the Blue Factory soon.

00:37:43 Jamie

How do data packs work?

00:37:44 Jamie

Can you make a uniform?

00:37:47 Jamie

For the horse and make it like leather armor that's renamed or something.

00:37:50 Thomas

Yeah, that would work if you rename leather armor.

00:37:55 Jamie

It could be quite fun.

00:37:55 Thomas

Yeah.

00:37:57 Thomas

I could say, well, that would be a resource pack, wouldn't it?

00:38:00 Thomas

I can set a server resource pack that automatically downloads when you join it.

00:38:07 Thomas

I mean, you have to hit yes, but it will then just download.

00:38:09 Thomas

And then when you leave it.

00:38:11 Jamie

Are you the only one that's able to add to the server resource pack?

00:38:16 Thomas

As in, say it on the server, yes, but if you send me stuff, I can merge it.

00:38:19 Jamie

Yeah, OK.

00:38:19 Jamie

How do you feel about...

00:38:23 Thomas

If you wanted to, like, add stamps, that's just when you rename a piece of paper or whatever.

00:38:30 Thomas

You can change the texture of that to someone's face, if that's at all.

00:38:34 Jamie

That would be fun.

00:38:34 Thomas

Because I think that's what Helen Croft did.

00:38:36 Jamie

How do you feel about...

00:38:38 Jamie

Yeah, I think so.

00:38:38 Jamie

How do you feel about pictures?

00:38:41 Thomas

Is there a custom paint's datapag?

00:38:44 Jamie

Obviously, they use one on Hermitcraft, but they make their own stuff.

00:38:47 Thomas

Yeah.

00:38:49 Jamie

They might be.

00:38:51 Thomas

It could do.

00:38:52 Thomas

I'm fine with some level of cosmetic tweaking.

00:38:56 Jamie

I feel like, yeah.

00:38:58 Jamie

I mean, I've wanted paintings for a while.

00:39:00 Jamie

I think it's very fun.

00:39:02 Jamie

Especially if you make it yourself.

00:39:04 Jamie

It's still got your creative element of it.

00:39:07 Thomas

I imagine, yeah.

00:39:08 Jamie

Maybe you could even do it in the right...

00:39:11 Thomas

It'll be good because then we can have logos for our different things.

00:39:14 Jamie

And come into life.

00:39:17 Thomas

As long as they're not, I guess it needs to be in the style of the game, so fairly low res.

00:39:21 Jamie

Yeah, that's what I was trying to think of.

00:39:22 Jamie

What would you, what do you call that?

00:39:24 Jamie

As in like the number of bits used.

00:39:27 Thomas

Pixel art.

00:39:28 Jamie

No, I mean.

00:39:29 Thomas

As in 32 by 32.

00:39:30 Jamie

Yeah, but what's the nice name for saying 32 by 32 as a category?

00:39:34 Harrison

Two to the five by two to the five.

00:39:36 Thomas

Yeah, I don't know, low res.

00:39:40 Thomas

I think if you have someone saying 8 bit.

00:39:42 Jamie

Yeah.

00:39:43 Thomas

And that refers to the amount of colours available.

00:39:47 Thomas

A4 bit palette would have 16 colours.

00:39:50 Thomas

No, it would just be low res pixel art.

00:39:53 Harrison

Was the Game Boy 4 bit or 8?

00:39:55 Harrison

Game Boy is 8 bit, wouldn't it?

00:39:58 Harrison

Game Boy Cuddle.

00:39:58 Harrison

No.

00:39:59 Thomas

Well, which one?

00:40:00 Harrison

Game Boy.

00:40:01 Thomas

The original Game Boy was 2 bit.

00:40:03 Harrison

Yeah, that's true.

00:40:03 Thomas

So it was 4 colours.

00:40:04 Harrison

Game Boy Cuddle was that?

00:40:06 Jamie

What were the four colours?

00:40:08 Thomas

Black, slightly less black, but slightly green.

00:40:10 Thomas

It was just shades of grey, yeah.

00:40:12 Harrison

It was slightly green.

00:40:14 Thomas

The background was, wasn't it?

00:40:16 Jamie

I have no idea.

00:40:17 Thomas

I don't.

00:40:18 Harrison

I'm just picking a pokémon.

00:40:20 Harrison

I don't.

00:40:21 Harrison

Well, it was slightly of it.

00:40:22 Harrison

Was it slightly coloured?

00:40:23 Harrison

No, it was crystal I'm thinking of.

00:40:25 Thomas

The original Game Boy, well, yeah, it was 4 colours.

00:40:28 Thomas

I mean, it was monotone, but whatever colour you have on the back.

00:40:30 Harrison

Right, of course, yeah, that's what I mean.

00:40:35 Thomas

Yeah.

00:40:37 Thomas

There was 4 colours available.

00:40:38 Harrison

I need to get an NBA for the GBA.

00:40:40 Jamie

Or you can get one.

00:40:45 Harrison

I want to play like wrong hacks of pokémon games because they're fun.

00:40:48 Thomas

I mean, yeah, I've got mine.

00:40:49 Jamie

I've got a, I think it's just another thing.

00:40:51 Jamie

I've got a thing that you can put on with an SD card, but you can put in a game.

00:40:57 Harrison

I'm always scared I'm download viruses.

00:41:01 Jamie

It's the modern day.

00:41:02 Jamie

You won't do that anymore.

00:41:03 Harrison

Is that a genuine as a computer science student you can.

00:41:06 Harrison

Mistakes out of confidence.

00:41:07 Jamie

We'll just get it from places with lots of reviews.

00:41:11 Harrison

But what if it's boxed reviews?

00:41:12 Harrison

I panic about this ****.

00:41:14 Thomas

Well, if you're putting it into a...

00:41:15 Jamie

I've got places where I've used that I get my 2 ROMs from.

00:41:20 Harrison

That's a good point, yeah.

00:41:21 Harrison

What, so you can play like the wrong hacks of like video games and stuff on the actual hardware if you buy?

00:41:26 Jamie

Yeah, I've got a Game Boy Advance and there's another thing that you have to buy for it.

00:41:31 Thomas

That sounds sick.

00:41:32 Jamie

I also thought Tetris is the actual game because it's ******* Tetris.

00:41:38 Harrison

I'm tempted to pay someone to mod my 3DS.

00:41:43 Thomas

Learn how to do it yourself.

00:41:45 Jamie

I was planning on difficult hardware modding my Game Boy.

00:41:49 Thomas

No, time.

00:41:49 Thomas

I have to focus on Minecraft.

00:41:50 Thomas

Important server.

00:41:52 Jamie

Instead, I just bought the better Game Boy.

00:41:56 Jamie

The Game Boy Advance says that there's one that has a light, like a

00:42:01 Jamie

Yeah, back line.

00:42:02 Jamie

That's way that.

00:42:03 Harrison

Yeah.

00:42:04 Jamie

That one's my one.

00:42:05 Harrison

How much is that?

00:42:07 Jamie

I think I paid like 150.

00:42:11 Thomas

Yeah, I wonder why this goes poor.

00:42:14 Jamie

I'm not that poor.

00:42:14 Jamie

I just don't want to spend money on things.

00:42:17 Jamie

So you say you're poor.

00:42:18 Thomas

Yes.

00:42:22 Thomas

Should I establish a building code?

00:42:23 Thomas

As in like...

00:42:25 Thomas

style, because I want it to look good and be roughly, and I mean, it doesn't have to be all buildings look the same, but it has to be within the rough palette of like...

00:42:35 Jamie

Are you, yeah, is it brick?

00:42:37 Thomas

Like, well not brick, it could be like stone.

00:42:40 Jamie

Yeah, that's what I mean, but brick of things.

00:42:41 Thomas

I can set up like a Pinterest board.

00:42:43 Thomas

I can find like 100 different off like townhouses or history or whatever.

00:42:48 Thomas

It's just the vibes of Manchester in the early 1900s, late 1800s.

00:42:54 Jamie

That's st.

00:42:55 Jamie

Can't name the street.

00:42:56 Jamie

I've mentioned the street.

00:42:57 Thomas

Corporation Street.

00:42:59 Jamie

Might be.

00:43:00 Harrison

Market Streets.

00:43:02 Jamie

Do you know the street that I'm facing?

00:43:03 Thomas

I've got no idea what.

00:43:05 Jamie

Oh, I've pointed out the street that's gorgeous of just the massive buildings.

00:43:10 Harrison

What's the lane?

00:43:11 Harrison

I think it's the one with...

00:43:16 Harrison

China House on China House Lane, China House Street, China House Avenue.

00:43:21 Thomas

Well, if somebody wants to build in V1 and V2, I mean...

00:43:24 Jamie

Princess Street, I believe is the one.

00:43:26 Harrison

Is it Princess Street?

00:43:29 Harrison

Yes.

00:43:31 Harrison

Princess Street.

00:43:33 Thomas

God's just given me.

00:43:36 Harrison

What's God giving you?

00:43:38 Thomas

It's Princess Street.

00:43:44 Thomas

There we go.

00:43:45 Thomas

I think that's all I wanted to say.

00:43:46 Thomas

So I don't know if anyone else only has any...

00:43:51 Jamie

I think we should come up with a few services.

00:43:54 Thomas

We could do.

00:43:54 Harrison

Yeah.

00:43:55 Harrison

Brain swabbing session.

00:43:56 Jamie

Brain swabbing.

00:43:57 Thomas

Mind map.

00:43:58 Harrison

A small mind map.

00:44:02 Jamie

Is this going to be services that we want or services we can provide?

00:44:05 Harrison

I guess horse breeding is more...

00:44:07 Harrison

because I'd be selling the horse, that's not a service.

00:44:10 Thomas

Do you breed for anything other than...

00:44:13 Jamie

Speed, jump, health.

00:44:16 Thomas

Yeah, speed.

00:44:18 Thomas

Are you doing it on request or just making them?

00:44:21 Harrison

I guess I do it on request, like if you want a fast horse.

00:44:23 Harrison

Fast horse.

00:44:25 Harrison

I probably have a lot of fast horse.

00:44:26 Thomas

Or we just make the maximum?

00:44:28 Jamie

Yeah, can you please make the maximum horse?

00:44:30 Thomas

So it's more of a good...

00:44:32 Jamie

I mean, I can most fast speed.

00:44:33 Harrison

It's almost like you're commissioning a horse.

00:44:37 Jamie

Can I commission a horse, please?

00:44:38 Harrison

Which is good.

00:44:39 Harrison

Well, I haven't even got my horse yet.

00:44:42 Harrison

I haven't got the postal donkey.

00:44:44 Thomas

He needs to build a very post office first before he gets his horse.

00:44:48 Jamie

I would like the horse first.

00:44:49 Thomas

I would like the post office.

00:44:49 Harrison

Can you make quick donkeys?

00:44:52 Harrison

Yes, you can.

00:44:52 Thomas

I as the governor want the post office.

00:44:54 Thomas

I as Thomas want the slime farm.

00:44:56 Thomas

This guy wants the donkeys.

00:44:57 Jamie

Are you going to look up how to do it?

00:44:59 Jamie

How to do the?

00:45:00 Jamie

I'll figure it out.

00:45:01 Jamie

Yeah, because it very much doesn't seem like a figure it out situation.

00:45:05 Harrison

Trial and error.

00:45:08 Harrison

Is it Ethel with the latest Hermitcraft thing who had like...

00:45:11 Jamie

Really first one.

00:45:12 Harrison

I'm going to read his, I'll watch his videos on that.

00:45:15 Jamie

He did a game.

00:45:17 Harrison

I think he had a speed test, yeah.

00:45:19 Harrison

I think I'd enjoy that because that is like...

00:45:21 Jamie

It looks fun.

00:45:22 Harrison

Yeah.

00:45:24 Thomas

So this is what we do, we find areas of the game we like.

00:45:26 Thomas

I couldn't give a **** about horse breeding, but luckily because he's doing it.

00:45:32 Thomas

If I couldn't care about redstone, I can do his redstone, he can give me horses.

00:45:35 Thomas

That's the point of the economy.

00:45:36 Thomas

It's resource allocation.

00:45:38 Thomas

That's the problem is trying to solve.

00:45:39 Thomas

Reduce, reuse, resource.

00:45:40 Thomas

I don't know how to do excavate.

00:45:42 Thomas

I don't know if anyone's going to buy it.

00:45:43 Thomas

If you want me to dig a hole, I will.

00:45:45 Jamie

Likely won't.

00:45:45 Jamie

I quite enjoy that as well.

00:45:48 Thomas

But what about a big perimeter?

00:45:51 Jamie

As in dig a big perimeter.

00:45:52 Thomas

As in like 21 trunks by 21 trunks.

00:45:55 Thomas

Like a perimeter.

00:45:56 Jamie

As in you're digging the entire thing.

00:45:57 Thomas

Yeah, it's bedrock.

00:45:59 Jamie

For 21 chunks.

00:46:01 Thomas

With machines.

00:46:03 Jamie

Why on earth would I need that?

00:46:05 Thomas

Put a big farm in it.

00:46:06 Harrison

What farm?

00:46:07 Harrison

He's 21 chunks big.

00:46:08 Jamie

I think that I could just pave over the slot.

00:46:09 Jamie

Don't have to build the nice looking thing.

00:46:14 Thomas

We had like 10 on our server at one point.

00:46:16 Thomas

I mean, my dad made almost all of them because he's ******* I don't know what he did.

00:46:20 Jamie

He got a job.

00:46:21 Thomas

He did at the time.

00:46:22 Jamie

That wasn't meant to sound insulting.

00:46:24 Jamie

Does he have one now?

00:46:25 Thomas

No, he was kind of, he was half kind of fired.

00:46:27 Thomas

I mean, he's on the commune now.

00:46:30 Harrison

Has he moved now?

00:46:31 Thomas

Yeah, he's on the...

00:46:33 Harrison

What kind of commune is it?

00:46:34 Thomas

I don't know, they're Christian.

00:46:39 Thomas

Don't know.

00:46:40 Jamie

Come and join the commune.

00:46:41 Thomas

He has to, he, I'd say has to.

00:46:43 Thomas

They work, they have some like business or some **** they do.

00:46:46 Thomas

They get money.

00:46:47 Harrison

A lot, a lot, a lot, yeah.

00:46:48 Harrison

My dad works for a lot of, well, his company is owned by like this like Christian sect or whatever, so.

00:46:56 Thomas

Yeah.

00:46:57 Harrison

What's the?

00:46:58 Harrison

On the scale of dodgy to not dodgy, where is it like?

00:47:00 Thomas

I've never been there.

00:47:02 Thomas

It seems all right.

00:47:05 Thomas

He went there many times before moving there permanently.

00:47:08 Harrison

Okay, that's good.

00:47:08 Harrison

He's done any research.

00:47:09 Thomas

He's not blindly walking into a dodgy thing.

00:47:17 Thomas

Although he's not allowed to own anything anymore.

00:47:20 Thomas

Anything he owns goes to the commune.

00:47:21 Thomas

He's allowed to keep the stuff you already had.

00:47:23 Thomas

But he's not allowed anything new.

00:47:26 Harrison

I'm going to have the old stuff.

00:47:29 Thomas

So his stocks are there.

00:47:31 Thomas

They'll do what they do.

00:47:33 Jamie

That's insane.

00:47:35 Thomas

Well, it's the commune.

00:47:35 Thomas

It's communally owned.

00:47:36 Jamie

Insane.

00:47:37 Thomas

Yeah.

00:47:37 Thomas

Well, this is what you ******* Polowski's going for.

00:47:39 Harrison

That's why it's called a commune.

00:47:41 Jamie

He personally mispronouncing his name.

00:47:43 Thomas

******* Zachary or whatever it was.

00:47:44 Harrison

Zachary Polowski.

00:47:46 Thomas

Zachary Polowski.

00:47:48 Jamie

We touch toes.

00:47:49 Harrison

We did.

00:47:49 Jamie

We must now kiss.

00:47:50 Thomas

Yes.

00:47:50 Harrison

I think we've had sex illegally.

00:47:53 Thomas

Is this the sex?

00:47:55 Thomas

Right, what services do we want then?

00:47:58 Jamie

I would like a horse.

00:48:00 Harrison

That's not a service, that's good.

00:48:01 Thomas

As we've established, that's more of a good.

00:48:03 Jamie

I would really like a horse.

00:48:05 Harrison

I'll get to it.

00:48:09 Harrison

I mean, the post office is a service, but that's been established.

00:48:11 Harrison

Yeah.

00:48:13 Thomas

Katie wanted terraforming or landscaping, she said.

00:48:15 Thomas

Don't know what that meant.

00:48:17 Thomas

Can't ask her.

00:48:18 Harrison

Escaping the land.

00:48:19 Jamie

I enjoy terraforming.

00:48:22 Thomas

I mean, we all enjoy all the game at some point.

00:48:24 Harrison

Where does excavation end and terrifying begin?

00:48:27 Jamie

What does that mean?

00:48:29 Thomas

Well, as in...

00:48:30 Harrison

If we hated a part of the game, what?

00:48:32 Thomas

Parts of the game do we hate?

00:48:36 Harrison

I find mining quite annoying.

00:48:38 Jamie

I like mining.

00:48:39 Harrison

But like resource gathering as a service.

00:48:42 Jamie

Oh, I'll happily do that.

00:48:43 Thomas

We could do some sort of resource.

00:48:45 Thomas

I mean, that could be.

00:48:45 Jamie

Are you willing to go into the mines for you for an hour?

00:48:49 Harrison

If someone got me like 20 diamonds, I'd be pleased.

00:48:51 Jamie

Yeah, but I feel like you'd be paying for time rather than goods or else I'd just give you my stuff.

00:48:57 Harrison

Let's say, yeah.

00:48:58 Thomas

Well, you could just sell that anyway.

00:49:00 Jamie

Can I not put that, but I'll mine for you.

00:49:03 Thomas

There we go.

00:49:03 Thomas

My mining.

00:49:04 Jamie

I'd happily do that.

00:49:06 Jamie

sounds really fun.

00:49:09 Thomas

Mining.

00:49:09 Jamie

Oh, this is a great idea.

00:49:10 Jamie

I'm looking forward to doing that.

00:49:12 Thomas

There we go.

00:49:13 Harrison

Redstone Consultancy.

00:49:14 Thomas

Redstone.

00:49:15 Thomas

I'm going to set Redstone.

00:49:17 Harrison

Yeah.

00:49:18 Harrison

I mean, I'll have the architectural consultancy idea.

00:49:20 Harrison

I mean, I also like the What does that mean?

00:49:22 Harrison

It says that you could do this by this way, that consultant.

00:49:25 Harrison

As in what?

00:49:26 Harrison

But you could, so you could help this other person, but if you, like, if I had an idea of what I wanted to build, I didn't know how to do it, I could speak to someone and they could say, This is how you should do this.

00:49:35 Harrison

Here are eyes of ideas.

00:49:39 Thomas

Also, this is both what we want and also something that I can, as the state, use to build

00:49:46 Thomas

things.

00:49:47 Thomas

So even if no one themselves is going to, like if I want to build a public farm, I say aye, we want to build a public farm and I'm in charge of spending the money.

00:49:56 Thomas

I hire myself for excavation, I hire you for mining some resources, I can hire Katie for making the landscape and like that.

00:50:04 Thomas

So even if we already enjoy that part of the game, when we build a public thing...

00:50:12 Jamie

I reckon that will be our first public build.

00:50:15 Jamie

No, that's the wrong word.

00:50:16 Jamie

What do you reckon would be our first build that we will work on?

00:50:18 Thomas

All work on.

00:50:19 Jamie

Yeah, it'd be fun.

00:50:21 Jamie

I don't know what it would be like.

00:50:23 Thomas

Don't know.

00:50:24 Harrison

By what do you mean I'd deliver some things to it.

00:50:27 Jamie

Yeah, we all place down blocks.

00:50:29 Thomas

We all place down blocks.

00:50:30 Jamie

Yeah.

00:50:31 Thomas

Or that, I don't know.

00:50:32 Harrison

I think I'll become a lot better if I get like a proper, like if I get my proper set up set up, you know what I mean?

00:50:37 Harrison

Like, I get my desk, I get my I get like proper monitors, I get like a keyboard.

00:50:42 Jamie

Monitors aren't expensive.

00:50:45 Jamie

It just smells of smoke.

00:50:51 Harrison

I think I would find that quite a big issue.

00:50:54 Jamie

It's the smoke has gone by like 50% within the 1st 10 minutes.

00:50:59 Jamie

I can't really imagine it's all right.

00:51:01 Harrison

Was it like so he smoking as he bought it then?

00:51:03 Jamie

Yes, he was on his porch smoking with his mum.

00:51:08 Thomas

Family service.

00:51:11 Harrison

The only one got on an Uber and he said, do you vote?

00:51:15 Thomas

Finance, financial services.

00:51:17 Thomas

Excellent.

00:51:18 Harrison

Yes.

00:51:20 Thomas

Corrupt governor.

00:51:22 Thomas

What do you mean?

00:51:25 Thomas

Finance.

00:51:26 Thomas

Right, what other parts of the game are there?

00:51:27 Thomas

Right.

00:51:28 Jamie

I've done one.

00:51:29 Thomas

I've done one.

00:51:30 Thomas

I've got three now.

00:51:33 Jamie

What are you going to do for financial?

00:51:34 Harrison

Organising.

00:51:35 Thomas

Probably not, but I want to build it.

00:51:38 Harrison

I would actually pay someone to organise my chest.

00:51:40 Thomas

I'm an accountant.

00:51:41 Thomas

There you go.

00:51:44 Harrison

Exorting.

00:51:45 Thomas

Redstone.

00:51:46 Thomas

I mean, I could be redstone.

00:51:47 Harrison

I guess, yeah.

00:51:48 Thomas

If you want to build a redstone, I mean, copper golem, I think.

00:51:50 Thomas

Yeah.

00:51:51 Thomas

Or you already have it.

00:51:52 Harrison

That's sort of the basis for the mob, isn't it?

00:51:53 Harrison

I think that's the.

00:51:54 Jamie

I feel like redstone would cost A lot.

00:51:56 Thomas

It depends on the build.

00:51:58 Thomas

It all this is.

00:51:59 Jamie

Ethos and a chest thing.

00:52:01 Thomas

What's that?

00:52:02 Thomas

What's that?

00:52:05 Jamie

How do I describe it?

00:52:08 Jamie

You put in the under chest and it fully repopulates with all of the items to a stack.

00:52:12 Jamie

In the under chest?

00:52:14 Jamie

And there's like, there's like, no, sorry, shulker box.

00:52:17 Jamie

Oh, okay.

00:52:19 Jamie

Have you seen it?

00:52:19 Jamie

No, I didn't know it.

00:52:21 Jamie

I still like 5 episodes on it.

00:52:23 Thomas

Great.

00:52:23 Jamie

It's like a year apart.

00:52:24 Harrison

He's got poisoned out frogs on it.

00:52:27 Harrison

Socks.

00:52:29 Jamie

Poison what?

00:52:29 Jamie

Sorry.

00:52:29 Harrison

Poison dart frogs.

00:52:30 Jamie

Are they toes?

00:52:31 Jamie

They're toes.

00:52:31 Harrison

Oh, OK.

00:52:32 Harrison

I own very similar socks.

00:52:34 Harrison

I own the same socks.

00:52:35 Thomas

Oh, there we go.

00:52:35 Thomas

Mob acquisition service.

00:52:37 Thomas

If you need a specific mob.

00:52:39 Jamie

Acquisition.

00:52:40 Thomas

Acquisition.

00:52:41 Thomas

Mob acquisition.

00:52:43 Harrison

It's not kidnapping.

00:52:44 Harrison

It's acquisition.

00:52:45 Thomas

It's acquisition.

00:52:48 Jamie

I have acquired.

00:52:49 Thomas

I have acquired this child.

00:52:52 Thomas

Survive is.

00:52:55 Jamie

Bandit.

00:52:56 Thomas

Bandit.

00:52:56 Thomas

What's that?

00:52:58 Jamie

I can steal.

00:53:01 Jamie

That's what a pirate is.

00:53:02 Harrison

Criminal for hire?

00:53:06 Thomas

That is an option.

00:53:10 Harrison

Extrajudicial assassin.

00:53:13 Thomas

Yeah, assassin.

00:53:13 Thomas

I mean, we can put that in the criminal.

00:53:15 Thomas

It's a mind map, so we can do assassin.

00:53:20 Thomas

Assassin goes into the wealth tax.

00:53:21 Harrison

Put hiss out on.

00:53:24 Thomas

The VCC is really ******* me off.

00:53:26 Harrison

Private detective.

00:53:27 Thomas

Detective.

00:53:28 Thomas

Yeah, detective.

00:53:31 Thomas

Who would be making that?

00:53:32 Harrison

I'd love to be a detective.

00:53:33 Thomas

You can be the detective.

00:53:34 Thomas

Well, the post office, the post office in the city.

00:53:36 Harrison

Mine, I think it is.

00:53:37 Thomas

Yeah, the post office have their, like in America, they have their branch of law enforcement.

00:53:42 Jamie

Legal advice.

00:53:44 Harrison

Lawyer.

00:53:45 Harrison

Lawyer.

00:53:48 Harrison

We can separate into conveyancers as well.

00:53:50 Harrison

I got my mum to join the server.

00:53:54 Thomas

Spell it right, actually.

00:53:56 Thomas

There we go.

00:53:56 Jamie

There's a W in there somewhere.

00:53:57 Thomas

Yeah, **** it.

00:53:58 Thomas

There we go.

00:53:59 Thomas

So go lawyer.

00:54:00 Thomas

So I versus Jamie.

00:54:01 Thomas

You can be the lawyer.

00:54:03 Thomas

I can be the financial lawyer.

00:54:04 Jamie

No, but I wanted a lawyer.

00:54:06 Thomas

Okay, well Harrison's the lawyer then.

00:54:09 Thomas

Katie's the lawyer.

00:54:11 Thomas

I'm not defending you.

00:54:12 Jamie

I'm trying to be my own lawyer.

00:54:14 Harrison

That always works out well, isn't it?

00:54:17 Thomas

There we go.

00:54:17 Thomas

Excellent.

00:54:18 Thomas

Well, we'll figure out more things.

00:54:21 Thomas

General get the **** things.

00:54:25 Jamie

Yeah, just resource gathering.

00:54:26 Thomas

Resource, just general.

00:54:28 Thomas

I mean, yeah.

00:54:28 Thomas

I mean, mining.

00:54:30 Thomas

I mean, we could do resource gathering, mining coming off it.

00:54:33 Thomas

I don't know.

00:54:34 Jamie

Yeah, I'm referring to like if they wanted a shulker worth of sand or something.

00:54:38 Thomas

Yeah, the grindy stuff.

00:54:42 Jamie

Yeah.

00:54:42 Thomas

I mean, it depends if people enjoy that, because that's kind of excavation.

00:54:46 Jamie

Yeah.

00:54:50 Jamie

Tom, I think we both enjoy destroying blocks a lot.

00:54:53 Thomas

It's almost like we both like the game for a reason.

00:54:56 Jamie

It's almost like the mind.

00:54:57 Thomas

It's all mine.

00:55:01 Thomas

Bank of Mits.com.

00:55:02 Jamie

I wish I was better at building.

00:55:05 Thomas

Well, when I open up my architecture service, you can hire me to design.

00:55:10 Thomas

Do you like design the bank?

00:55:12 Thomas

You can have something similar.

00:55:13 Thomas

Do you like the pub?

00:55:15 Thomas

You can have something similar.

00:55:17 Jamie

By something similar, you do just mean like the bank flipped.

00:55:22 Thomas

A different colour.

00:55:23 Jamie

Rather than chiseled sandstone, you can just have sandstone.

00:55:33 Thomas

There we go.

00:55:34 Jamie

I'll pay someone for a trident.

00:55:39 Thomas

Weapon smith.

00:55:42 Thomas

Well, they could be like a tall smith.

00:55:43 Jamie

Yeah, I'd be more than happy to do that.

00:55:45 Thomas

A tall smith.

00:55:46 Jamie

I enjoyed that.

00:55:48 Thomas

Tool.

00:55:48 Thomas

So you can request specific enchantments and amounts.

00:55:53 Thomas

That's a good one.

00:55:54 Thomas

I imagine we'll figure out more as we go along.

00:55:58 Jamie

It's nice to have a base.

00:56:00 Thomas

There we go.

00:56:00 Jamie

Are we keeping detective?

00:56:05 Thomas

It's an option.

00:56:07 Thomas

But these are all very, you don't require any startup.

00:56:09 Thomas

That was the point for the services.

00:56:10 Thomas

You can just put a chest down and say, detective.

00:56:12 Jamie

I'm a detective.

00:56:14 Thomas

We can all become detectives.

00:56:16 Thomas

And then we're going to have to prove via our CV.

00:56:20 Thomas

He's the best detective.

00:56:21 Thomas

You have to convince me.

00:56:22 Jamie

Are these, how are we doing these?

00:56:27 Jamie

Would we put these on like an advertising board?

00:56:29 Jamie

Would I say Jamie's mining services?

00:56:33 Thomas

Yeah, you could do that.

00:56:35 Jamie

And then if Harrison wanted mining services and I haven't put up the Jamie's mining services, if Harrison wanted a tool smith and no one said it yet, then he could say Harrison wants a tool smith willing to pay.

00:56:45 Thomas

Well, that's what I was suggesting with the console.

00:56:49 Thomas

We need to figure out some way we can communicate our wants.

00:56:53 Jamie

I've got advertising board.

00:56:55 Thomas

There's one board that you have to pay for.

00:56:57 Jamie

I'd be potentially willing to let it be public.

00:57:01 Harrison

You guys should try and do the post office to deliver like adverts out for requests.

00:57:05 Thomas

Yeah, you can leaflet.

00:57:07 Thomas

You have to design the advertisement to convince people why you should pick yourself.

00:57:12 Jamie

Can you do custom maps?

00:57:14 Jamie

As in with data.

00:57:16 Thomas

With data.

00:57:18 Jamie

I don't know what Minecraft uses.

00:57:21 Thomas

For what?

00:57:22 Jamie

As in I'm putting a picture on a map, but not in the game.

00:57:29 Jamie

As in I can design A poster, like a leaflet, give it to you as a map and it's got the image of the poster on it.

00:57:36 Jamie

Is that a thing in Minecraft?

00:57:39 Thomas

I don't, I mean we could just retexture a plain map.

00:57:43 Thomas

That wouldn't really work actually.

00:57:46 Jamie

I mean, have you seen, have you seen how they do it in Hermitcraft for paintings?

00:57:50 Thomas

I mean, paintings.

00:57:51 Jamie

Where they put it in the...

00:57:54 Thomas

Stone car.

00:57:54 Jamie

Stone car, yeah.

00:57:55 Jamie

That's really cool.

00:57:56 Thomas

I mean, we could do something like that.

00:57:57 Harrison

A bus and train have collided on the Frank Tyler Channel Tunnel.

00:58:02 Harrison

Jeez.

00:58:03 Thomas

Bus and train.

00:58:04 Harrison

Yeah, how did that happen?

00:58:08 Jamie

I imagine the bus hit the train.

00:58:10 Harrison

That's a good.

00:58:14 Thomas

A marketing agency.

00:58:15 Thomas

Yeah.

00:58:15 Harrison

Well, isn't that come stock?

00:58:19 Thomas

Well, not necessarily.

00:58:20 Thomas

That's the government.

00:58:21 Thomas

The government doesn't mark it for you.

00:58:22 Thomas

This is people that go, ah, you should.

00:58:24 Jamie

Yeah, this is my quiz on to Tom's financial advice.

00:58:26 Thomas

Yeah, this is excellent.

00:58:27 Thomas

So I do this to get around my rules.

00:58:31 Thomas

You can hire me.

00:58:31 Thomas

And I'll tell you what I've deliberately left out.

00:58:36 Thomas

And there's the secrets that I've come up with.

00:58:38 Jamie

I've actually misspelled incomes.

00:58:39 Jamie

You don't actually have to pay it.

00:58:41 Jamie

Yeah.

00:58:43 Thomas

And then you can do this to get around Jamie's.

00:58:46 Thomas

You can open that up.

00:58:47 Thomas

And then you can set up with a detective for the postal service.

00:58:52 Thomas

And then Katie just gets ******.

00:58:53 Jamie

Could I hire you to try and find my package?

00:58:58 Harrison

I'm sold to see first.

00:58:59 Thomas

Harrison deliberately makes me go missing.

00:59:01 Harrison

So drive up sales and detect the door.

00:59:03 Harrison

Just put in different hats and I set up to your door.

00:59:08 Jamie

I'm the detective man.

00:59:10 Harrison

I mean can I have

00:59:11 Harrison

A specific division, at least it's back to government or a division or a division or separate church for the Church of the Messiah, 'cause currently, like, wait, what the post?

00:59:21 Thomas

Or in the middle of the...

00:59:21 Harrison

We haven't we haven't built that maybe that's the maybe that's the group project, the first group project, we need to build.

00:59:26 Jamie

A build church, yeah, what's?

00:59:28 Thomas

The building religious building where we put in that.

00:59:30 Jamie

Do we all subscribe to the same?

00:59:32 Harrison

Religion.

00:59:33 Harrison

Or someone could write up a holy book.

00:59:35 Harrison

I think they have different views.

00:59:37 Harrison

I think clearly.

00:59:39 Jamie

I still think most.

00:59:42 Jamie

I still think all black sheep are holy.

00:59:44 Harrison

I don't think all black sheep are holy.

00:59:45 Thomas

I think they could be like the Jews, the chosen people.

00:59:49 Jamie

Well, I think they're...

00:59:51 Thomas

But they're not like better.

00:59:52 Harrison

Are they going to have rival faction?

00:59:53 Harrison

I mean, have we reinvented like Protestantism and Catholicism?

00:59:57 Jamie

Yeah, I don't want to contribute to your unholy church.

01:00:01 Jamie

You're a nonsense church.

01:00:02 Harrison

But is this the Church of the Messiah?

01:00:05 Harrison

I think it's more like, yeah, I think it's more like Seventh-day Adventists and like.

01:00:10 Jamie

Having a church, it would be a temple.

01:00:11 Jamie

The Temple of the Messiah, rather than like, this is directly religion.

01:00:15 Harrison

I don't think we need a more inventive name than the Temple of the Messiah.

01:00:19 Jamie

The Mosque of the Messiah.

01:00:21 Harrison

No, but like, what's the what's our Synagogue.

01:00:24 Harrison

What's the Messiah religion called?

01:00:28 Jamie

Messiah.

01:00:28 Jamie

Messiahism.

01:00:29 Thomas

Messiahism.

01:00:30 Harrison

Messiahism.

01:00:31 Harrison

That's a bad.

01:00:31 Harrison

Godism.

01:00:33 Harrison

Godism.

01:00:33 Harrison

Religionism.

01:00:34 Harrison

It's the religion.

01:00:35 Harrison

It's the religion.

01:00:36 Harrison

It's the true religion.

01:00:37 Harrison

State's haunted religion.

01:00:39 Harrison

Separation of church and state.

01:00:40 Harrison

Never heard of it.

01:00:41 Harrison

No.

01:00:42 Jamie

Complete combination.

01:00:44 Jamie

Do you have to pay the church?

01:00:46 Jamie

Does the church get any subsidies?

01:00:47 Harrison

Yeah, the church got tax breaks.

01:00:48 Thomas

It gets tax breaks, yeah.

01:00:50 Harrison

Income is not taxable.

01:00:52 Harrison

We're going to have to have some sort of- Registered charities.

01:00:54 Harrison

We're going to need an archbishop.

01:00:58 Jamie

Are we going to have royalty or the Messiah?

01:01:00 Harrison

We don't get elected royalty.

01:01:02 Thomas

Yes, I'm the king.

01:01:03 Harrison

To be fair, that is how it works.

01:01:06 Harrison

That is how it works in the Middle Ages.

01:01:08 Jamie

I'm going to kill Tom now.

01:01:09 Jamie

I'm in charge.

01:01:10 Jamie

Tom, have you died yet?

01:01:12 Thomas

I don't think so.

01:01:13 Jamie

That's cool.

01:01:14 Thomas

We are coming on nearly a year.

01:01:17 Thomas

In like 3 months.

01:01:18 Jamie

Katie, you have been evicted.

01:01:22 Thomas

Any suggestions, Katie, for the services?

01:01:24 Jamie

Katie, do you have any services that you're going to provide us, Katie O'Neal?

01:01:30 Jamie

Do you have any services that you're going to provide?

01:01:31 Jamie

We've come up with a few.

01:01:33 Jamie

I imagine you'll...

01:01:34 Jamie

What?

01:01:37 Jamie

Well, that'll pollute your mind.

01:01:38 Jamie

You won't be able to think of anything but the ones we've said.

01:01:46 Thomas

Because now she's currently thinking well.

01:01:49 Jamie

One example is a tall smith where

01:01:52 Jamie

I'll go out and I'll grab you some enchants that you want.

01:01:55 Jamie

You can specifically request.

01:01:56 Jamie

And I feel like you're not listening.

01:01:59 Thomas

What gave you that impression?

01:02:02 Jamie

Hello.

01:02:04 Jamie

Katie.

01:02:04 Jamie

Are you willing to be awake?

01:02:09 Jamie

No.

01:02:11 Thomas

Gringe.

01:02:11 Thomas

I actually got work in the morning.

01:02:13 Harrison

Work in the morning.

01:02:15 Harrison

You got work in the morning.

01:02:17 Harrison

Work in the morning.

01:02:20 Harrison

You got work in the morning.

01:02:22 Jamie

Morning.

01:02:22 Thomas

We're getting at 10.

01:02:24 Jamie

Who would have a light in?

01:02:25 Jamie

Have you changed your alarms?

01:02:27 Jamie

Yeah.

01:02:27 Harrison

What time do you have to get up?

01:02:30 Jamie

Getting up a little bit later 'cause like, 'cause I need like an hour for everybody else.

01:02:37 Jamie

But I've got on Fridays, it's a short day anyway, but I've got like a full training thing.

01:02:51 Jamie

So, like, I don't want to cut that short and risk failing the training.

01:02:57 Jamie

I'm just going in later so that I leave at the same time as everybody else.

01:03:04 Jamie

Katie, do you have any services that you're going to provide?

01:03:08 Thomas

That's Katie O'Neal.

01:03:12 Jamie

Flowers.

01:03:13 Thomas

Flowers.

01:03:13 Thomas

The flower service.

01:03:17 Harrison

That is more likely to do this.

01:03:19 Jamie

William, it should go around and place the flowers.

01:03:21 Harrison

That's like gardening, yeah.

01:03:23 Harrison

A gardener.

01:03:23 Thomas

A gardener.

01:03:24 Jamie

What's the fun version of the gardener?

01:03:29 Harrison

My fingers make lots of noise.

01:03:31 Jamie

They do when you smash them against one of them.

01:03:33 Harrison

But I don't, I think that's, I think it's quite an abnormally loud.

01:03:36 Harrison

I'm making some noise.

01:03:37 Harrison

No, but I think that's a clapping.

01:03:39 Harrison

This is just one finger.

01:03:40 Harrison

That's abnormally loud for a finger, I think.

01:03:43 Jamie

How do you do it?

01:03:44 Jamie

Teach me your ways.

01:03:50 Harrison

It's all about cleaning connection.

01:03:55 Harrison

Cheating.

01:03:59 Thomas

Flower.

01:04:03 Jamie

Wow.

01:04:04 Jamie

Is it because she's a woman?

01:04:06 Thomas

Yes.

01:04:07 Thomas

Racist.

01:04:08 Thomas

Yes.

01:04:08 Thomas

Woman tax incomes double.

01:04:11 Jamie

Does Katie get paid less?

01:04:13 Harrison

It's not a wage gap, it's a tax gap.

01:04:17 Thomas

That's a good one.

01:04:17 Thomas

Now she's asleep.

01:04:18 Thomas

We could all vote against her.

01:04:20 Jamie

I vote for the abolishment of the VCC.

01:04:22 Harrison

Is that Parliament works?

01:04:23 Harrison

Wait, one of the MPs fall asleep.

01:04:26 Thomas

I don't get that for women.

01:04:29 Jamie

Women of tax to eighty-five percent.

01:04:31 Thomas

Eighty-five percent.

01:04:32 Jamie

Is Katie allowed to own a bank account?

01:04:35 Thomas

She has.

01:04:36 Thomas

That actually doesn't actually have the minute.

01:04:39 Thomas

Because it would be against the rules.

01:04:40 Thomas

Yeah, no, bank accounts are allowed for women.

01:04:44 Thomas

They can't be trusted in their personal finances.

01:04:52 Thomas

Trains.

01:04:53 Thomas

Trains.

01:04:55 Jamie

I was going to build a subway, but it's not what you want.

01:04:57 Thomas

No, I mean, just walk.

01:04:59 Jamie

No, I refuse to walk.

01:05:01 Thomas

No.

01:05:02 Jamie

Helicopter.

01:05:02 Thomas

I'm a sprint.

01:05:06 Jamie

Still need to build a path for my aerial.

01:05:09 Jamie

Still need to build broader paths.

01:05:11 Thomas

Yes, I've been doing some path thing.

01:05:15 Thomas

The Parthenon.

01:05:17 Thomas

All right, anything else to discuss?

01:05:18 Thomas

I don't know if anyone else has any...

01:05:19 Thomas

Probably not.

01:05:26 Jamie

I'm going to put up vending machines in places.

01:05:28 Thomas

Vending machines.

01:05:30 Thomas

I mean, that's kind of already have that.

01:05:32 Thomas

It's in shops.

01:05:35 Thomas

Yeah, but for food, exclusively food.

01:05:38 Thomas

Why wouldn't you buy pumpkin pies from?

01:05:40 Jamie

Well, you could get bread.

01:05:42 Thomas

They're actually cake.

01:05:43 Jamie

Oh wait, no, you can't make cake.

01:05:46 Jamie

It's bread.

01:05:49 Thomas

It's probably everything I wanted to say.

01:05:52 Jamie

I'm looking forward to my mining service.

01:05:57 Thomas

Except the services in it.

01:06:00 Harrison

I think the phase has begun again.

01:06:02 Thomas

Or Minecraft.

01:06:04 Jamie

I don't want to think of it as a phase.

01:06:07 Thomas

This will be our third phase.

01:06:10 Jamie

That's the most I've ever phased.

01:06:12 Jamie

On the same server.

01:06:14 Thomas

On the same server.

01:06:16 Thomas

No, I give up restart.

01:06:17 Thomas

We don't need any of this.

01:06:18 Thomas

Communism.

01:06:22 Jamie

Just go again.

01:06:24 Thomas

Go again.

01:06:27 Thomas

Services contracting.

01:06:29 Jamie

I thought resource gatherer should be on there because what if it's like with ahead?

01:06:34 Jamie

Like something like that?

01:06:37 Thomas

Warrior for hire who will go and kill things.

01:06:42 Thomas

I feel like resource coverer.

01:06:44 Thomas

I mean, you could set that up as a shop.

01:06:47 Jamie

It's definitely a service.

01:06:48 Thomas

It's a service.

01:06:49 Thomas

I feel like it's too broad though for having mining as one and then resource cover is another.

01:06:55 Jamie

Mass resource.

01:06:57 Jamie

So I want to say like, yeah, I want to say sand.

01:06:59 Thomas

It's building builders merch, a Selco.

01:07:02 Jamie

Selco.

01:07:02 Thomas

Building merchants.

01:07:04 Jamie

Does everyone know what Selco is?

01:07:05 Thomas

Travis Perkins.

01:07:05 Jamie

I really like what Selco was about a month ago.

01:07:07 Thomas

Travis Perkins.

01:07:09 Jamie

I've never heard of that.

01:07:09 Thomas

No, they do building supplies.

01:07:12 Jamie

Get it from AMJ.

01:07:15 Jamie

I believe they're concrete.

01:07:17 Thomas

We can do Selco.

01:07:19 Thomas

Selco.

01:07:22 Thomas

Travis Perkins.

01:07:23 Thomas

We'll do TP.

01:07:23 Jamie

What about AMJ?

01:07:27 Thomas

We do have concrete in the game actually, don't we?

01:07:31 Thomas

Are we getting concrete slips and stairs?

01:07:34 Jamie

Oh wait, no, has it got no shed?

01:07:36 Thomas

We've got no shed made of concrete.

01:07:39 Jamie

Got no dirt, get it today, get it from A&J.

01:07:44 Jamie

I don't know.

01:07:46 Thomas

Hopefully I haven't got any marker pen on me.

01:07:50 Thomas

T-shirt.

01:07:50 Thomas

I didn't think about that, wore the wrong one.

01:07:52 Jamie

It's probably marker.

01:07:57 Jamie

Oh wow.

01:07:57 Jamie

Mark your man.

01:07:58 Jamie

Mark your man?

01:07:59 Jamie

It's not bloody football, is it?

01:08:02 Thomas

Are you abandoning the football field?

01:08:05 Thomas

No.

01:08:05 Jamie

I feel like there's more to do with the new people.

01:08:08 Jamie

I don't remember.

01:08:10 Thomas

The new people.

01:08:11 Thomas

The cubes.

01:08:11 Thomas

The immigrants.

01:08:12 Thomas

Oh.

01:08:13 Jamie

I think I would probably let the Abdillo go.

01:08:15 Jamie

Or the Abdillo.

01:08:19 Thomas

There you go.

01:08:19 Thomas

If you had the animal acquisition, mob acquisition, you could have hired the...

01:08:24 Jamie

Yeah.

01:08:35 Jamie

Sorry.

01:08:35 Jamie

How could you?

01:08:36 Jamie

I didn't mean to.

01:08:40 Jamie

I want to go kill the thing.

01:08:45 Harrison

Guardian.

01:08:46 Jamie

No, I want to collect the.

01:08:47 Jamie

Fred.

01:08:48 Jamie

I've never had a ******* I've never had a totem before in Minecraft.

01:08:52 Jamie

I've never killed it.

01:08:53 Jamie

I've never killed the thing for that.

01:08:55 Harrison

What do you have to kill to get a totem?

01:08:56 Jamie

I don't know, it's in the woods of the mansion.

01:08:58 Thomas

Yeah, the uh, that I've over in it.

01:09:01 Jamie

Is that the one that can summon those?

01:09:03 Harrison

Have we found it?

01:09:04 Harrison

Have you found a lot of mansion yet?

01:09:05 Jamie

I've got countless maps.

01:09:08 Thomas

I couldn't leave my case.

01:09:09 Harrison

I was actually fine.

01:09:10 Harrison

I thought you could just find natural.

01:09:11 Harrison

You can do it again.

01:09:12 Jamie

But that's also an option.

01:09:14 Thomas

Whenever I see something while I'm out in my travels, I F3 and take a screenshot.

01:09:19 Harrison

Yeah, because we got a trial tender, haven't we?

01:09:22 Thomas

Yeah.

01:09:22 Thomas

I mean, I've destroyed half of it for copper.

01:09:24 Harrison

That's fair.

01:09:26 Jamie

That's a good idea.

01:09:28 Thomas

You need copper for the big dome and other things.

01:09:31 Thomas

I'd say half of it, maybe about.

01:09:32 Thomas

I mean, that's huge.

01:09:34 Jamie

I mean, most of it.

01:09:35 Harrison

Do you want to do, at one point, I can addition to, like, the ocean monuments and whatnot?

01:09:40 Thomas

We could do, yeah.

01:09:41 Jamie

I think it would be cool.

01:09:44 Jamie

Yeah, I think.

01:09:44 Harrison

Oh, what?

01:09:45 Thomas

Yes.

01:09:46 Harrison

That was that.

01:09:47 Harrison

I think you're going to need to.

01:09:48 Harrison

Oh, yeah.

01:09:49 Jamie

I've also never got one of them.

01:09:52 Harrison

I can't be ***** with swimming though, which is our main issue.

01:09:55 Jamie

But that's why.

01:09:56 Harrison

But how do you make them?

01:09:57 Harrison

You don't need to do it to get the pond in the 1st place.

01:10:01 Harrison

Yeah.

01:10:02 Jamie

Then you don't need to worry about swimming, I suppose.

01:10:04 Jamie

Well, you don't need to worry about dying.

01:10:12 Jamie

And sponges, they're fun.

01:10:15 Harrison

We could drain the ocean.

01:10:17 Harrison

We can make a canal.

01:10:19 Thomas

Through the ocean.

01:10:22 Thomas

A reverse canal.

01:10:24 Jamie

I think that's a tongue.

01:10:25 Thomas

It's like a floating railway.

01:10:26 Harrison

That's quite cool to consider.

01:10:28 Thomas

It's almost like a bridge.

01:10:31 Thomas

Oh, it's different.

01:10:32 Jamie

Is there a bridge for under?

01:10:33 Harrison

Is there a water bridge?

01:10:35 Jamie

Water somewhere.

01:10:36 Thomas

Bridge doesn't go out.

01:10:38 Thomas

Yeah, I think build an aqueduct over an ocean.

01:10:47 Jamie

Got no shed.

01:10:50 Thomas

I mean, I might put a...

01:10:54 Thomas

HS1 speed one.

01:10:59 Thomas

A bypass with like, there's things you can do to get minecarts going quicker, even in Vanilla.

01:11:05 Jamie

Is what the little...

01:11:09 Thomas

The circle things in the tracks.

01:11:12 Jamie

Yeah, the...

01:11:13 Thomas

Yeah.

01:11:13 Jamie

That could be cool.

01:11:15 Jamie

You'd have to build a little upper bit.

01:11:19 Thomas

Upper bit.

01:11:19 Jamie

As in like where you can pass the wrong boat?

01:11:25 Thomas

Could you just do two of them?

01:11:27 Thomas

What do you mean?

01:11:28 Thomas

Or maybe we're thinking of different things.

01:11:30 Jamie

I'm saying if it's going to be like sea level, then you won't be able to get through, but I assume it's not going to be sea level.

01:11:37 Thomas

The railway.

01:11:39 Jamie

Yeah.

01:11:39 Thomas

But you can change your minds.

01:11:40 Jamie

Yeah, that's what I'm saying.

01:11:41 Thomas

Oh, okay.

01:11:43 Harrison

In the official slave religion, is the dog who killed one of the black sheep, is he recognised as the devil?

01:11:51 Thomas

I feel like he's Judas.

01:11:53 Thomas

It could be a demonic figure.

01:11:54 Harrison

Yeah, I think he, I think he's a demonic figure.

01:11:56 Harrison

Because he's not, because Judas betrayed the religion.

01:11:58 Harrison

I think the dogs have part of religion.

01:12:00 Jamie

I felt quite betrayed.

01:12:02 Jamie

I like dogs.

01:12:02 Harrison

But he wasn't part of...

01:12:05 Jamie

What's the dog's name?

01:12:07 Harrison

Yeah, we haven't given him a name.

01:12:10 Harrison

Maybe he can't speak his actual name.

01:12:12 Harrison

It's got to be like...

01:12:16 Harrison

The disgrace.

01:12:21 Jamie

The traitor.

01:12:25 Harrison

Skunk.

01:12:25 Harrison

The Dog of Malice.

01:12:27 Thomas

The Dog of Malice, yes.

01:12:32 Thomas

Manchester.

01:12:33 Harrison

Manchester.

01:12:35 Thomas

Central Bank.

01:12:36 Harrison

No malice here.

01:12:37 Jamie

The Manchester of Malice.

01:12:38 Thomas

I can make a plan of rough.

01:12:40 Thomas

I'll just do like big building here, main roads, and then a fox.

01:12:46 Jamie

That's where Malice used to play.

01:12:50 Thomas

That's not sorted.

01:12:53 Harrison

Sorry, are you planning on having a central bank being in the industrial zone then?

01:12:58 Thomas

The industrial zone is the northern bit of the Manchester.

01:13:00 Thomas

Okay.

01:13:01 Thomas

We can also have like other government buildings.

01:13:05 Harrison

Yeah, because I actually need a bit of building to oversee the industrial zone.

01:13:07 Thomas

I see this being like our capital city, if it were a real...

01:13:11 Harrison

What, the industrial zone?

01:13:11 Jamie

Not the island, not the Viaductian island.

01:13:14 Thomas

Well, I guess it could be this is like the primary.

01:13:17 Thomas

It's the biggest city.

01:13:19 Thomas

It could be like Australia, where this is Canberra, is it?

01:13:23 Harrison

Yeah, you've got like a ministry capital and like...

01:13:25 Thomas

Which is small, but it's purpose-built.

01:13:27 Thomas

And then this is the main place.

01:13:30 Thomas

But I want to put a big bank in there, big university where you could do courses, teach each other things.

01:13:37 Jamie

Redstone courses.

01:13:38 Jamie

Yeah, that's what you teach.

01:13:39 Harrison

Yeah, I've lived my lessons.

01:13:41 Thomas

You can have a unit, big library, other general things.

01:13:46 Jamie

I can make of someone who would like a big library.

01:13:49 Thomas

Yeah, put lots of books in it.

01:13:50 Jamie

The fact she hasn't no bookshop yet is the most baffling thing.

01:13:53 Thomas

She's said that since she had two, she wants her.

01:13:56 Thomas

Yeah, for three years.

01:13:58 Thomas

Potions and bookshop.

01:14:02 Jamie

I mean, should make a bookshop, make a little calendar.

01:14:04 Thomas

I'm sending potions in the pub essentially for my beers.

01:14:08 Jamie

I still need to send a little wheat underneath the beer.

01:14:11 Jamie

Yeah, I'm still waiting on the wheat delivery.

01:14:14 Thomas

Yeah.

01:14:15 Jamie

It's because of HS2.

01:14:16 Thomas

Yeah, well, you can send it by the postal system once.

01:14:19 Jamie

Yeah, Harrison, can I send, can I send beer by post?

01:14:23 Jamie

Beer?

01:14:23 Jamie

Yeah.

01:14:24 Harrison

I think you can send beer by post.

01:14:26 Harrison

How you can send beer?

01:14:26 Harrison

Because beer's not in Minecraft.

01:14:28 Jamie

By post.

01:14:30 Harrison

What is beer?

01:14:31 Harrison

Is it just bread, but you call it beer?

01:14:34 Jamie

I was planning on making it wheat, but I call it beer, and then Tom has to deal with it.

01:14:39 Harrison

I see.

01:14:39 Harrison

To be fair, we do have beer.

01:14:43 Thomas

We've got the beekeeper's ale.

01:14:44 Thomas

Yeah, the likes white lager.

01:14:47 Jamie

Yeah, but this is going to be the...

01:14:49 Thomas

Yeah.

01:14:49 Harrison

Oh, is this, sorry, is this like mass-produced, like, off-like, we need an off-licence, that's what we need.

01:14:55 Harrison

We've got an on-licence, we need an off-licence, so we need the off-it.

01:14:57 Thomas

Is that what you're building?

01:15:00 Thomas

The rival store.

01:15:02 Thomas

The first competition is a useless service.

01:15:05 Jamie

This is made by Slavery.

01:15:08 Thomas

Oh yeah, Slavery.

01:15:09 Thomas

See, we support organic projects in there.

01:15:13 Jamie

You can say that and then just not specify which is which.

01:15:16 Thomas

We have Harrison's Organic Pumpkin Pies, we have the Beekeepers AO from the organic shop.

01:15:24 Thomas

We have this which might be organic.

01:15:26 Jamie

Oh when the beans come out the tin.

01:15:36 Thomas

Anyway, meeting.

01:15:39 Jamie

Meeting.

01:15:39 Thomas

Yes.

01:15:41 Thomas

We did a meeting.

01:15:42 Thomas

We could probably stop the minutes.

01:15:44 Thomas

We're still going.

01:15:45 Thomas

It's not going to take much size in my things it turned out.

01:15:54 Thomas

I'm coming up with a methodology to collect data.

01:15:59 Thomas

So for the next meeting in a month, month, two months or whatever, I can do like a report.

01:16:03 Jamie

Tomorrow.

01:16:04 Thomas

A few page report of different stats or whatever so we have more concrete, we can discuss more numbers and things.

01:16:12 Thomas

And how well things are going.

01:16:14 Thomas

We have evidence backs rather than ideology, collectively driven stuff.

01:16:22 Jamie

Well, you'd have you'd have good numbers for how the economy is doing with trade because of the income tax.

01:16:28 Thomas

Yeah.

01:16:28 Thomas

Are we recording everything in a spreadsheet?

01:16:31 Jamie

I don't think I will.

01:16:33 Jamie

I think I'll be recording a tally.

01:16:39 Thomas

I mean, it doesn't have to be every item you've got, but weekly income.

01:16:43 Jamie

Yeah, I'll be doing weekly income, yeah.

01:16:44 Thomas

I don't know how I'm going to police it.

01:16:50 Jamie

I feel like most of it's just honesty, isn't it?

01:16:52 Thomas

Yeah, but I feel, but I mean, people make mistakes.

01:16:57 Thomas

Like Harris is there.

01:16:58 Thomas

Oh yeah, and KT.

01:16:58 Jamie

Yeah, some tax is what I was referring to.

01:17:01 Jamie

**** it, you laughed lightly that.

01:17:03 Thomas

Damn, I can't even remember what she had.

01:17:05 Jamie

I don't think you gave her any punishment.

01:17:08 Thomas

I don't remember at all.

01:17:09 Thomas

I remember she did do something, but I don't remember what it was.

01:17:12 Jamie

She didn't pay her tax until you told her that she had to pay her tax, which was late.

01:17:16 Thomas

Yeah, I should have taken something then.

01:17:17 Jamie

Oh, we need to build a court still, don't we?

01:17:19 Thomas

Yes.

01:17:19 Thomas

Well, the...

01:17:20 Jamie

It's like every Minecraft server ends when they build a court.

01:17:23 Thomas

The pub is technically a court.

01:17:24 Thomas

Like, if you read the signs, it's defendant's bench, possibly a bench.

01:17:27 Thomas

Because that's what it was.

01:17:29 Thomas

It was the pub and court.

01:17:29 Thomas

But we turned it into a voting cabinet.

01:17:32 Thomas

That makes sense.

01:17:34 Jamie

You got a pub?

01:17:35 Thomas

Yeah.

01:17:37 Thomas

It's where the real politics is discussed.

01:17:41 Thomas

Standard model, standard model, standard model.

01:17:43 Jamie

Are you still planning on building a jail?

01:17:48 Thomas

At some point, it's going to be a while away because I've got this to do now.

01:17:54 Jamie

This nonsense.

01:17:54 Thomas

I built that really small one the other side of the train station.

01:17:58 Thomas

That's the temporary one.

01:18:00 Thomas

If we want to put some...

01:18:01 Jamie

We've got to ship them off to a different island.

01:18:03 Thomas

Yeah, the Alcatraz.

01:18:04 Jamie

Yeah.

01:18:08 Jamie

Is there a play on words of Alcatraz?

01:18:10 Thomas

No, I thought it'd be fun.

01:18:11 Thomas

I don't know if I said this.

01:18:12 Jamie

No.

01:18:13 Jamie

It sounded like you were just completely...

01:18:18 Jamie

I said, Is there a play on words of Alcatraz?

01:18:20 Jamie

and you started just saying, No.

01:18:22 Thomas

Oh, okay.

01:18:23 Jamie

No, no playing on words.

01:18:24 Thomas

No, no play on words available.

01:18:26 Thomas

You drop people in via gas, you hover them below with the balloon and you can drop them in on the top like a head.

01:18:31 Jamie

Sounds like a great way to smuggle drugs, though.

01:18:35 Thomas

But we can see what's happening.

01:18:36 Thomas

We can see the prisoner coming in.

01:18:38 Thomas

So you don't even go there by boat.

01:18:39 Thomas

You can't walk there.

01:18:41 Thomas

It's only restricted.

01:18:43 Thomas

Then we can open a trap door in the roof.

01:18:45 Thomas

Lower in.

01:18:47 Thomas

We slimed it up.

01:18:47 Thomas

We have flying machines.

01:18:50 Thomas

That would be cool.

01:18:51 Jamie

Flying machines.

01:18:53 Jamie

One of the easiest things to build ever.

01:18:55 Jamie

I had no idea until I built my first one.

01:18:57 Thomas

Oh yeah.

01:18:57 Jamie

Just ridiculously easy for how cool they are.

01:19:02 Thomas

It's a very, yeah, it's a low skill.

01:19:04 Thomas

Four, but still a high skill stealing.

01:19:06 Thomas

Skill stealing.

01:19:08 Thomas

Skill stealing.

01:19:09 Jamie

Skill stop.

01:19:12 Thomas

Bloody burner, isn't it?

01:19:14 Thomas

Bloody brain drain, isn't it?

01:19:16 Jamie

See now I've got the double mono.

01:19:17 Jamie

I can have Minecraft here and I can have the bank of Midstock.

01:19:21 Thomas

Oh yeah, frequently updated.

01:19:24 Thomas

Hosted on GitHub pages.

01:19:28 Jamie

That's how I hosted mine.

01:19:32 Thomas

I got a ChatGPT took me through the GitHub actions, so I can just push and then it builds automatically, because I use the Astro framework, so I can have reusable components and things, which is what ChatGPT suggests about it.

01:19:54 Jamie

I like to react.

01:19:57 Jamie

Made sense.

01:20:02 Jamie

Can I tell you that I'd programmed in C for assessed work?

01:20:05 Thomas

Oh yeah.

01:20:07 Thomas

Oh yeah.

01:20:08 Jamie

Oh yeah.

01:20:09 Jamie

I got the answers.

01:20:11 Jamie

I ******* love, I love coursework where I tells you whether the answer's right or not.

01:20:15 Jamie

Yeah.

01:20:15 Jamie

It was just, yeah, it was encryption.

01:20:18 Jamie

Well, no, it was password cracking, but there was encryption.

01:20:23 Jamie

And then they were all unique, and then you pressed it in, and then it would validate, and then it'd be like, yeah, you got it right.

01:20:31 Jamie

I need to submit that.

01:20:31 Jamie

It's due tomorrow.

01:20:34 Jamie

If you submit early, you're a loser.

01:20:41 Thomas

Services.

01:20:42 Jamie

That's due at Friday tomorrow.

01:20:44 Jamie

******* no one that I spoke to have finished that.

01:20:47 Jamie

That's due at 2pm tomorrow.

01:20:50 Thomas

Average unit.

01:20:51 Jamie

******* good night tonight, lads.

01:20:54 Thomas

I remember staying up until we had about 12 the other day, the following day.

01:20:59 Thomas

To uni.

01:21:00 Thomas

Going to Tesco at 6am halfway through my assignment.

01:21:04 Jamie

I really hope not to.

01:21:09 Jamie

Not to have to do that this year.

01:21:10 Jamie

I definitely will.

01:21:11 Jamie

I mean, I'm already planning on leaving an assignment until two days before.

01:21:18 Jamie

I've got a ******* quiz on Tuesday that's worth 18% of the module.

01:21:24 Jamie

They've taught us nothing.

01:21:27 Jamie

It's ******* data engineering.

01:21:29 Jamie

I'm doing a quiz on data engineering.

01:21:32 Jamie

It's not as though that's one of the most practical subjects out there.

01:21:37 Jamie

What's a data leak?

01:21:38 Thomas

When do you think this post office is going to be built?

01:21:41 Jamie

2027.

01:21:42 Thomas

2027, yeah.

01:21:46 Jamie

March.

01:21:50 Jamie

It doesn't need to be big.

01:21:52 Jamie

It's also a post office.

01:21:53 Jamie

It can just be made out of brick.

01:21:54 Thomas

I mean, it can just be a chest.

01:21:58 Jamie

No, because if it's just a chest, it will always be a chest.

01:22:00 Thomas

Well, yeah.

01:22:01 Thomas

I thought he's going to build.

01:22:06 Jamie

Hopefully a post office.

01:22:07 Thomas

He's building it in front of the bloody windows of the train station.

01:22:11 Thomas

The natural light.

01:22:13 Jamie

No natural light.

01:22:15 Jamie

Artificial light.

01:22:16 Jamie

Do you need some frog light, stop.

01:22:20 Thomas

You see, all that effort.

01:22:22 Thomas

Barely any sales.

01:22:23 Jamie

That's ridiculous.

01:22:24 Jamie

They're the nicest block.

01:22:25 Thomas

Exactly.

01:22:26 Jamie

I ******* love frog words.

01:22:30 Jamie

It is genuinely tough because if I lower the prices, I get that's money.

01:22:38 Thomas

Well, yeah, but you get, well, you get more money because you get more sales.

01:22:40 Jamie

But will I get more sales?

01:22:41 Thomas

Supply not what you'd find out.

01:22:42 Jamie

I hoping I would.

01:22:43 Thomas

Well, I'll find out.

01:22:45 Thomas

Spider-Man.

01:22:46 Jamie

That is the rule of.

01:22:47 Thomas

Advertising.

01:22:48 Thomas

Get everyone to build in frog lights.

01:22:53 Jamie

To be recognised by the comstock, you must have frog lights on your phone.

01:22:59 Jamie

Frog lights could be the standard for lighting up phones.

01:23:02 Thomas

Oh, I heard Nestle, the lovely company, and other companies like it.

01:23:08 Jamie

They're my least favourite company.

01:23:09 Thomas

In the 90s, they fed, well they created like coffee flavoured sweets for Japanese children because they were trying to introduce them.

01:23:16 Jamie

Yeah.

01:23:16 Jamie

That's really cool.

01:23:19 Jamie

That's what you said.

01:23:19 Jamie

It's awful.

01:23:21 Jamie

It's not that awful.

01:23:23 Jamie

Their ******* thing with...

01:23:23 Thomas

It's fair enough.

01:23:25 Thomas

If you buy the sweets.

01:23:26 Jamie

What was the with the water?

01:23:29 Jamie

Do you know their water thing with mothers of like...

01:23:35 Jamie

Oh, wait, no, sorry.

01:23:36 Thomas

Formula.

01:23:36 Thomas

Formula milk.

01:23:37 Jamie

Yeah.

01:23:38 Jamie

And then they started watering down the formula.

01:23:40 Thomas

Yes.

01:23:41 Jamie

Mental.

01:23:42 Jamie

Awful, awful people.

01:23:44 Thomas

You know, Harrison was having a Kit Kat earlier today on Nestle.

01:23:49 Jamie

I mean.

01:23:50 Thomas

What can you say?

01:23:51 Jamie

I probably lots of Nestle.

01:23:54 Jamie

Of course you do.

01:23:54 Jamie

They own everything.

01:23:56 Thomas

Yeah.

01:23:59 Thomas

Not all the confectionery.

01:24:00 Jamie

I attempt not to buy Cabros because they're ****.

01:24:03 Jamie

It just tastes bad.

01:24:04 Thomas

Yeah, they went downhill.

01:24:07 Jamie

Early in the morning.

01:24:09 Jamie

I've always been a galaxy man person.

01:24:12 Jamie

I mean, Tony's is the best, but it cost 4 pound.

01:24:19 Jamie

Tax.

01:24:20 Jamie

Taxation in the nation with menstruation.

01:24:26 Jamie

I'm sure plaster AI imagery everywhere.

01:24:28 Jamie

I think that'll make people happy.

01:24:30 Thomas

I think so.

01:24:32 Jamie

If I make like a kebab shot and then do like a...

01:24:36 Thomas

End the minutes.

01:24:37 Jamie

Like a 5 by 5 painting with all the AI generated imagery.

01:24:43 Thomas

People enjoying the kebab and you might get bombed.

01:24:47 Thomas

We'll find out about that.
